

January 5, 1925.

M.J. Rendall, Esq., LL.D.,
c/o Head Master,
Groton School, Mass.

Dear Dr. Rendall:-

Your letter of December 26th was received during my absence in the vacation.

Your letter expressed, I think, the view of the informal meeting at which the representatives of the Newfoundland Memorial College were present,- that is, so far as concerns other than pre-professional work, although it was felt that a little stiffening up in all departments was desirable. We would, however, be prepared, for the present, to accept the first year and the examinations at the end of it in lieu of senior matriculation.

Yours faithfully,

Principal.
