CABINET RESIGNS

Vienna, May 24.—The Austrian cabinet headed by Johann Schober, chancellor, resigned today owing to parliament having reduced credits asked for by the government.

ASKS MORE SEA MAIL PAY.

Otherwise Oceanic Steamship Line May Have to Quit.

Washington, May 23.—Because the Oceanic Steamship Company's mail contract expires June 30 and no provision has been made for renewal, this company, which is the only American passenger line in the Pacific running below the equator, may have to go out of business, according to Frederick S. Samuels, assistant to the president of the company, who is in Washington.

Efforts are being made by the shipping board, the postmaster-general and the secretary of the navy to have the line maintained.

The shipping board will take up the matter Monday. Vice-President Love of the Emergency Fleet Corporation thinks it would be a "crime" to permit the Oceanic company to go out of business. Secretary Denby is anxious to have the service maintained, because it provides the only American line to Samoa.

It is not believed that the shipping board can take up the run because it might lose by the venture more than the mail compensation sought by the Oceanic company. The cost of operating ships has doubled since the rate of compensation was fixed by the post office department. Trade conditions are not too promising because of the preferential tariff in Australia for goods carried in British bottoms.

Competing with the Oceanic company are three British lines which receive from mail contracts twice the amount heretofore allowed to the American concern.

GREAT S. S. CONVENTION.

America's greatest Sunday School convention is being staged for Convention Hall, Kansas City, Missouri, June 21-27, 1922, when the Sixteenth International Sunday School convention expects to welcome over 9,000 delegates, representing 1,677,093 Sunday school officers and teachers and 12,036,246 pupils from all parts of the United States and Canada to celebrate the merging of the International Sunday School Association and the Sunday School Council of Religious Education. The general theme of the convention will be "Building Together," through the home, the church, the community, North America, the World Field, re-organization and co-operation, and religious education and evangelism.

President W. O. Thomson, Ohio State University, Columbus, is chairman of the general convention committee; Dr. Marian Lawrence, consulting general secretary International Sunday School Association, is executive secretary, and

No More Bother Winding Machines

Little Electric Motor That Makes Talking Machines New Again

The Shelton Electric Co. of New York, a concern devoted to improvements on mechanical devices of a utility character, have invented a portable motor that runs your talking machine instead of the steel clockwork-like spring, and the household public of the continent are simply placed alongside the turntable of the talking machine so that its rubber driving wheel touches the edge. By connecting the electric cord with a light socket or baseboard plug-hole the wee motor drives the machine at perfect tempo. Constantly winding up the talking machine is no longer a bugaboo, no longer a hurdy-gurdy process. By pressing the button the motor stops or starts. One can hardly imagine how different the music sounds under this new arrangement. Instead of the oftentimes irregular speed of the spring-driven record—perhaps the spasmodic tension of a well-worn spring—the rhythm and tempo is perfect. This is most enjoyable in dancing records and in a cheaper make of talking machine the effect is that of an expensive electrically-motored one. The Shelton Motor simply sits alongside the turntable, has no attaching screws or nails. Can be used on Edison, Victor and Columbia types. It never gets out of adjustment and is a wonderful little piece of electric mechanism, handy and durable. There are already over 25,000 of them in use. John Frodsham, the Victor dealer opposite the Market, in Germain street, is the St. John agent for this new talking machine accessory and he has sold a score of them within the past few days after a demonstration. A phone call will make arrangements for showing this clever device.

The cost of the Shelton Motor is very moderate indeed. 25000-5-25

EDUCATOR SHOOT JANITOR

Colorado Superintendent of Schools Thought He Threw Eggs at Him

Limon, Col., May 25.—W. R. Matthews, superintendent of schools, shot and seriously wounded George Hazlett, janitor of the Limon High School. The shooting occurred in the manual training room in the basement of the building. The men are alleged to have quarrelled when Matthews is said to have accused Hazlett of taking part in a demonstration Tuesday night during which the superintendent was struck by eggs thrown by men or boys concealed near his home.

Hazlett was rushed to a hospital, where his condition was pronounced critical. Matthews ran home where he was arrested.

Hazlett declared Matthews accused him of taking part in the "egg" incident. A quarrel started and Matthews, according to Hazlett, fired five shots, two taking effect. One of the bullets entered Hazlett's abdomen and the second struck him in the forearm.

GETS SEPARATION FROM WIFE WHO DIDN'T COOK BREAKFASTS

New York, May 25.—Justice Benedict, sitting in the Supreme Court in Brooklyn, ruled that "failure to cook a man's breakfast" is ground for a separation and granted a decree to Henry Springer, 169 South Oxford street, who sued his wife, Mrs. Margaret Springer, of 461 Eighty-second street, Brooklyn.

SPRINGER TESTIFIED THAT IN THE FOUR YEARS OF THEIR MARRIED LIFE HIS WIFE HAD NEVER COOKED HIS BREAKFAST.

Mrs. Springer admitted that she had cooked for her husband only about a score of times, and said this was because when she would get a breakfast for him he would refuse to eat the food and say she didn't know how to cook. This Springer denied.

Although Springer won his suit, Mrs. Springer got the custody of their two children, three years and six weeks of age. Springer was ordered to pay \$10 a week for their support.

THE HOLIDAY.

Ideal holiday weather greeted the pleasure seekers yesterday and all summer resorts were visited by many people. The temperature was all that could be desired. Those who remained in the city frequented the parks and the ball games. The twenty-fourth of May is always observed as moving day by a large number of suburbanites and yesterday was no exception. The usual number of enthusiastic anglers were busy. Traffic on suburban trains was very heavy.

Rockwood Park came in for its fair share of attention. All the boats were out and some hardy persons braved the cool waters and went for a swim. At Lock Lomond one of the hotels provided meals for more than two hundred people. A picnic and dance in the Agricultural Hall for benefit of Father Coughlin's parish drew a large patronage. At Grand Bay a dance was held attended by many visitors from the city and from the other summer resorts. Though there were no scheduled programmes at Westfield and Rothsay both resorts were visited by many and many summer homes opened for the season.
