

CEMETERY ACCOUNT.

Many years ago, the Lord Bishop agreed with the Trustees of the Toronto Hospital, for the purchase of sixteen acres of the Park Reserves, for a Burial Ground. This plot was subsequently found unsuitable for the purpose; and by order of the Vestry, the Churchwardens purchased the present site; the cost of which was to be, £1,250, payable in ten years, or £1,000 if paid in five years. The land was conveyed to the Churchwardens, and consecrated. The £1,000 were paid within the five years, and a saving of £250 made thereby. The plot in the Park was laid off in town lots, and leased at a rental of £126 17s. 6d., and the rents applied in paying the interest on the debts of the Cemetery. The following are the Fees settled by the Lord Bishop:—

Plots 8 x 8 in block Y, £2 10s.; and 10s. for every grave opened: 5s. extra for choice of plot in other blocks.	
Ground for single graves in block Y or T, 10s.; and 10s. for each grave.

There is but one Servant employed constantly at the Cemetery, at 42*l.* per annum, but during the epidemic last year much additional assistance was required; when bodies are removed either from the old Burial Ground in the City, or from the Receiving Vault, and for repairing the roads in the Spring and Fall, it is also necessary.
