### TRADE RELATIONS

#### BETWEEN CANADA AND AUSTRALIA

Melbourne, Australia, Sept. 23.—Efforts to expand trade relations between Australia and Canada are being made by the Canadian trade commissioner.

In Victoria, Southern Australia and Tasmania, Mr. Ross has been interviewing the minister of customs with the object of inducing him to appoint an Australian, stationed at Vancouver, whose business it will be to develop commerce generally between the two countries.

Mr. Tully, the minister, is indisposed to send an Australian to Vancouver to undertake the duties, but he hopes to see his way clear to induce the cabinet to appoint a commercial man, resident in Vancouver, to represent the commonwealth. The matter will be placed before the ministers for decision.

It is considered unlikely the Victorian government will go into the own state to find a successor to Mr. Tully, who has resigned his post of chairman of the state railway commission. In some circles it is taken for granted that Mr. Fitzpatrick, a colleague of Mr. Tully, will secure the vacant position. Fitzpatrick has had a remarkable career. He entered the railway service in the capacity of a porter's messenger and has risen by his native ability to the place at present he holds.

### COMING TO INSPECT

#### G. T. P. TERMINALS

Ottawa, Sept. 23.—It is understood G. M. Hays, head of the Grand Trunk, will go to St. John next week to look into the question of terminals for the G. T. P. at that point.

Incorporation has been granted to the British Empire Bridge Company with a capital stock of \$5,000,000. It is understood the principals in the company are the British Construction Company, of London, England, and the Railway Carriage Company, of Birmingham, and that their object in obtaining a Canadian charter is to facilitate their plan of tendering for the superstructure of the Quebec bridge.

It is understood that the appointment of Adam Zimmerman, ex-M. P., to be a surveyor for a dock of the first or largest class, to be located at Esquimaux. They intimate that they will file plans shortly. It is believed that the Bunnies are associated with some British shipbuilding firm in their enterprises, which will involve an expenditure of at least \$3,000,000.

### Twelve Killed in Train Wreck

Clayton, Kan., Sept. 23.—A dozen persons lost their lives and eleven others suffered injuries in a wreck today of a west-bound Rock Island passenger train running to Denver from Kansas City.

Instead of using pass-out checks the management of the Vanol agricultural show, Carnarvonshire, Eng., stamped with a rubber stamp the hands of persons wishing to return to the show.

## The Evening Chit-Chat

By RUTH CAMERON

I HAVE evolved a slogan for housewives to be used during the fall housecleaning. Housekeepers who observe that festival, please attend. I don't know whether you'll like it or not, but here it is: "Clear house as well as clean house!"

How does that appeal to you as a slogan? It seems to me if every housewife in the land would adopt that for her fall housecleaning it would be a happier land.

A newspaper friend of mine was recently sent out to get up an article on the necessity or non-necessity of this fall upheaval.

Some of the women whom she interviewed indulged. Some didn't. One who didn't, in explaining her freedom from the habit, let fall such a pearl of wisdom—no, "nugget of good common sense" would describe it better—that I borrowed it.

"In our house we aim to keep clean not to become clean," she said, "and one of our methods of keeping clean is not to have the house cluttered up with any unnecessary things. I thoroughly believe that if thinking women would make up their minds to have nothing in their houses but useful things, and those of value because of association, so-called drudgery would diminish to the vanishing point, and this semi-annual upheaval would not be needed."

Now, housewives, please don't just say: "Here is some more of that housekeeping talk from someone who doesn't know anything about it," and refuse to read any further.

Please be open-minded and unprejudiced consider if it isn't possible that the lady was very right, and then query how well your house stands her test.

That is, how much there is in your home besides useful things and those that have associations?

Useful, of course, ought to include beautiful, for beauty is certainly useful. A well-made chair rests your body. A truly beautiful object rests your eye.

With that definition of useful, test one room in your house. If it's an average house, I know just about what the results will be. Why not make the object of the fall cleaning to make it capable of passing that test?

I know a very sensible woman who one day decided that she was being possessed by her possessions instead of possessing them. Thereupon, she went through her house, and standing before each object, asked herself if she were getting her troubles' worth of utility and pleasure out of it. If she had to say no, she got rid of the object, and, according to her testimony, she lived happier ever afterwards.

One of the greatest tendencies of life is accumulation. In many ways it is a good tendency. In other respects it is bad and needs to be checked, and this is one of them.

To know how to throw off, as well as accumulate, is one of the needs of a happy life. If you lack that ability, why not try this very fall to acquire it?

In other words, instead of letting your housecleaning be the regulation taking out and putting back, why not make it a slogan:

"Clear house as well as clean house."

## Daily Hints for the Cook

**FIG CAKE.**

One cup sugar, half cup butter, two eggs, half cup milk, one and one half cups bread flour, measured before sifting, one and one half teaspoons baking powder, half teaspoon vanilla.

Bake in three layers.

Filling—Nine figs washed and soaked overnight. Chop fine next morning. Add one cup sugar, boil down very thick. Add half cup chopped figs and mix in a moderate oven.

Place in dish and bake slowly in oven. When done, spread over the top, the whites beaten with 2 tablespoons sugar. Brown in oven. A cup of raisins may be added just before baking.

**LEMON RICE PUDDING.**

To 1 cup of rice boiled in a pint of water (seasoned well with salt until dry) add a pint of milk in which a little cornstarch has been dissolved and boil again. Add the yolks of two eggs, beaten with ½ cup sugar. Stir well together. Lastly, add juice and grated rind of 1 lemon. Place in dish and bake slowly in oven. When done, spread over the top, the whites beaten with 2 tablespoons sugar. Brown in oven. A cup of raisins may be added just before baking.

**SWISS-TOASTED PICKLE.**

One peck of green tomatoes, 8 onions. Slice and add a cup of salt and let stand overnight. In the morning drain, then add 1 quart of vinegar and 2 quarts of water. Boil 15 minutes the drain again. Make a syrup of 2 quarts vinegar and 2 pounds of sugar. Add pickle and steep in bag. Boil 15 minutes in bag.

**CREAM PUFFS.**

Melt ½ cup of butter in 1 cup hot water; while boiling, stir in 1 cup of flour, then cool; when cold, stir in 3 unbeaten eggs, one at a time, drop in buttered tins and bake 25 minutes in a moderate oven.

Filling for Puffs—1 cup of milk, 3 tablespoons of sugar, 2 tablespoons of cornstarch, 1 egg, boil a few minutes, flavor when cold.

## HON. WM. PUGSLEY WILL APPEAL TO SUPREME COURT

Ottawa, Sept. 23.—The Telegraph correspondent interviewed Hon. William Pugsley today regarding the decision of Chief Justice Barker on the bill filed by him against the New Brunswick Coal & Railway Company, et al. for the taking of an account of the receipts and disbursements by the company. Dr. Pugsley made the following statement:

"I have read the judgment, as published in The Daily Telegraph, and have written to my solicitor instructing him to appeal to the supreme court. The chief justice holds that a director of a company is not entitled to have an account taken. But for this decision and for the great respect which I have for the learning and ability of the chief justice, I would have supposed that a person who had been, as I was, a director of a company, and had ceased to have connection with such company, would be entitled to have an account taken of the receipts and disbursements by the company and its officers during the period of such directorship. However, the question is sufficiently important to warrant me in obtaining upon it the opinion of the full court."

"I am disappointed at the result because I hoped to have a full and complete investigation, and not a partisan and unfair enquiry, such as took place before the commissioners, where every effort was made to suppress the truth and distort the facts, and which resulted in a false report prepared, largely by Mr. Powell, the counsel for the company."

"I had gone to considerable expense in employing a skilled accountant who has examined the books of the various branches and other financial institutions where the company kept its accounts, and whose testimony as to the large sums paid out for interest, wholly omitted by the commissioners, corroborated the statement which I made in parliament when I showed to the complete satisfaction of every impartial listener the thorough unreliability and worthlessness of the commissioners' report."

## THE BRITISH EMPIRE

(Toronto News)

The world-wide heritage which our fathers have left us is worth preserving, and worth making ourselves for this is the conviction not only of the Anglo-Saxon citizens, but also of the other races that shelter beneath its flag. The Eucharistic Congress at Montreal constituted the latest concrete proof of the wide liberty guaranteed by British rule. Under its aegis all peoples and religions and all creeds are free to march together along the highways of progress.

Who would not be proud of an empire that for ages has been the chief secular factor in the promotion of civil and religious liberty and of civilization throughout the world? Who can escape the thrill of loyalty to a thousand-year-old state that has grown into a series of sister states engirdling the world, and compelling the admiration and affection of alien peoples?

Who would not be solicitous for the permanence of an empire that inspires the attachment of men who ten years ago were its bitterest enemies? What a spectacle is that to be witnessed in South Africa! Louis Botha asking the imperial government to lend him Lord Kitchener or Lord Methuen to help organize the void "the best defence force in the world!" History records nothing like it.

We have often wondered why so many girls bait their hooks with piano solos, and why so few of them use fried chicken.

W. H. Thorne and W. H. Barnaby, of the board of trade, on Thursday afternoon made an inspection of the repair work in connection with the Loch Lomond service. They were accompanied by Mayor Frink and Al. Likely. Messrs. Thorne and Barnaby will report to the board.

### THE WORD "SAUCE"

What are the first essentials of a Sauce? Many professors of cookery and eminent chefs have, from time to time, set forth their views on this subject, but the point seems to have been completely decided. Many solid varieties of food, soluble only by digestion, are not rarely dry in substance, but are somewhat unattractive and insufficiently flavored. A sauce is intended, amongst other things, to lubricate dry food, and thus increase its palatability, by the addition of flavors or the production of contrast. A sauce is intended to stimulate the organs of taste, and to promote the salivary secretion. Thus, by enhancing the appetite, and augmenting the juices capable of digestion, it increases the pleasure of eating, meanwhile assisting the mechanism of nutrition. The preparation of a sauce suited to one special dish is, in itself, a simple affair, but the making of a good sauce, capable of fulfilling the duties of demands, and happily alluring with hundreds of dishes, is a matter necessitating great experience and elaborate skill. A sauce is now obtainable. It is imported from England, where it is produced in the largest scale. It is known as "The House of Parliament," where it is used on the dining tables, both in the house country and in Canada. The makers tell us that its delicious flavor is obtained by blending together the choicest Oriental fruits and spices with pure malt vinegar by a secret process, and we are sure our readers will find that a personal trial will convince them that it is a good thing that is said of H. P. Grocers over here are already selling it freely.

Hubby—"The old saying is true: It is only fools who get married."

Wife—"That's how Providence takes care of them."

Hubby—"How?"

Wife—"By giving them wives to look after them."

Suffragette—"We believe that a woman should get a man's wages."

Married Man—"Well, judging from my own experience, she does."

## In Air-Tight Tins until it reaches your home. Why?

Because coffee, after it is roasted, whether bean, ground or crushed, must be kept in absolutely air-tight packages. Otherwise it quickly loses flavor and strength. This is one of the reasons why we never sell coffee in bulk to be ground in the store when you buy it. It must be protected from the air from the very start.

Our tins are double sealed. First there is a band put on the seam where the cover joins the tin, then over this band the label is placed, doubly sealing it and making it absolutely air-tight.
