STEAMER ESCAPES SUB AFTER BITTER FIGHT

A French Seaport, Oct. 24—Escaping from a German submarine after a bitter fight lasting nearly four hours, and with seven of her crew wounded, two of them seriously, an American steamer arrived here this morning from an American port. The timely intervention of an American torpedo boat alone saved the ship from being sent to the bottom.

The stubbornness of the battle is indicated by the fact that the submarine fired two hundred and thirty-four shots at the steamer, which responded with more than

two hundred and sixty shots. The steamer was not hit below the water line, but her cargo caught fire during the engagement. The amount of damage has not been ascertained.

FUEL FROM GARBAGE MAY BE MANUFACTURED IN REGINA

Negotiations are being conducted between the Canadian Nufuel Co., of Regina, and the Regina City commissioners for the manufacture of the new fuel called "Okole" from that city's garbage and refuse. The patentee of this new fuel is Mr. Culver, an American chemist, and Dr. Armstrong of Regina has secured the selling and manufacturing rights for Canada and Newfoundland. At the present time this new fuel is being manufactured at San Antonio and Austin, Texas, and on October 5th a large plant, having a capacity of 250 tons a day, was opened at Pueblo, Arizona. It is proposed to erect a plant having a capacity of 150 tons a day at Regina.

POKER PROMINENT IN WAR TIME PEDAGOGY

Instructors Employ Novel Methods in Teaching Convalescent Tommies The "Three R's"

Putting pedagogy on a war basis has been the problem of the instructors of the Military Hospitals Commission in the vocational training classes established for the convalescent soldiers. A new chapter is being written for the history of education.

When a man has earned a living in spite of illiteracy for twenty or thirty years, the three "R's" must be done up in prize packages to catch him. To make the rudiments of education look like a man-sized job to miners, ranchers, woodsmen, and foreigners who have come back from the front disabled for their former labor, is the task of the man who undertakes to fit them for lighter trades, and ingeniously is taxed to the limit many times to look the new knowledge into the catch of some former interest in a man's life.

Education a Great Help

This elementary education is recognized as one of the biggest assets a man disqualified for strenuous work can be given as a ground-work for a new trade and citizenship, so the first days of his convalescence find him started where he left off when waywardness or misfortune short-circuited his education in boyhood.

The attitude of many of the men at first is scornful. Learning letters after

they have spent a couple of years in potting books seems a bit too infantile, but when the double negatives get in their tricky deception, and conjugations tie themselves up in knots, they are apt to give up in despair.

Here new pedagogical tactics enter to save the day. Any trick is permissible as long as it holds a man's interest.

A "Royal Flush" Diploma

One of the best of these was discovered in Calgary when a husky Pole lost heart "English no good," he cried, and ground his pencil under his foot. He was done!

All the brains of the place were set to get Nick back to his letters without avail, till one day the fame of the Pole at poker gave the instructor an idea. A little flattery and he got him to try one day more of "school."

When his papers at the close of the session were returned to him, they were marked in poker terms. "This appealed to Nick. A marking of "three aces" was worth working for. The next day he appeared and announced that he was going to get a "full house." Today Nick is a solved problem working for a "royal flush" diploma and near the head of his class.

WEALTH IS REALLY CONSCRIPTED HERE

Manila, Iowa, Oct. 25—John Brus, a wealthy resident of Aspinwall, who was arrested yesterday because of his refusal to permit the use of an assembly hall owned by him, for a Liberty loan campaign, today is pleading with his German friends to buy Liberty bonds. Aspinwall is chiefly populated by Germans.

After Brus was released pending good behavior, he was told that if Iowa township, in which he resides, bought \$25,000 worth of bonds, citizens would attempt to have the charges against him dropped.

Brus then purchased \$500 worth of bonds and immediately began a selling campaign among his German friends.

The Stars and Stripes are floating over homes and business houses in Aspinwall today for the first time in the memory of the oldest inhabitant.

State agents began a drive against pro-Germans. Wealthy Germans, who do not subscribe to the loan, will be taken before the federal commission at Council Bluffs, according to Mayor Roscoe Saunders, of Manila, who is heading the bond campaign in the district.

OUR SIR DOUGLAS.

(London Daily News.)

Having occasion yesterday, writes a correspondent, to examine the service record of a soldier who enlisted in a cavalry regiment some thirty years ago, I was attracted by the bold and decisive signature of the officer who certified the entries as correct. It was "D. Haig, Lt."

CAPT. SAUNDERS AS PAYMASTER

Orders for Training Depot for C.A. M.C.; Casualties; News of the Soldiers

Captain Saunders, of the paymaster's staff at Halifax, was in the city yesterday, in the course of his duties. Captain Saunders makes trips periodically to St. John in the interests of the paymaster at Halifax in connection with this district. With New Brunswick becoming a separate military district, it will have its own paymaster. It is rumored in military circles that with the creation of the position Captain Saunders would be appointed permanent paymaster in this division.

C. A. M. C. Training Depot.

Orders have been received at local military headquarters that the formation of a training depot for the Canadian Army Medical Corps has been authorized and approved. The depot headquarters will be at Halifax with Captain H. H. Barrett as officer in charge.

Information is also to hand that for the duration of the war in cases of death of ex-members of the C. E. F. in Canada with honorable discharge and request for military funerals the necessary firing squad and an escort party is to be supplied by a local unit of the active militia in cases where there are no C. E. F. units to be had.

The casualty list yesterday announces that Albert E. Bass, son of Joshua Bass, of Douglastown (N. B.), has made the supreme sacrifice.

A despatch to Bridgetown (N. S.), brings the news that Private Clarence Curren Curren Purdy, of that place, has died in a German prison camp. He had been a prisoner of war since April 29.

Dies in Prison Camp.

Bridgetown, N. S., Oct. 25—(Special)—A telegram received here at noon announces the death in a German prison of Private Clarence Curren Curren Purdy, son of Mr. and Mrs. R. W. W. Purdy, of Bridgetown. He has been a prisoner of war since April 29. He is survived by his parents, four brothers, Sergeant Allen Purdy at Wellington Barracks, Halifax; Leonard, Oscar and Stanley at home; and two sisters, Miss Evelina, a nurse in the Yarmouth Hospital and Miss Gertrude in Windsor.

Private Purdy was born in Deep Brook, twenty-one years ago, and is the seventh boy from that little village who has paid the supreme sacrifice. He is also the seventh from Bridgetown who has been killed or died from the effects of the war. He was a young man of sterling qualities and his parents are receiving the sympathy of the entire community.

Albert E. Bass Killed.

Newcastle, Oct. 25—The second of Douglastown's brave boys to die fighting for their country overseas is Albert E. Bass, son of Joshua Bass. Deceased went over with the 182nd Battalion. He was twenty-two years of age. Besides his father he leaves two brothers—David and Roland, at home; one half-brother, Wm. Craft of Chatham; one sister, Miss Hilda, at home; another, Mrs. Joseph McBride, Chatham; and one sister and two half-sisters in the U. S. A. Much sympathy is felt for the bereaved relatives.

One Maritime Man.

Ottawa, Oct. 25—Two Canadian soldiers are reported to have died, four are named as wounded, two gassed, three ill and one report of a soldier's death is now cancelled, in a casualty list of twelve names issued tonight.

structors to the "draftees." Toronto military officials have taken the matter to Ottawa this week. In addition to pay it is likely that these returned instructors will get separation allowances for their wives as well as an extra allowance equivalent to "patriotic fund." It is not likely that their pensions will be interfered with. Some thousands of returned men will be needed for this duty.

R.F.C. HAS PLACES FOR ONE HUNDRED YOUNG CANADIANS

Ottawa, Oct. 25—A hundred more young Canadians are required by the British admiralty to enter the Royal Naval Air Service as probable flyers. Announcement to this effect was made by the department of the naval service today.

Candidates will be required to serve for the duration of the war. They must be over the age of seventeen and a half years and must not, as a rule, have passed their twenty-third birthday, although exceptionally suitable men who have passed their twenty-fifth birthday may be accepted.

The department announces that only men who are athletes and perfectly fit as well as possessed of education and in-

tellectual capacity, can be accepted. The need for perfect eyesight is emphasized.

MILK DISTRIBUTION.

Committee at Ottawa to Recommend Attention to This Feature, Failing to Convince Producers of Practicability of Low Prices.

Ottawa, Oct. 25—The milk committee appointed by the food controller to investigate the price of milk, completed their initial work at the session this afternoon and will probably return their decision tomorrow evening.

A special meeting of the committee will be held tomorrow afternoon and the decision will be arrived at after the chairman, P. E. Tustin, has heard the view of each member of the committee.

It is probable that the decision will take the form of a resolution as in the case of oleomargarine, to be forwarded by Controller Hanna. It can be safely said, however, that some concentrated form of delivery will be suggested. The evidence and their information given by the farmers or producers showed that they demanded, individually and collectively, an increased price for their product. The price asked averages out to thirty cents per gallon. On the other hand, the distributors, with only one or two exceptions, stated that if there was a central or concentrated form of delivery in each city, they would be able to save approximately one cent per quart.

WORTH SOME MONEY.

In the state of Chiapas, Mexico, there is a bridge which spans the Rio Michol, measures 180 feet long by fifteen feet wide and is built of solid mahogany.
