

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, MARCH 7, 1912

Less Than Half a Cent a Plate

Rolled Oats with Dates

Cook one cupful of Tillson's Rolled Oats in one and two-thirds cupful of boiling water for 15 minutes. Add one cupful of dates stirred and cut in pieces stirring in carefully. Cook 10 minutes and serve with cream and sugar.

This may be served hot as porridge for breakfast, or after cooking as directed, pour out into small bowls, and stand to cool and harden. Turn out and serve with cream.

A plateful of porridge made from Tillson's costs less than a half a cent.

There is almost enough nourishment in half a cent's worth of Tillson's to do half a day's work on.

Tillson's will reduce the cost of living and increase the pleasures of eating.

Nothing more wholesome, more tasty, or more economical can be served at the breakfast table.

Tillson's Oats

Your grocer has Tillson's Two sizes—10c and 25c. Each 25c package contains a handsome piece of English Porcelain Tableware.

Canadian Cereal & Milling Co., Ltd. Toronto, Ont.

ONE DEAD AND ONE DYING

Montreal, March 6.—One man is dead and a second lies at the General Hospital fatally injured as the result of an explosion of dynamite on the Cote St. Michel road near Rosemont. The two men were laying drains in a ditch beside the road and had prepared a number of holes to receive the blasts. All the holes were charged save one, and the men were tramping down the last blast when it suddenly exploded. Both men were leaning over the ditch when the disaster occurred. Joseph Valin, the foreman, son of the junior member of the firm of Plessard & Valin, for which the men were working, was practically torn to pieces and expired on his way to the hospital. Adrien Molleur, his companion, was so terribly mutilated that he cannot recover.

FIRST AID

Edith—Whom are you writing to, dear? Ethel—Jack's written to me that his mother has thrown him overboard, so I'm dropping him a line.

The earliest complete clock of which there is any record was made by a "barren mechanic in the thirteenth century."

WHY HESITATE?

An Offer That Involves no Money Risk if You Accept It

I am so positive my remedy will completely relieve constipation, no matter how chronic it may be, that I offer to furnish it free of all cost if it fails.

Constipation is commonly caused by weakness of the nerves and muscles of the large intestine. To expect a cure you must therefore tone up and strengthen those organs and restore them to health.

I want you to try Rexall Ointment on my guarantee. They are eaten like candy. They seem to act directly on the nerves and muscles of the bowels. They apparently have a neutral action on the other organs. They do not purge or cause other inconvenience. I will refund your money if they do not overcome chronic or habitual constipation and thus aid to relieve the myriads of associate or dependent chronic ailments. Try Rexall Ointment at my risk. Three sizes, 10c, 25c, and 50c. Sold only at my store—The Rexall Store, Watson's—109 King street.

WILL VOTE ON TREATIES TODAY

Washington, March 6.—The senate will begin voting on the arbitration treaty with Great Britain and France at 4.30 p. m. tomorrow, under an agreement reached late today.

The first vote will be on the foreign relations committee's amendment to strike out of the treaties clause 3 of article 3, on which the opposition has been centred, on the ground that it delegates the treaty-making power to the proposed joint high commission of inquiry, and that the commission's acts would be binding on the senate.

This is the critical point for the treaties, but their supporters expressed confidence tonight that they would pass it safely. While originally the amendment had the endorsement of the committee, the fact given way to endorsement of the Lodge resolution of ratification which is designed to reserve to the senate powers to act finally on any agreement submitted.

"Now, Willie, promise me you won't fight any more," "Can't you wait till tomorrow, mother? I've only got one more boy to lick, and then I'll be through."

A STIRRING SPEECH

Hon. Mr. Lemieux Makes Things Uncomfortable for Postmaster-General—Fair Play Asked For Maritime Provinces—Conference on Representation

Ottawa, March 6.—Parliamentary corridors are buzzing tonight with speculation. It is taken for granted that material concessions have been made to the Nationalist leader, not alone in the matter of the navy, but also in relation to the Manitoba school question.

It is now evident that in the latter matter satisfaction is to be accorded the minority through representations to Premier Roblin. It is not, of course, the process promised by Quebec before the election by Hon. Messrs. Pelletier and Monk, nor is it the method stipulated by Mr. Bourassa, but it is hoped it will enable the government to escape responsibility.

It is significant that Premier Borden closed the debate by calling attention to the numerical strength of the Roman Catholics in Manitoba and practically inviting them to vote for Mr. Roblin. It is a consequence the Nationalist vote, with the exception of five members, joined the government in voting through the second reading of the boundary bill. It passed the house by a vote of 114 to 76, a government majority of 38. Messrs. Monk and Borden, the two who refrained from voting on Sir Wilfrid Laurier's amendment yesterday, have apparently "got the worst" in the meantime, and heartily reunited with the ministerial ranks again today.

It rarely falls to the lot of a minister of the crown to get such a public grilling as Hon. Mr. Lemieux administered to the postmaster-general in the course of the debate this afternoon. It was the funeral sermon on the invidious methods utilized by the minister during the election campaign to inflame passion and prejudice, and the opinion is prevalent among the members, that the late speech was quite well liked, embracing the political corpse of the postmaster-general.

In the debate of the day there has been the eliminating exposure of Conservative and Nationalist inconsistency in appealing to social and religious prejudices both in Ontario and Quebec for years past. Coming after the "show down" with regard to the naval issue, the speech of Mr. Lemieux, and the attempt of the government to get an outlet for western grain via United States railways after the final vindication of the national character of Sir Wilfrid's policies has been strikingly demonstrated.

Children have come home to roost, and as Mr. Lemieux said, "one can hear the crumbling of the pillars of the coalition."

The Liberals have had nothing to explain and nothing to apologize for. Sir Wilfrid Laurier has stood squarely on his record, and the tactics employed at the last election to defeat him on racial and religious grounds at any rate, cannot be said again. His defence has been made out by his enemies.

In committee on the bill, an amendment was moved by Hon. Dr. Pugsley providing that before any additional allowance is made to Manitoba there shall be a conference of the dominion government and the provincial premiers to consider what additional allowances it would be just to make to the other provinces in view of the increase proposed for Manitoba.

In support of this he pointed out that both the money and the lands it was proposed to give Manitoba belonged to all of the provinces, and they should properly be consulted before their property was given away. He also pointed out that the maritime provinces were at a disadvantage in the matter of representation and the increase of territorial area proposed for Manitoba and Ontario.

Mr. Hanes said he believed that there would be a conference of the provinces and the dominion held next summer. He thought it would be well to have the representation of the maritime provinces considered before redistribution took place under the population shown by the last census.

Carvell, of Kingston, and E. M. MacDonald, of Pictou, said that if this bill were allowed to go through and Manitoba given all that could possibly be added to the province the maritime provinces would get a very small figure at a provincial conference, and would be likely to get nothing at all in the way of additional allowance, and nothing at all in the way of improved representation.

The amendment stands for final consideration tomorrow.

Hugh Guthrie gave notice of an amendment declaring that the additional allowance to Manitoba shall date from the first of July next. This would deprive the province of the two years' back increase which the bill proposes to give, amounting to over \$2,000,000.

Mr. Mondou gave notice of an amendment declaring that nothing in the bill shall be construed as depriving any of the people of that portion of Quebec to be added to Manitoba or any of the rights which they now have.

I. F. Holmuth, K.C., of Toronto, has been appointed by the government as English-speaking counsel to present the provincial side of the arguments in reference to the supreme court respecting the power of parliament to enact a federal marriage law such as the Lancaster bill. He will be associated with F. D. Mizner, of Montreal. The argument for the dominion's right to enact the bill will be presented by Wallace Nesbitt, K.C., of Toronto, and Eugene Lafleur, K.C., of Montreal. Bishop Farthing, of Montreal, has asked to be permitted to nominate counsel to watch the case. He has been advised that the government has no objection, but the status of such counsel will be for the court to determine.

THREE CITY FIRES.

Fire yesterday afternoon destroyed the house of Samuel Hector on the Spar Cove Road. The house was insured, and is a total loss. The fire department was called out at four o'clock for a slight fire in A. Beaumont's house, Westmain Road, and last night for one in a shed at the rear of the York Cotton Mill. Practically no damage was done at either of the latter two fires.

Our Forced Removal Sale Is Going With a Hum

The Following is a Partial List of The Exceptional Bargains Offered.

Boots and Shoes	Men's Overcoats	Glass Butter Dishes

THE ASEPTO STORE

Cor. Mill and Union Streets, St. John, N. B.

Buy PURITY— the high-class flour and do your duty to your cooking-ability

WITHOUT a high-class flour like PURITY you cannot do your duty to your cooking-ability.

A cheaper, weaker, ordinary flour cramps and puts a limit on your efficiency.

On the other hand, PURITY FLOUR broadens your scope; provides you with unlimited opportunities to do ample justice to the cooking-ability of which you are so rightly proud.

PURITY FLOUR responds nobly to the skill of the cook. It yields

the daintiest and most delicate cakes. And pies so creamy, so delicious, your friends will vote you a wonder.

And such golden-brown biscuits, such giddle cakes, such buns, and

such bread you have never before succeeded in making, no matter how earnestly you've tried.

And the reason is not hard to discover. PURITY FLOUR consists exclusively of the high-grade portions of the best Western hard wheat berries.

Unlike ordinary flour, PURITY FLOUR contains no low-grade portions, nor is it weakened by mixing soft wheat flour with it.

PURITY FLOUR will cost you slightly more, because it costs us more to make. But it's worth the difference.

PURITY FLOUR "More bread and better bread"

Reminder: Because of the extra strength and extra quality of PURITY FLOUR it requires more shortening when making pastry and more water when making bread.

Add PURITY FLOUR to your grocery list right now.

Health and Beauty Answers

BY MRS. MAE MARTIN

Maiden: Your thin, straggly hair can be made to come in thick and fluffy, if you avoid alkali shampoos. The most beneficial thing for cleansing scalp and hair is plain castor oil, a teaspoonful of which dissolved in a cup of hot water is enough for a delightful shampoo. You will find castor oil removes every atom of dust and dandruff, and after rinsing the hair will dry quickly and is easily managed. Use castor oil occasionally and your hair will regain its original tint and loveliness.

Puritan: You are right. Karsone is a remedy of grandmother's days, and is considered the best thing known as a blood-purifier and body-builder. This old-fashioned tonic is made by dissolving a half-cupful of sugar in one-half pint of alcohol, to which is added one ounce of Karsone and enough hot water to make a full quart. The dose is a tablespoonful before meals. A treatment with this tonic will quickly rid the system of impurities, restore your health and appetite and build you up.

Dot: You cannot change the color of your eyes, but you can make them bright and sparkling by using a simple eye-tonic, made by dissolving an ounce of crystals in a pint of cold water. Two or three drops of this should be put in each eye daily. The crystal eye-tonic is splendid for sore, aching or tired eyes and granulated lids, and its use frequently does away with the necessity of wearing glasses.

Mrs. Ben: (1) It is gratifying to know that the Karsone tonic has done so much for you. (2) Stop using powder and try this simple lotion for the skin and I am sure you will be delighted. In a half-pint hot water dissolve four ounces spumax, then add two teaspoonfuls glycerine. When this is cool apply sparingly to the face, neck and arms, rubbing lightly until dry. This spumax lotion is splendid for freckles and rough, oily skins, and using it removes all impurities. You will find the spumax lotion lends a charm and softness to the complexion and is superior to powder, while it is invisible when on.

Lenore: Don't worry. You can quickly regain your normal weight and symmetry.

trial figure without fasting or indulging in violent exercises, if you will get from your druggist four ounces paraffin and dissolve it in a pint-and-a-half hot water. With this cook take a tablespoonful before each meal. Continue this treatment till your weight is where you want it and you will find the flesh is firm and the skin will not be wrinkled.

T. D.: A starved condition of the hair roots causes the hair to grow dull, "stringy" and brittle, and unless a good tonic is employed, you cannot hope to have a fine head of hair. Make up and use this tonic and your hair will again take on its softness and natural tint. Mix together one-half pint each alcohol and water, and to this add one ounce quinine. Massage the scalp frequently with this tonic soon restores the healthy condition, and when this is done you will not be troubled with dandruff or excess oil. Constant using makes the hair grow in rich and abundant.

Why: Your mother is right. Powders and cosmetics very often cause blackheads and other skin eruptions and cause the skin to grow coarse and lifeless. A thoroughly dependable cream-jelly for correcting complexion faults can be made at little cost by stirring two teaspoonfuls glycerine into a half-pint cold water, then adding one ounce alcohol. Let remain until thoroughly dissolved, then apply freely to the face, neck and arms after removing the dust and grime. Massage this in well, and the skin will be soft and velvety. The daily use of this alcohol cream-jelly frees the skin of all impurities and lends a charming tint and youthfulness to the complexion.

Grace: You need have no fear about hairs returning after using the delatone paste. Any druggist can supply powdered delatone, and to remove hairs from face or neck, make a paste with a little delatone and water. Apply this to offending hairs and in two or three minutes scrape off and wash the skin. This removes every trace of hair and leaves the skin white and firm. You will have to pay a dollar an ounce for the delatone, and it is worth it.
