St. Mary's Bazaar a Huge Success

The St. Mary's Bazaar which was held in the Catholic St. Mary's Hall on December 10, 11 and 12 was a huge success from start to finish. On Wednesday afternoon, Dec. 10th the bazaar went off with a flying start and the enthusiasm of the visiting crowds kept up till late on Friday night. Through the co-operation of the different societies of the St. Mary's Church, the ladies in charge of the bazaar were able to secure many numerous gifts which naturally helped a great deal to achieve the success desired. Everybody was glad and happy, especially those who were fortunate enough to carry home with them a heavy box of apples together with a small box of real oranges, or a doll, chocolates or some other thing which they happened to win. The main attraction however seemed to have been a beautiful large gramophone worth about \$150 kindly donated by Messrs. Bergl and Kusch, which was raffled at this bazaar. Tickets sold fast and the few remaining were auctioneered off at record prices. This gramophone was raffled off on Friday night and Mr. Bisanarck, a bachelor, was the lucky winner.

Mr. J. J. Bergl who acted as chief auctioneer deserves credit for the way he conducted the sale of the different articles. He certainly is suitable for this business and surely deserves a real auctioneer's

license. Mr. von Amerongen was a worthy assistance to Mr. Bergl. Messrs. Andrew Novak and Frank Becker kindly donated the calf which was won by Mr. Berger of Regina. Mr. John W. Ehmann donated a pig which was won by Mrs. John Weber. Many others donated smaller articles which were either auctioned off or raffled off. All those who have helped to make this bazaar such a huge success either by donating something or by lending a helping hand are most heartily thanked by the promoters. Although the net gain is not exactly known yet, it is believed that the financial success of this bazaar is somewhere around the twelvehundred mark. J.O.

Italian Deputies Give Cheers For Lenin

Declare England and U. S. Most Plutocratic of All States

ROME, Dec. 12. — Russia was to the fore again today, in the chamber of deputies, when the Socialists branded England and the United States as most plutocratic of all states.

Deputy Ciotti, Socialist, declared that an Anglo-American combination existed to make Odessa, Danzig and Fiume centres from which to reach out and strangle continental Europe.

The Socialist deputy, Professor Graziadei, asserted that the war was suspended only temporarily. He said the Bourgeois had hoped that life would be resumed as before the conflict, but that the general elections had disillusioned them. He declared the war had the effect of awakening the strength of the Socialists of all countries. The Catholics were against the war, because of the question of temporal power and because they feared the defeat of the central empires, he said.

All the Socialists applauded, while the Catholics shouted their disapproval.

Addressing the Catholics, Deputy Graziadei declared: "Your priests and your propagandists were defeatists." All the Catholics rose protesting. Graziadei continued: "In fact you were not at the front."

Deputy Cavazzoni, Catholic, shouted: "I was there."

Deputy Graziadei then took up the Russian situation: "The Entente recruits adventurers against Russia and starves Russian women and children as it has already starved those of Germany," he asserted.

Cheered Lenin "We must proclaim our solidarity with Soviet Russia." The entire Socialist group arose and cheered for Nikolai Lenin, the Russian Bolshevik premier, while the Catholics protested.

Deputy Graziadei urged opposition to the Anglo-United States hegemony, recalling that for three centuries continental Europe had been covered with blood for the especial purpose of serving England's policy.

Provincial Legislature in Session

(Continued from Page 1.)

The form of a government guarantee of repayment of advances made, under the provisions of a bill which was given a second reading in the Saskatchewan assembly Thursday. The guarantee will only be given under conditions where the other forms of security provided are deemed inadequate.

During the afternoon the regular proceeding were suspended for a few minutes to secure the Royal assent to four bills which had been passed since the opening of the session. His Honor Lieutenant-Governor Lake, attended by Capt. Alford, A.D.C., appeared in the assembly chamber and gave his sanction to the following four measures:

An act to amend an act respecting commissioners to administer oaths; an act to amend the supplementary revenue act; an act to provide for payment of certain wolf bounties, and an act to amend the Public Revenues act.

In moving the second reading of the bill respecting advances to purchase seed grain, the Hon. Mr. Turgeon stated that last year the loan companies were permitted to furnish seed grain to their mortgagees, the act at that time granting them the privilege of adding the indebtedness for such advances to the mortgages and also permitted them to attach a lien against the ensuing crop for the recovery of these advances.

Continuing, the attorney-general said the same principle which was adopted last year was incorporated in the bill now before the assembly, but an important addition had been made in that it provided for government guarantee to the companies making advances in addition to the other concessions granted last year. It was the intention, however, to grant this addition privilege only in case where the security was precarious.

The following bills were given a third reading and carried: Respecting the raising of loans authorized by the legislature; to amend the Wild Lands Tax act; to amend an act relating to the transfer of writs of execution to new judicial districts. The bill respecting the restraining of animals, running at large was given a first reading.

OUR ORGANISED GRAIN GROWERS

THE TRUTH ABOUT RUSSIA In spite of the rigorous press censorship, little by little the truth about Russia is coming out; which may have long ago surmised, indicates that conditions are not as they have been represented. Amongst the many reports which have proved to be entirely misleading is the one that "The Russian Co-operators have recognised the Kolehak Government." This was long ago denied, very emphatically and circumstantially, by the "New Republic," of New York; which is now supported by "The Canadian Co-operators."

Lift the Blockade With broken hearts we are witnessing the merciless fratricide ruining Russia; this murderous war of all against all. While keeping out of this civil struggle we are straining all our efforts in our endeavour to keep the starving population alive. In these endeavours we are handicapped by the blockade, to which Russia is exposed; and we are doing everything in our power to induce the governments and public opinion of the Allied countries, including the United States, to lift the blockade — at least to allow us Co-operators to send foodstuffs, bought with our own money, to our starving people, upon our own responsibility and with all the guarantees for a just distribution.

Pleading For Relief "We plead for such relief action, not because we secretly wish to help the Bolsheviks, or to defeat them, but solely because we openly wish to save the dying population of our country. We consider it as our incontestable right and our sacred duty to do everything in our power to help our people, the innocent victims of the most unfortunate and immoral starvation policy. Is it too much to ask the American democracy to buy for our own money condensed milk for the innocent babies in Petrograd and Moscow?"

Would Require Referendum "To ascertain political views of the co-operative membership it would be necessary to call a referendum, which has never yet been done. Therefore, all the statements purporting to express the political views of the tens of millions of Co-operative members must be considered as preposterous and misleading. Occasionally at co-operative congresses the general politics of the movement have been discussed and defined and political resolutions of broad, democratic nature have been adopted.

It is an old co-operative tradition, not only in Russia, but in the whole world, to keep out of politics. By refraining from political activities the Russian co-operative societies have continued to function in European Russia and in Siberia; have survived the general elemental devastation and form, at the present time, the best hope for the regeneration of the Russian people. Nothing can be more destructive of the power and influence of this purely economic organization, than to be swept in the political and civil strife now raging in Russia.

Co-operators For Democracy "One more point must be made clear, regarding the attitude of the Russian co-operators towards the various political governments in Russia. It is a well-known fact that the Russian co-operation was opposed to the Czarism, has supported Kerensky and is opposed to Bolshevism. But such attitude far from being contrary to the co-operative principles is justified by the very economic nature of our movement. As an economic organization the Russian co-operators are greatly interested in a democratic regime, guaranteeing a maximum of political and economic freedom; because only in an atmosphere of a genuine democracy the co-operation can be brought to its full development.
