NOVA SCOTIA.

More British Officers Going to the United States.

A Leading Artillery Officer Goes to Inspect Boston Fortifications.

The Will of the Late Charles M. Almon—To Prevent Illegal Lobster Fishing.

AMHERST, March 25.—The prompt response on the part of the Moncton fire department to the appeal for help, if needed, made by Mayor Allen, during the late conflagration, is fully appreciated and has been already recognized at an informal meeting of the fire wards and will be further recognized at the next meeting of the town council.

Mr. and Mrs. Jacob Baxter of Tidnish last night celebrated the fifteenth anniversary of their marriage, a large number of their friends taking them by surprise and providing an enjoyable evening's entertainment. Mrs. Baxter is the youngest daughter of Robert McGlashan of Tidnish. On Monday evening ex-Warden Oxley and his wife were very similarly entertained on the occasion of their silver wedding anniversary.

At the last meeting of the town council John Pickern was appointed chief of the Amherst fire department, in the place of Dr. Bliss, who resigned. Andrew Johnson was appointed assistant chief.

Amherst for some time has had only one policeman. The town council has appointed another, F. R. Brownell. There is now one for day and one for night duty.

HALIFAX, N. S., March 26.—The will of Charles M. Almon, son of Senator Almon, late registrar of shipping, leaves to his nephew, Wm. Bruce Almon, son of Cotton M. Almon, a life insurance policy; to grandson and nephew, John, son of Dr. Thomas R. Almon, his watch, chain and locket. The residue is left to Dr. W. J. Almon during his life, and at his death to the testator's mother. After Mrs. Almon's death the income goes to the testator's sisters, share and share alike; in case of the death of one of them, her share is to be divided among those surviving. The testator directs that should his sister, or sister, enter a convent or sisterhood, she shall be paid \$2 in lieu of her share as above, but should she leave such sisterhood, her share shall revert to her again.

Information has been received that the Ottawa government intends, when the close season of lobster fishing commences this year, to put on fire cutters to prevent illegal lobster fishing on these coasts. Four will patrol the Nova Scotia shore, where the poaching is carried on most extensively, and one at the Magdalen Islands. The last fishing season was most destructive to the lobster grounds, and was prosecuted without let or hindrance.

The exodus of British officers to the United States at this juncture continues and attracts increased attention. Captain L. J. Tweedie, a distinguished artillery officer, leaves Tuesday for Boston, and Lieut. Barlow, R. A., goes tomorrow to New York. Special leave has been granted in all such cases, and despite the rulings of international comity, it is concluded that these officers are giving the United States government service which they are able to afford. It is said Captain Lebita will inspect Boston fortifications. The report is current here also that Col. Isaacson, retired commander of the Royal Artillery in British North America, has been offered the command of a Virginia regiment.

The colonel has friends in Virginia. THURO, N. S., March 26.—Ellen Longhead's double dwelling house on Church street, which was occupied by the owner and Sheriff McClellan, was discovered to be on fire at 5 o'clock this morning, and before the firemen had got the fire under control the building was badly damaged. The cost of repairing it is estimated at nearly \$1,000. There is \$600 insurance on the building. The greater part of the furniture was saved.

ST. JOHN CITY.
Its Liabilities and Its Assets Compared—Amounts to be Assessed for the Current Year.

In the absence of Mayor Robertson, who was at Ottawa, Deputy Mayor Robinson presided at Thursday afternoon's meeting of the common council. The other members were Ald. McPherson and Millidge, who are out of town, the latter being with the mayor.

The treasury board recommended that the following amounts be assessed upon the city, along with the expenses of assessing and collecting the same.

For streets, squares, bridges, etc. \$38,000 00
For sewerage work 7,500 00
For sewerage maintenance 5,000 00
For interest on sewerage debentures 1,572 50

"SAME SIDE."

England Would be Found With United States.

So Said Dr. Stockton on New Brunswick Day at the Boston Sportsmen's Show.

(Boston Journal, 23rd.)

"If war should come, then I hope and pray that the United States and Great Britain will be found on the same side and that the ironclads of the two countries will fight an enemy in common and that we shall come nearer and nearer together as we should by the ties of the highest type of civilization, the common blood and the progress of freedom."

That was one of the sentiments uttered by Dr. Alfred A. Stockton, a member of the provincial parliament of New Brunswick, at the Sportsmen's show last evening in a speech at the observance of New Brunswick day. The 10,000 people present applauded enthusiastically.

The "day" was observed in the evening. A procession was formed consisting of the distinguished guests from the province, the various representatives of the exhibition and of the city and state, headed by the National Guard band. They paraded through the halls, around the exhibits and to the stage, where seats had been placed. The band played Rule Britannia while on the march, and on the stage God Save the Queen was rendered.

His Honor Mayor Quincy presided and introduced as the first speaker Hon. A. R. McClellan, lieutenant-governor of the province. He is a tall man, quite old and a face not unlike Lincoln's, but his hair is gray. He responded for New Brunswick and spoke of the high regard that was felt for Boston, for Massachusetts and for this country. "He was glad," he said, that the government of New Brunswick had an exhibit this very successful show. He said that he was sure that people of this city and of the state were impressed now with the importance of New Brunswick as a fishing and hunting country, and he spoke of the consideration of those present when deciding on a place to spend their vacation.

The mayor then introduced Hon. H. R. Emmerson, premier of the province. The latter made a very able plea in behalf of his native land and asked that the province of New Brunswick be not unforgotten by the people of this country. He said that many people in this country think that New Brunswick is a part of Nova Scotia. He spoke of the common brotherhood and ties of unity existing between Canada and the United States, and said that they would never be severed, but that they would be drawn closer and closer together.

Dr. Stockton spoke after the premier had aroused the big crowd to the highest pitch of enthusiasm by his stirring sentiments.

Dr. J. L. Tweedie, provincial secretary, addressed the assembly. The party stayed through and saw the relay race and the heats in the 100 yard race, and also the daring high dive of Paul Tuttle and the Monte Cristo sack jump of Alfred Hildebrand. Afterward a banquet in the Taitel hall was held, but it was entirely informal.

Gov. Wolcott could not be present early in the evening, but dropped in later on and attended the banquet.

(Boston Herald, 23rd.)

"God Save the Queen." "The Red White and Blue," "Rule Britannia," and the "Star-Spangled Banner" made a symphony at the Sportsmen's show last night, celebrating "New Brunswick Day." Although the programme was largely impromptu, the ceremonies grew in éclat as the day wore on and during the evening; no elaborate scheme could have been better.

It was a dignified interchange of international courtesies between the governors of neighboring states and a highly agreeable meeting all around.

Lieut. Gov. A. R. McClellan of New Brunswick, the Hon. H. R. Emmerson, premier of the province; L. J. Tweedie, provincial secretary, and Dr. A. Stockton, member of the provincial parliament, formed the nucleus of the New Brunswick party, attended by about 30 men from the province, occupied officially with the government or with the exhibit at the show. They were greeted as they assembled last evening by Mayor Quincy and Ald. Gen. Dalton, who conveyed the regrets of Gov. Wolcott, detained at the dinner of the New England governors.

Gov. Wolcott came in later, however, and for over an hour was a deeply interested onlooker at the events in the tank. Gen. Dalton had with him Col. Robins of the governor's staff, State Secretary Olin, State Treasurer Shaw, Governor's Secretary Perkins and Representative Parsons, President Harry Dutton, Treasurer Walter L. Hill, General Manager Charles Dimick, Col. H. E. Russell, J. Otis Weatherbee, Bayard Taylor and Dr. Heber Bishop of the show management completed the ceremonial party.

They made a tour of the hall to the strains of "God Save the Queen," and with the exhibit at the show. They were greeted as they assembled last evening by Mayor Quincy and Ald. Gen. Dalton, who conveyed the regrets of Gov. Wolcott, detained at the dinner of the New England governors.

ly competition in the wholesome, healthy affairs of the woods and streams, to mutually reassure each other in the noble cause of protection to the denizens of the forest, to shake hands also with those who, born in New Brunswick, have adopted Boston as their home—these were rare privileges that would be a highly prized remembrance.

Premier Emmerson humorously commented upon some local fallings in geography, which often placed New Brunswick as a part of Nova Scotia, but he trusted the show had gone far to correct these errors and to restate his native province in its proper dignity as a region with traditions and hopes of its own. When two peoples with a common history, kindred feelings and the spirit of neighborliness so well marked met in this healthy rivalry, there could not but be a re-awakening of the bonds of friendship, a re-awakening of ties that made the Anglo-Saxon race kin.

The speakers had much trouble in
