## EXAMINATIONS AND TESTS.

---

1. Scripture, Geography, Canadian History and Writing will be tested once only each half-year. In Dictation, English, French (reading, grammar, dictation) and Arithmetic, there will be two tests during each half-year.

2. The half-year is the unit of time, and when two tests are given, the second may review the work covered by the first.

3. Test papers shall be set by the Superintendent or by Principals at his request. Test papers set by Principals are subject to revision by the Superintendent.

4. Papers in subjects that are tested once only each half-year may be allowed three-quarters of an hour for answering. When several tests are set on the same subject, *e. g.*, Arithmetic, an hour may be allowed for answering the series. Other test papers must not require more than half-an-hour for answering.

5. Each test in Arithmetic may include mental, sight and written work. Rapid work (15 marks) in fourth, fifth and sixth years will be given at second test only.

6. Pupils in all years will be expected to punctuate their dictation with the period and interrogation mark. Fifth and sixth year classes must insert quotation marks also. Other marks in punctuation will be tested in language papers only.
