POWER PROJECT MOVING ALONG

Government to Take It Up in Fredericton

Meeting Tonight - Some of the Preliminary Plans Already Approved by Consulting Engineer.

The provincial government meeting scheduled for next week, will be opened tonight in Fredericton, so it was announced here this morning. The change in the date is due to the fact that both Labor Day and the St. John exhibition will hold the centre of attraction next week.

It is expected that matters in connection with the water power development in the province will be touched upon. The engineers of the New Brunswick commission have been actively engaged in the preliminary plans for the work, many of which have been looked over and approved by Henry Holgate, the consulting engineer. Mr. Holgate has set his seal of approval on the general scheme of development by which not only the cities and towns of the province will receive the benefit of cheaper light and power, but the municipalities will also share in the convenience.

It is planned to supply current from Musquash and Levesque to all points from the source of supply through St. John to Moncton, where the system will be linked up with that from the North Shore. The power from the Shogonec will be used to supply the St. John river valley, connecting St. John with the Southern line. It is understood that the commission will be in position to ask for tenders for the first work in the near future.

RACES ON AGAIN

A. P. Ryan and S. E. Rice Will Conduct Exhibition Meet at Moosepath.

The morning papers today announced abandonment of the exhibition week horse races at Moosepath Park by the Maritime Racing Association, which body conducted the races last week. Today comes the announcement that the exhibition racing programme will be taken over by Ambrose P. Ryan and S. E. Rice, who are lessees of the Moosepath track, and the meet carried out on the lines originally planned.

In the cancellation statement J. D. Black of Fredericton was quoted as saying that there was no assurance of a satisfactory future regarding the street railway service for races at Moosepath during exhibition week. This morning Mr. Ryan said that the Maritime Association had leased the track from Mr. Rice and himself and as the association had called off the exhibition races Mr. Rice and himself had decided that they would run the meet themselves. He said the dates and classes would be as first planned and the meet would open on Labor Day.
