strong enough to take some more reci-procity medicine. In reply to the Lib-eral claim that Sir John A, Macdonald and other old-time Conservatives had

and other old-time Conservatives had favored reciprocity, he wanted to know if, assuming that these statesmen did favor such a treaty in their time, did that justify reciprocity to-day? Such a claim was as ancient and mossgrown Toryism as anyone could be accused of. It was a silly, or, perhaps, a "Seal-

ey" (pun on the Liberal candidate's Done in the Dark. Sir James denied that reciprocity is party issue, and cited the fact that

the agreement was arranged by Fielding and Paterson without the knowl-

edge of anyone else in Canada, except Sir Wilfrid Laurier. "If it was a party question, why did not the members of the Liberal party know about 11?" ask-

the premier. He then referred to the statement of Lloyd Harris, that if the question had been brought

OBSERVATORY, Toronto, Aug. 31.—
Fine weather has prevalled to-day thruout Canada, except for a few local showers in Northern Alberta, the Lake Surerior district and Western Nova Scotia. Temperatures have been higher in Saskatchewan, Manitoba and Ontario. Except centrally, rain falls have occurred on the middle Atlantic Coast.

Minimum and maximum temperatures:
Atlin, 36-60; Victoria, 54-70; Kamloops, 56-70; Domonton, 48-64; Prince Albert, 46-70; Calgary, 46-63; Moose Jaw, 47-64; Regina, 45-78; Winnipeg, 62-78; Port Arthur, 50-80; Parry Sound, 48-71; London, 48-71; Toronto, 50-70; Ottawa, 44-70; Montreal, 48-66; Quebec, 48-70; Chatham, 44-70; St. John; 50-66; Halifax, 56-64.

—Probabilities—

Lower Lakes and Georgian Bay—
Moderate southerly winds; warmer and mostly fine, with thunderstorms in a few localities.

Ottawa and Upper St. Lawrence—East.

Ottawa and Upper St. Lawrence—East. and mostly fine, with thunderstorms in a few localities.

Ottawa and Upper St. Lawrence—East and south winds; local showers, but mostly clear with little higher temperatures.

Lower St. Lawrence and Gulf—Moderate to fresh easterly winds; cloudy and cool with showers.

Maritime—Fresh to strong easterly winds; cool and cloudy, with rain.

Superlor—Fair, much the same temperature.

Manitoba and Saskatchewan—Fair and warm.

900,000 aeres of good land still unoccupied, still in the hands of the crown, It is a great and a goodly heritage, one to be prized above all things, to be guarded, to be utilized. Here is a potential home-market of unsurpassed magnitude, of marvelous possibilities. It is not saying too much to prophesy that it would double the present available home market if properly developed. Moreover, it is a wonderful heritage for which far too little is being done. How shall we develop it to something like capacity?

> not to the railroads. They are interested in their own lands in the west, ested in their own lands in the west, and are desirous of settling a country which will give them a long haul on goods. It is, therefore, scarcely likely that they would give their time and resources to developing new Ontario. "Still less are the westerners likely to engase in this project. They are booming their own section and they take care at their exhibitions to exalt the great at the expense of the east, so the west at the expense of the east, so that the American immigrant or the newly-arrived settler from across the Atlantic learns very little of Ontario.
>
> More than that, the immigrant to the
> Northwest from the mother country is
> taken thru Ontario to his destination over a line of railway which takes him over a line of railway which takes him thru the most unattractive part of the province, and he knows nothing of the great rich country to the north or of this fertile garden here in the south-Govenment Should Meve.
>
> "It is to the government of the Do-

minion that we should look particu-larly. The ministry of the interior should give its energies and resources to the widespread advertisement of the fact that there is a great and greatly attractive a gricultural belt in the hin-terland of Ontario. Unfortunately, as I have learned from recent experience even the officials of the department are ignorant of the most essential facts concerning this subject.

"But what of our provincial government? Too frequently, gentlemen, they expect settlers to enter new Onthey expect settlers to enter new Ontario under pioneer conditions, such as obtained a generation ago. That is a mistaken policy. That is wrong, very wrong, in these days of rapid transportation, of automobiles, of street cars, of steam railroads. The government should act as advance agent for

Again the strain real roads. The government should act as advance agent for its settlers, should act as advance agent for the settlers of the first settlers, should act as advance agent for the settlers, should act as advance agent for the settlers, should act as advance agent for the settlers of the settlers, should act as advance agent for the settlers, should act as advance agent for the settlers, should an increase of over one million hogs, and interest of over one million hogs, and interest of the control of the ward lates the first and here it we corresponding them the virtue for the settlers of the S. Booth. Toronto, Ont.

cattle ring where the Holsteins were judged in the afternoon. The grand prize went to Tig Wood of Mitchell, Ont., who won from about a score of competitors.

The butter-making competition opened at the auditorium of the dairy building yesterday with a big crowd of spectators present. Five young ladies are entered. The competition, which will continue for several days, is being supervised by Miss Laura Rose of the Ontario Agricultural College, Guelph. Prizes amounting to one hundred dollars will be awarded the winners.

More About Hogs.

In the discussion from the platform and in the press one important consideration seems to have been overlooked, namely, the difference in our exports of live stock in proportion to the number of live stock raised and fed for market in the Dominion; it is conceded that at the present time only other markets. The proportion was different afteen years ago. Reverse the proportions: that would be four

ners.

For the third time in succession, R.

A. Thompson of Atwood has won the associated cheese trophy, which, therefore, becomes his property.

Fifteen members of the fire brigade of Lyon, N.Y., visited the grounds yesterday and called upon the Toronto firefighters who are stationed at the ceipts for the year up to the end of ceipts for the year up to the end of The daily lecture on health and hy-giene in the auditorium of the women's building yesterday was delivered by Dr. Hastings, medical health officer. last month tabulate: cattle, 1,792,400; calves, 380,000; hogs, 4,700.000; sheep, 2,050,000; arriving in 175.000 cars.

reprice Current reports western hog packing since March 1 at 12,980,000, a gain of 3,215,000 over last year."

Wherefore you can clearly understand that there is an increase of 25 per cent. in hogs; this year in the United States this increase has brought down the prices paid by the packers from \$1.25 to \$1.50 per 100 lbs. to \$1.50 per 100 lbs.

It is remarkable how well the Tor-onto markets have kept up the present prices in the face of a 50 per cent. increase in the receipts of four weeks. The present conditions of the markets are brought before you, the prospective market is foreshadowed; it rests with you who are raisers and feeders of live stock whether you will fight for your home market that now con sumes your 80 per cent. output or favor the other side. You cannot afford to be neutral in this fight.

RUSSELL ADBRESSES WORKERS Reciprocity inimical to Canada's Interests, He Says.

Joseph E. Russell, the Independent Conservative candidate in East To-ronto, explained his position on reciprocity to The World last night. am opposed to reciprocity," said Mr. Russell. "But reciprocity and reciprocity alone is the issue before the country at the present time. If the people try at the present time. If the people want reciprocity they will return a majority of reciprocity candidates. If the Liberal Government is returned by a substantial majority—say twenty or thirty—and I am returned as well, I shall consider it my duty to support the bill when it comes before the house. On the other hand, if the matter comes before parliament with a ter comes before parliament with a mere margin of votes in its favor, or if it should be a deciding vote, I do not think I would be justified in support-

ing it.
"I explained that view to Mr, Eckardt on Wednesday, but I did not understand that he would make any such announcement as appears in the

John Morton Bryce.

John Morton Bryce passed away at the age of 72 years at his residence, 233 Garden-avenue, on Wednesday. The deceased was born in Edinbursh, Scotland, but came to Canada at an early age. Practically all his life he has been an engineer in the employ of the C.P.R., and he had the distinction of operating the first engine which ran from Winnipeg scross the Assiniboine River. He is survived by three sons and one daughter, and was a brother of Wm. Bryce, whosesale fancy goods dealer of 489 West Queen-street.

Mr. Borden Speaks in Richmend. Oue, -A Point for the Farmers te Consider.

RICHMOND, Que., Aug. 31.-R. L. Borden arrived here this afternoon in dience in suport of Dr. Hays, the opposition candidate in Richmond-Wolfe division. Mr. Borden was given a cor-

leader, "that the United States would
