\$500,000 FUND CAMPAIGN COMMITTEE

Whyte Ave., Edmonton South

Alberta

Dec. 13, 1920.

PHONE 3464

Sir Arthur Currie,
Montreal, Que.

Dear Sir:-

Knowing you are vitally interested in the cause of Education, and all movements, which have as their object, the making of better Canadians; and having decided to launch a Dominion Wide Campaign for assistance, the Governors of Westminster Ladies College would appreciate it very much indeed, if you would give them permission to use your name on our letter heads, as mentally endorsing the project.

Prominent men all over Canada, have already given us the right to use their names; and our only reason in writing you, is for the value and good results that would be obtained by the use of your name on our Endorsation List.

A word about the College itself.

The College is essentially a Pioneer College, of the Great North West, situated practically at the gateway of a vast, new, rich, undeveloped country.

Its mission is taking care of the higher education, and the spiritual training of the young women of Western Canada; who have to leave their homes in isolated communities and proceed to the City for that education, which they cannot get in their own district.

Westminster provides that ideal College, where the educational facilities are of the very best; where the efficiency of the staff is high, but best of all where the atmosphere is that of a Christian Home of Culture and Refinement.
