

"AS SOBER AS A JUDGE."—At the summer assize of 1871 at Leeds, a witness of very respectable appearance was under cross-examination upon the old subject of drinking. The witness who had not been drinking that day in question, he replied he had never been, but he was sober. Then came questions in rapid succession, as to the where and the what, the how and the when; at last it was elicited that the man had drunk five threepenny-worths of gin and water. "Well," quoth the counsel, "were you not drunk?" "Drunk!" replied the man (the idea of five threepenny worths making a Leeds-man drunk!—he laughed out at the notion); "no, I was not drunk; I was sober as—I was sober." Mr. Justice Mellor—"You were going to say, 'As sober as a judge.'" Witness—"Well, my lord, I was, and I beg your pardon; but I stopped myself in time." Mr. Justice Mellor—"Oh, I don't mind it a bit—it is rather a compliment; but why the judges should always be selected I do not know; I think it might be varied by favouring us with a bishop now and then."

Rajah Maharajah of Kolapore has been in England, where he arrived in the course of his travels for instruction. He was twenty-three years old, and the sovereign of 600,000 people in India. His body was sent to his native Province for ceremonies.

Why the Valve Jar is Superior to all Others for Preserving Fruit.
1. Because it is the only one in which the contents can be securely fastened, and cooked while thus fastened, without risk of an explosion.
2. It is the only one that is automatically sealed, therefore, the only Seal-Sealing Jar in the market.
3. It is so simple that no skill is required to use it successfully.
4. It is securely fastened when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.
5. It is well known that fruit jars which are closed with tight fastenings (such as cementations, and the effect upon the cover and surrounding well understood by many housekeepers.
The Cover of the Valve Jar being a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings.
