The Hand That Moves The Lever Saves 162-3 Per Cent. of Your Coal Bill

Here is the opportunity for the housewife to deal the high cost of living question a hard jolt without any effort on her part. The way is to make sure that her new range is

controlled by a Gurney Economizer, which will

save 1 ton of coal in every 6 burned in an ordinary The Economizer is to the stove what the con-

trol lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going—while you can have the fiercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Droiler exposes every inch of the coals.

These features are exclusively "Gurney-Ox-

"MARY" AT THE IMPERIAL TONIGHT

Mary has now gotten into a terrible mixup. She has been pursued by the perfidious old country storekeeper, who wants to get hold of her for the sake of the extra money promised in the mysterious note found in the basket when Mary was left in the basket as a baby. After all her success and good luck she suddenly gets into sore straits again.

STAR'S NEW PICTURES BETTER STILL The Star's programme for the mid-week looks awfully good in the adver-tisement but it is a thousand per cent better on the curtain. The titles of the pitctures really don't convey an ade-quate idea of the story-value or acting merits of them. With Lillian Walker in a Vitagraph comedy; a fine Lubin drama, a poultry-raising film and a roaring Selig comedy, the bill is a big one.
