

EUROPEAN LABOR STRONGLY OPPOSED

Object to U. S. Restriction on Immigration as Infringement of Rights.

Paris, Jan. 28.—The European workers believe that labor has the right to go and come freely wherever employment is to be found, regardless of frontiers, declared Hon. Geo. Nicoll Barnes, Labor representative on the British peace delegation, in discussing the proposal to prohibit immigration to the United States for some years after the signing of the peace treaty. European labor, he said, strongly opposed to such a law, also it was unable to prevent its passage.

The European labor market, Mr. Barnes pointed out, was full, while the field for employment in the United States hardly had been scratched over. Mr. Barnes said he thought provision should be made, however, for employment of immigrants before they embarked for a foreign land.

Mr. Barnes was in conference today with delegates from the British trades unions regarding the draft of a measure for the proposed international labor bureau, which, when completed, will be submitted to the representatives of British employers. After this has been done, the measure will be taken before the peace conference. Other drafts, it is expected, will be submitted by other nations. All are to be compared and consolidated into a final project for submission to the conference.

Co-ordinate With League.
"We are working on the theory," said Mr. Barnes, "that the alleviation of industrial conditions throughout the world is an integral part of the work of the peace conference, and that conditions of life being a menace to the peace of the world. It is not enough to affirm general principles. There should be an international organization to secure their observance. The difficulties heretofore have been, first, the lack of backing by states and lack of representation of employers and employees. The conventions of the Bern conference are still inoperative in many respects, owing to the fact that the states represented there were free to adopt them or not as they saw fit."

"Neither employers or employees could throw their weight in to give a backing to the scheme in the absence of international authority, to which they could appeal. We wish to overcome these difficulties by making our organization co-ordinate with the league of nations and by bringing together employers and employees, as well as states, and giving a status to the workers and employers."

**WILD BEASTS FORM
ANTI-MAN COMBINE**
Kingston, Jan. 28.—At the Village of Maberly, Harry Lafond was attacked by three huge wolves and a wild cat on the Bolingbroke road. He made his escape to A. Strong's, and called for help, and Austin Strong and Don Vanalstine went and tried to drive the animals away. They were chased for over a mile, and had a narrow escape. Mr. Lafond was taken home.

When Austin Strong and Don Vanalstine were returning home they were chased by a wild cat, but made their escape to a fence, where they secured some clubs. There was a fierce battle for a few minutes until the animal was killed. The wolves have been seen since.

**Arrange New Opening Hours
For Railway Freight Sheds**
Montreal, Jan. 28.—Effective Feb. 1, railway freight sheds in Canada will open at 7:30 a.m., and close at 5 p.m., except on Saturday, when the hours will be from 7:30 a.m. to 1 p.m. All teams in line at the shed at the closing hour will be accepted. At special points, where a later closing hour is essential on account of local conditions, an extra half hour is added to the end of the day, and taken off the beginning of the day. In other words, sheds will open at 8 a.m., and close at 5:30 p.m., except Saturday, when the hour will be 1:30 p.m.

The old hours of the sheds in the west, and 5:30 to 6 in the east. The present order has just been issued by the Canadian Railway Board after discussion with various boards of trade.

Meetings.
**CANADA PERMANENT
MORTGAGE CORPORATION**
ANNUAL MEETING
The Annual Meeting of Shareholders of the Corporation will be held at the Head Office of the Corporation, Toronto, Ontario, on Friday, February 7, 1919, at Twelve o'clock Noon.

for the receipt of the financial statement and report of the Directors for the past year, for the election of Directors, and for the transaction of such other business as may be brought before it.
GEORGE H. SMITH,
Assistant General Manager.

**CROWN LIFE INSURANCE
COMPANY**
Annual Meeting.
Notice is hereby given that the eighteenth annual meeting of the Crown Life Insurance Company will be held at the Head Office of the Company, Crown Life Building, 50 Yonge Street, in the City of Toronto, on Monday, February 3, 1919, at three o'clock p.m., to receive the report of the Directors for the past year, to elect directors for the ensuing year and to transact such business as may be properly brought before the meeting.
A. H. SELWYN MARKS,
Secretary.
Toronto, 2nd January, 1919.

Ottawa Making Adjustments Providing for Increased Pensions

Ottawa, Jan. 28.—Adjustment in connection with the new scheme of pensions, which provides for additional allowances for the children of disabled or fallen soldiers, are being made as speedily as possible, but it is anticipated that on account of the number of families affected there may be a little delay regarding payment in some instances.

It is pointed out that it will not be necessary for the families affected by the increase to make any inquiries, as all cases will be taken up in rotation as quickly as possible.

HIGH STANDARD OF WORK BY ANTI-AIRCRAFTERS

Force Down a Total of Over Two Hundred Hostile Machines Last Year.

London, Jan. 28.—The great value and high standard of work performed by the anti-aircraft guns, searchlights and machine guns in France is emphasized by latest information. The anti-aircrafts total bag in France in 1918 was as follows: Hostile planes crashed or forced down in our lines, 171; hostile planes forced down out of control, 73.

During the same period special anti-aircraft machine guns used by the infantry accounted for 27 hostile planes, making a grand total for ten and a half months of 271 hostile planes.

The moral effect of the searchlights, too, is enormous. On many occasions the enemy bombing machines have been kept out of vital areas, as the one thing they particularly dislike is being held in a searchlight beam and shot at. Our lights have been so efficient that it was quite an ordinary thing to pick up and hold an enemy aircraft for long periods.

In August last the night-flying squadron of the R. A. F. commenced operations, and it was mainly due to the efficiency of the searchlights that night attacking by our planes became so remarkably successful. When the enemy aircraft was not actually picked up and held in the beam, it was incidentally handed on over wide areas from beam to beam, they were pointed out by switching lights in the direction of the sound of the engine of hostile planes. At least 25 large enemy bombers were thus destroyed in three months, and hostile bombing was thereby enormously reduced.

Lafond—Pure wood pulp, 280 lbs. net, 280 to 300.

FOOD CHEAPER IN QUEBEC.
Quebec, Jan. 28.—There is a marked decrease in the price of foodstuffs in this district. At the stockyards yesterday, there was quite a supply of meat, but the demand was weak and prices were low. There is a slump of two to three cents per pound in meats. Butter is also down, while eggs have shown a decrease of five cents per dozen.

**THE STORY OF THE WORLD'S
GREATEST GOLD MINE**

We must all admit that when any man of average ability devotes his life to the study of a particular subject he necessarily acquires very full knowledge thereof.

In the Rand the government experts have investigated the geological conditions in the new parts of that great gold field, and though the auriferous "reef" cannot be seen or sampled, for it lies nearly 5000 feet below the surface, still these experts have been able to estimate that it will ultimately produce 2,200,000,000 in gold.

True, they were aided by very extensive developments in the older portion of the field, still the work might suggest the supernatural to persons only slightly acquainted with geological.

In the early days of Cobalt, when Dr. Miller of our Bureau of Mines very plainly stated that the silver would be confined almost entirely to the fragmental rocks, many of the mine owners and all the prospectors refused to believe him. Their interests lay in deep-seated deposits. But Dr. Miller understood the importance of friability, such as we have in the coarse-grained lava on the Sovereign Porcupine, and if his advice had been accepted it would have saved millions of dollars in useless mining operations.

The officials of the Ontario Bureau of Mines are not only competent; they are also disinterested and therefore they are able to preserve perfect equipoise of mind and see clearly the bad as well as the good features of any mining field.

It is for these reasons that we accept their judgments and attach so much importance to their identification of the coarse-grained lava which is found on the Sovereign Porcupine Gold Mines. Unfortunately their discoveries were made public in the second year of the war, and mine owners are only now getting into a position to realize on this great treasure house of gold.

When the Hollinger Consolidated, Sovereign Porcupine and other mines get fully under way the results will surprise the world, for the coarser lava is here in vastly greater volume than are the fragmental rocks at Cobalt.

When in pursuance of a wager a man stood on the Strand in London and offered sovereigns at 10 shillings he got no takers. It seemed too good to be true. So when we offered shares in the Sovereign Porcupine Gold Mines at 25 cents, and at the same time stated that it adjoined the greatest gold mine in the world, the public became incredulous. At all events they held aloof for the first few days. The anti-climax seemed too pronounced. We are, however, only letting go of 100,000 shares at this figure. Subsequent issues will command a much higher price, and, besides, the 100,000 shares are only one-tenth of the whole capitalization, and even after they are sold 60 per cent of this capitalization will still remain in the get development under way. We have reason to believe that after the proceeds of this issue have carried the shaft down to 400 feet the stock will sell itself at a very much higher figure. If interested send for full particulars as soon as possible, for the public are now fully aroused as to the actual merits of the proposition.

FURTHER ADVANCE IN CORN AND OATS

Retention of Minimum Price on Hogs Was Correctly Anticipated.

Chicago, Jan. 28.—Correct anticipation that the February minimum daily average price of hogs would not be reduced from the January level brought about radical upturns today in the value of corn. The market closed unsettled, 2 1/4 to 4 3/4 net higher with May \$1.19 1/4 to \$1.19 1/2 and July \$1.18 1/4 to \$1.18 1/2. Oats gained 1-8 to 2 cents and provisions finished unchanged to an advance of 1/16.

Altho formal action as to the hog price minimum had not been taken in Washington while the board of trade here was in session, the great majority of dealers expected the old figure to be maintained and loaded up with corn. Much of the demand represented covering of the old price, and some considerable investment buying. Meantime, it was conceded on all sides that the market for late had been depressed far below the January hog basis as well as to a point where Argentine corn was longer cheap. The bulge that resulted from lots of dealers expected the old figure to be maintained and loaded up with corn. Much of the demand represented covering of the old price, and some considerable investment buying. Meantime, it was conceded on all sides that the market for late had been depressed far below the January hog basis as well as to a point where Argentine corn was longer cheap. The bulge that resulted from lots of dealers expected the old figure to be maintained and loaded up with corn. Much of the demand represented covering of the old price, and some considerable investment buying. Meantime, it was conceded on all sides that the market for late had been depressed far below the January hog basis as well as to a point where Argentine corn was longer cheap. The bulge that resulted from lots of dealers expected the old figure to be maintained and loaded up with corn. Much of the demand represented covering of the old price, and some considerable investment buying. Meantime, it was conceded on all sides that the market for late had been depressed far below the January hog basis as well as to a point where Argentine corn was longer cheap. The bulge that resulted from lots of dealers expected the old figure to be maintained and loaded up with corn. Much of the demand represented covering of the old price, and some considerable investment buying. Meantime, it was conceded on all sides that the market for late had been depressed far below the January hog basis as well as to a point where Argentine corn was longer cheap.
