

Each Party shall notify the other Party of any confirmed problem reports, corrective actions, or recalls related to products that it has evaluated under the terms of this agreement. Each Party will respond to special requests for information on particular devices and will ensure that its Designated Authorities and Conformity Assessment Bodies make available relevant information on these devices, as requested.

It shall be the responsibility of the Regulatory Authorities covered by this Annex to ensure that any suspension or cancellation (total or partial) of a certificate of compliance is communicated to each other with the appropriate degree of urgency.

7.5. Fees

The regime of registration or conformity assessment fees is determined by the location of the manufacturer. The cost recovery programmes and the fees pertaining to the issuance of a certificate of compliance in each jurisdiction will remain the responsibility of that jurisdiction. Conformity assessment fees will not be charged by one Party to manufacturers located on the territory of the other Party, where the conformity assessment was conducted by a Conformity Assessment Body located in the other Party's territory.

7.6. Monitoring of the Agreement

The continuous monitoring of the equivalency of designation processes and conformity assessments for each Party's requirements that have been determined to be equivalent at the conclusion of the Confidence Building Programme, and any subsequent decisions concerning that equivalence, must be made according to mutually developed and managed equivalence maintenance and implementation activities. This will be managed by the Joint Sectoral Group.
