LOCAL NEWS.

Hereafter all notices of auctions will be found on page 3, last column.

The monthly business meeting of the Kings Daughters' Guild will be held on Friday at 2 p. m.

The library of the late Rev. J. deSoyres is now on sale at the Church of England Institute, Germain street.

Only two more days to secure the one dollar coupon of the Union Clothing Co. See it on page 3, Cut it out.

W. H. Sargeant, of North End, who went to Calgary last April and started a small boot and shoe shop, has been very successful. He also makes custom shoes to order, and has opened up a retail store.

The Sydney Post says:—Between 7 p. m. o'clock and midnight on Saturday, the steamer Borgestad was docked loaded with 7000 tons of coal, and despatched for Montreal. Seven thousand tons of coal over the chutes in less than five hours beats all previous records the world over for coal handling.

The anniversary of the Women's Missionary Society of Carleton Methodist Church will be held in the vestry Friday evening, October 15th, at 7:30. An address will be given by Miss Comble, a returned missionary from Uda, Japan, and the report from delegates to the branch meeting will also be given. A collection will be taken at the close of the meeting.

The yacht Grace M., owned by Mr. McLaughlin, the baker, is out of the water at Millidgeville, and will be radically improved before next spring. Builder Colton is soon to commence the work of building a new and more commodious cabin in her, which with other changes will place the speedy single-sticker a few notches nearer the top of the line.

A merry gathering took place last evening at the home of Mr. and Mrs. John Stanton, Elliott Row, the occasion being the first anniversary of their marriage. Shortly before lunch James Walsh, on behalf of the assembled crowd, presented to Mr. and Mrs. Stanton a handsome set of dining room chairs. Mr. Stanton responded in the most appropriate manner and then the party enjoyed themselves in singing and dancing.

The annual fair of the Loch Lomond Agricultural Society is being held today at the society's grounds near the old Ben Leimon house. The attendance at noon was large, and people were arriving at a rate which would indicate that the crowd this afternoon will be greater than in any previous year. The display is also said to be above the average, the exhibits in the line of root crops are excellent, and the entries of live stock are numerous. Judging was going on all forenoon.

A peculiar accident occurred at the Exhibition grounds Tuesday night. John Abraham, a cable operator, was throwing a ball at the colored man's head in the "Kill the Coon" game. He put on all the force possible and the result was that his arm broke above the elbow. He was taken to the drug store of A. Thompson, where his injuries were attended by a physician after which he was driven to his home. The break occurred just as he had swung his arm back to make the throw.—Halifax Echo.

James Muir, one of the chiefs on the Ottawa Journal staff, is in the city with Mrs. Muir on their way from Halifax. While in St. John Mr. Muir is visiting his sister, Miss Muir of the Victorian Order of Nurses. The Upper Canadian newspaper man is a prominent figure in the press gallery at Ottawa, and is a person of very considerable experience in the journalistic field, even so far as being a war correspondent in South Africa. He is impressed with the businesslike tone of St. John, and likes the place for its all round attractiveness. Mr. and Mrs. Muir will leave for their home tomorrow.

The quality of gas supplied these days is simply vile. If it continues so poor, numbers of customers of the St. John Railway Company promise to boycott the system. In numerous localities when jets were turned on full force, only half lighting power was forthcoming, and that was a dirty yellow, shedding little illuminating light. It is necessary to turn on all the jets in order to get a light by which a newspaper could be read. Some householders turned off the dimmest stickers and lighted lamps. Of all the poor gas had in St. John of late years, the present supply is the limit. At \$1.15 per thousand—when nearly every other city in Canada and the United States is getting it for half that price—the gas supplied the people of St. John is high and poor.

R. E. Johnston, of New York, who is managing the American tour of Anton Hekking, the great German cellist, is endeavoring to arrange for a performance in this city. Mr. Johnston has written to a musical man here asking him to take up the local end of the matter. The Canadian engagements begin in Montreal on the 9th inst. Concerts are also booked in Quebec and Halifax. Mr. Johnston thinks that as the party has to come through St. John reasonable terms might be made which would enable him to have a concert here. Mr. Johnston says the 16th as a possible date, but at that time both the theatres will be engaged. Doubtless arrangements might be made to get one of these houses if it is decided to have the cellist come here.

FUNERALS.

The funeral of the late Mrs. Evans was held this morning from her late residence, Prince William street. Rev. Mr. Hand conducted the services, and interment was made in Fernhill cemetery.

The funeral of Mrs. Catherine Vincent was held this morning from the residence of her son, Victoria street. Rev. Mr. Camp conducted service at the house last evening. The body was taken on the steamer Crystal Stream to Coles Island, where interment was made.

THIS EVENING.

Band in Victoria Hall.
Band in St. Andrew's Rollaway.
Smoker in Neptune Rowing Club rooms.
Free lecture at the Opera House.
Fair in Catholic church, Carleton.

MUCH INCONVENIENCE

THROUGH LACK OF WATER

People Went to Work Without Washing Their Faces—All the High Districts Affected.

A good many people in St. John this morning went to work without washing their faces. In certain districts supplied by the high pressure water service, there was no water to be had, owing to the break in the 24-inch main at the Hickey Road. No warning, of course, could be given that this was to occur, and the people were deprived of the opportunity of drawing off a supply of water to last while the interruption existed. Hence, when they got up this morning there was not a drop in the pipes or put away, and on Douglas avenue especially people were running even across to Fairville for buckets and barrels of water, while many others preferred going to their shops and offices without washing at all, and as an opportunity offered, taking their breakfasts at some of the lunch rooms in town. In the King street district the water did not altogether fail, although the pressure was very weak in the higher parts, and considerable inconvenience was caused.

DIGGING MANY BOULDERS

OUT OF NO. 2 CRIB SITE

Mr. Clark is Cheerful—Ballast Was Put in No. 1 Crib Today and it is Firmly in Place

The dredge Beaver is now digging at the eastern end of the site for crib No. 2. Mr. Mayes, in conversation with the Star, said he could not say when the site would be ready, as there are so many boulders to be cleaned out. Last night the dredge removed four large boulders, and this morning it took out five more. Mr. Mayes hoped that he could do very little more until the site for No. 2 crib is ready. He did not think that there would be any difficulty in putting crib No. 2 or No. 3 crib in place.

MOWRY NUT COMPANY

STILL UNDECIDED

Monoton Bids for the Plant, But Nothing Definite Has Yet Been Settled

The Mowry Safety Nut Company has received a letter from the city of Monoton stating that parties willing to establish such an industry would be treated generously.

The Mowry Safety Nut Company will probably have plants in several of the progressive towns, although no definite arrangements have been made.

An official of the company, when seen yesterday, would not say if Monoton was one of the towns that would be chosen.

The most bustling towns and the ones offering the greatest inducements will be chosen. The plant in this city is very busy, and a large number of men are employed at the factory.

C. V. Wetmore, a member of the company, arrived in the city at noon today. He registered at the Dufferin. C. S. Dempsey and H. C. Arnold of Boston, Mass., who are also at the Dufferin, met with Mr. Wetmore immediately after his arrival. They are endeavoring to purchase the American rights from the company.

Mr. Wetmore, when seen by the Star, said that the company has not yet decided where they will have another plant. Monoton, Amherst and other provincial towns have been thought of, but no decision has been arrived at. The matter will probably be settled in about ten days.

WOKE UP TO FIND

HIS BARN BURNED

Valuable Property Belonging to Col. Campbell at Apohaqui, Destroyed While Family Slept.

On Tuesday night the barns of Col. H. Montgomery Campbell, the well known military man and farmer of Apohaqui, Kings Co., were burned to the ground under very peculiar circumstances. The barns, which are situated some little distance from the colonel's house, were well stored with the summer's crop consisting largely of hay and grain. In the buildings there was also a large quantity of farm machinery, but no live stock.

Before the family went to bed on the night of the fire everything was apparently all right, there being no sign of any fire. But what was the surprise of the colonel on awakening in the morning to find the well filled barns to be nothing but a heap of smoking ashes. No person had seen or heard of the fire, and there is no knowledge as to its origin.

Repairs to the water main were completed yesterday, and shortly after two o'clock the water was put on. No other breaks have occurred. The new pressure will probably be put on again tomorrow, when No. 2 low service pipe will be tested.

J. J. Fox of Fredericton arrived in the city on the noon train today. Miss Elsie McDonald is visiting friends in Chatham.

Men's

Fine Tailored

Ready-to-Wear

CLOTHING

20th Century are now supplying nearly every city and town in Canada. The last two years have seen a very great increase in the demand for these fine tailored garments. Their purchases of cloths and linings may well be described as enormous. Consequently they can buy cheaper every season. What would supply even a large retail business is comparatively a small item in their production.

The Suits and Overcoats for this Fall and Winter at \$10 to \$18 are better for the price than ever before, notwithstanding the increased price of materials. The modeling, tailoring and fit simply cannot be surpassed. We court very critical inspection. Our fall stock is very complete.
