PENDER STRIKE MAY SOON BE ENDED

Another Conference This Afternoon and Report to Meeting of the Men Tonight

The strike of the employes of the nail-works of James Pender & Co., Ltd., as announced in the Times, is still in progress today, but efforts are to be made this afternoon to reach an agreement. The delegation which waited on Mr. Pender yesterday will interview him again today to see if basis of settlement can be reached. They will report to the rest of the men at a meeting in the Opera House building this evening, and if a satisfactory decision is reached the men will be ready to go back to work in the morning

The dispute arose over the question of a Saturday half holiday all the year round or a nine-hour day, which the men requested at the end of the summer half-holiday period.

The friendliest feeling seems to exist between the men and the management and the disagreement is confined entirely to the matter of hours of work.

NEWCASTLE COURT CASE ABOUT HORSE

Newcastle, N. B., Dec. 8—(Special)—The prosecution closed its case before Mr. Justice White and a jury this morning in the matter of Judson Hogate against Daniel Buggie and nineteen others. This is a suit in which $2,000, representing the purchase price of a stallion, is involved. The plaintiff contends that he secured no settlement and the defendants say the stallion was not as represented. Twenty shares of $100 each were taken in the stallion by the defendants.

SOUTH BAY CASE.

The case of Carl Bonnell of Ketepec, charged by Carle Basson, a Hebrew, with assaulting him several weeks ago, on the South Bay road, was adjourned this morning before Justice Allingham in Fairville until Monday next. J. K. Kelley appeared for Basson and F. S. Bonnell went bail for his nephew. Basson complained that Bonnell took a bundle from him and threw it in the mud, also holding his hands fast behind his back. Thomas Joyce, of Petersville said he saw the bundle in the road and Jacob Gritz gave evidence.

WATER THIS AFTERNOON.

The water from Loch Lomond was not turned on again this morning as was expected. The delay is caused by the fact that the cold weather had prevented the cement from hardening. It is expected that the work will be in condition to allow the water to be turned into the pipe soon after three o'clock this afternoon. The break, which occurred in the concrete conduit about eight miles out of the city, was in the form of a crack extending completely around the pipe and entirely severing it.
