

The trial of Cook's "Sabbath Library" books, in paper covers—100 of which were bought at the beginning of the year at a cost of \$7—were largely read, and created a temporary interest, but are now much worn and unattractive. It would be well to make a liberal appropriation for the Library as early as possible.

Last winter, the "City of London Sabbath School Teachers' Association" was organized, and the meetings, held in our Lecture Hall, were very well attended, and much enjoyed. Let me especially urge the teachers, and other members of St. Andrew's, to attend these meetings this winter, on the second Tuesday evening of each month, in this Church.

The re-organization of the school and school-room, by reducing the number of classes, grouping and grading the scholars in larger bodies, and providing a better arrangement of seats and rooms, will be submitted for serious consideration.

Contributions for missions this year amount to \$126.91 (\$14 less than last year); and it is proposed to apportion amount thus:—Foreign, \$27; Home, \$40; French Evangelization, \$20; Point Aux Tremble, \$35; Welland Canal, \$5.

This school has been assessed \$15 for the debt and expenses of the Provincial S. S. Association, and it is recommended that we pay the same out of General Fund.

I thank the Teachers, School Secretary, Librarians and Organist for their faithful services and valued co-operation during the past year.
