COLLISION MATTER
Motorman Allan Webb, who was driving the street car which ran into John M. Jenkins' team, appeared in court again this morning. Mr. Jenkins told of the accident and said he did not wish to prosecute. The magistrate suggested that the matter be settled out of court; otherwise it would be dealt with on Monday.

POLICE COURT
"So you gave up your job to come to St. John and get another did you," asked Magistrate Hiltche of John Haggerty, who was before him this morning charged with drunkenness. "How did you expect to get along until you got another job; like the birds of the air but not so innocently I suppose." Two others, one a woman whose husband was already in jail, were remanded.

TENDER FOR GRAIN CONVEYORS \$133,000

Ottawa Reports Metcalf Company's Figures—Matter Before Council

It was announced some time ago that the public works department at Ottawa had asked for estimates of the cost of grain conveyors at steamship berths Nos. 6, 7 and 8. The latest information received came in reply to a telegram from Percy W. Thomson, chairman of the traffic bureau of the board of trade. It came in the form of a telegram from J. B. Hunter, deputy minister of public works, and said:

"Tender of Metcalf Company for grain conveyors to berths at the rate of \$133,000 round figures. Matter before council for consideration."

DON'T LET HORSES DAMAGE THE TREES

James Mabce, who had been reported for allowing his horse to damage some ornamental trees in Elliott row, was in the police court this morning. He apparently doubted whether the person who saw his horse at the tree could be witness as he had seen the act through a glass window. "Where did you get that freckle law," asked his honor. "That was a law of the aboriginal Indians of the Northwest. But to be serious this damaging of ornamental trees has to stop. Several fine trees already been here for that very thing and I'm looking for a fellow with whiskers whose horse ate at the maple tree in front of my house and if I find him I don't think the fine will stand." Mabce was fined \$20 but the fine was allowed to stand.

UNION STREET PAVING

The attention which the city authorities have been directing to the streets in the central portion of the city is now to be turned on Union street. It is the intention to pave it by the same way as Charlotte street has been done. The section to be dealt with is that between Sydney and the streets. The old wooden blocks with which the street is now paved have been doing service for a long time and there are now many rats which make difficult hauling. The wooden blocks will be removed and a layer of concrete seven inches thick will be placed. This will be covered with a thick coating of tar. In the centre of the street, between the car tracks, Bessemer blocks will be placed; these are at present being piled near the corner of Union and Charlotte.

EGGS SEIZED THREE YEARS AGO, RELEASED FOR SALE

Trenton, N. J., July 31.—The frozen eggs seized by federal inspectors three years ago as unfit for food and which have been the subject of much litigation in various courts since that time, were released for sale on Tuesday by the State Board of Health. The members of the board, after hearing an expert testify that the eggs, although now nearly four years old, were still fit for food, a week ago performed the official task of eating foodstuffs made from the eggs. They were taken to the state laboratory, where custard pie and ice cream was prepared. None of the members found the food objectionable, but decided to reserve decision for a week. Tuesday they gave the product a clean bill of health. The canned eggs are owned by a Boston concern which will be required under Tuesday's decision to label the product so that purchasers may know how long it has been in storage.

THREE INCH SHELL IN THE GARBAGE CAN

Was Thought to Be Placed There With Object of Wrecking London, Ont., Incinerator

London, Ont., July 31.—The men in charge of a newly established garbage incinerator here are quaking with fear as the result of the finding of a fully loaded three inch shell for a twelve-pounder gun. There has been a bitter agitation against the location of the incinerator at the foot of Waterloo street, near Victoria Hospital, and it was at first thought the shell had been deliberately placed in a refuse can at some collection point with a view to destroying the plant.

Men at work at the pit, where the collecting cans are dumped chanced to notice the peculiar "boom" and picked it up. One prevented his fellow workmen from dropping it into the blast furnace. The superintendent deposited the shell in a pail of water, and afterward had it removed to Wolsley Barracks, where the fuse was removed and it was found that the big fellow was fully charged with enough explosive to do great damage.

BANGOR HERE FOR TWO WEEK-END GAMES; NEW PITCHER IN ONE

The Marathons, again leading the league, are playing again in Bangor today. Both St. Croix and Fredericton are close upon the leaders, and they are playing again today in the Capital. The next games here will be on tomorrow and Saturday afternoons, when Bangor will play the Greeks.

Yesterday's scores, 3-0 and 3-2, shows that a high-class of baseball is the work of all the teams now. Connaughton has brought his men along in fine style, and they will give the locals a battle for victory. Charles and Williams—the latter a new pitcher, who after his bow with the Greeks in Bangor yesterday—will be the locals' pitchers. Williams won his game and there will be interest among St. John fans to see him perform. There should be two snappy ball games for the Bangor team here, and along in fine style and the Greeks are hitting well and fielding fast.

It is possible that Frank Keaney's injuries may keep him out of the Fredericton line-up for the rest of the season.
