Rev. Dr. McLeod, conservative can didate for York, has been invited by the Orangemen of Marysville to deliver a sermon in the Free Bantist church of that town on Guy Fawkes day, Nov. 5th. The Orangemen of Fredericton will also be present. It is said that Mr. Gibson, sr., does not like the idea of having Dr. McLeod deliver the sermon and has asked the Orangemen to obtain somebody else. They, however, refuse to go back on their first choice. Authentic reports from Marysvill state that that town is in an uproas over the approaching election, and that the conservative party have suddenly come out strong. Mr. Gibson certainly has cause to be alarmed.

The tariff, instead of having been reduced to a free trade basis, had been lowered one-half of one per cent only during their occupancy of the treasury benches. At this amazing rate of reduction the child born tonight will be nigh fourscore ere the promise is fulfilled. The plebiscite fiasco was ably reviewed, showing that, especially at the instance of the premier of Quebec, the implied promise of prohibition was set aside and the principles of responsible government subverted. The speaker was greeted with many rounds of ap-

ANOTHER LIBERAL

Refuses to Follow Blair Into the Mire.

Calls On All His Fellow Liberals in Victoria Co. to Vote Against Costigan

A Plain Spoken Letter From George E. Baxter, of Andover, Giving His Views of the Present Political Situation.

To the Liberals of Victoria County:-We are again on the eve of a general election, and before we deposit our ballots on election day it is the duty of all good liberals to carefully consider the issues involved in this campaign and vote as we have done in the past for liberal principles and good government. I regret I cannot enjoy the pleasure only to a very limited extent of visiting the different sections of the county and publicly discussing the political situation with you as on former elections. I wish, however, through the press and the printed page to set before you my views of the political situation in this county. Politicians at election times raises issues to suit themselves, dwelling on those subjects that they can most easily defend and often draw the minds of the electors away from the real issues at stake. It will be particularly so at this election in this county. The liberals in this county are confronted with a peculiar condition of things, and many are perplexed as to how they should vote. On former elections the issues were square and we knew where we were at. These issues were debt, taxation, expenditure, independence of parliament, protection, combines, etc. These are just as import issues now, and the electors should insist that liberal government should carry out their pledges on these important subjects. Important as these matters are in this constituency, they are eclipsed by the more important questions of political liberty and political honesty. An attempt is made to deprive us the privilege of selecting a candidate of our own choice, and to lower the standard of political honesty by sanction in a representative he betrayal of trust reposed in him by the elect-These are the issues that are befor the electors of this constituency at this time. An effort will be made to

from these issues to the consideration of more general questions, as the English preference trade and the extension of the Intercolonial to Montreal, etc., but they should not be allowed to so deceive you. I have said an attempt is made to deprive us of our political liberty. In the first place the provincial liberal organization does not now exist. It has been killed, or allowed to go out of existence. In its place is what is called a liberal organizer. What does he organize? What is the head of the liberal organization? Who is its president, and when did it last meet? Have the different county organizations any say in the councils of the party? These are questions that should interest the iberals of this province? Is it the principles of liberalism to be ruled by a dictator? How have we, as liberals, been used by the liberal government during the last four years? What redress have we had? There was no provincial liberal organization to appeal to. There was nothing for us to do but to submit. I need not refer in detail to the way we have been used; suffice it to say that the liberal government represented in this province by the Hon. A. G. Blair, never in any way recognized our claims, but went on the principle that to the vanquished belong the spoils. The principle the government laid down as to the dismissal of offensive partisans they violated, and we were told by A. G. Blair "These are friends of mine supporting me in the local legislature." New appointments were filled by offensive selections, and finally Mr. Blair told us that "it was unreasonabe to expect immediate recognition." After the liberal government came in power

DRAW YOUR MINDS AWAY.

MR. BLAIR RECEIVED

"immediate recognition," but the rank and file must wait. Mr. La Forest, our standard bearer at the last election, to oppose the Hon. Mr. Costigan, then minister of marine and the great champion of separate schools for Manitoba, made an honorable and manly fight, spent his money, and deserves the thanks at the liberal party, not only in Victoria, but throughout he province. He has been treated by Mr. Laurier as an enemy, while Mr. Costigan has been honored by his friendship and given the patronage of the county. I would ask you in all sincerity if this is liberalism? But bad as this treatment is, party allegiance might induce us to forgive it if they had not added insult to injury. At the last local election Mr. Costigan came down to this county and used the patronage of two governments and did all he could to defeat Mr. Porter and Mr. Beveridge, two liberals and supporters of the Emerson government. He succeeded in defeating Mr. Beveridge and the friends of Mr. Porter are amazed at the liberal principles of Mr. Costigan. But the gravest insult of all to the liberals of this constituency is the action of Mr. Blair in forcing Mr. Costigan upon us as the liberal candidate at the approaching election, against the wish of at least two-thirds of the liberals of this county. Is this liberalism? Should party allegiance condone such treatment? The sacred privilege of the ballot is tampered with. veldts of South Africa are

REDDENED BY THE BLOOD

of our noble boys to obtain for Britons the rights of the franchise, while the citizens of this constituency are treated as mere pawns upon the pelitical chess board to do the bidding of Mr. Blair and Mr. Costigan, This is surely a time for all true liberals to vote for their political freedom above all other considerations. Mr. Costigan has given as his reason for leaving the conservative party that he quarrelled with his leaders. What a trifling excuse for an honorable man to forget the confidence reposed in him by the electors. As long as his leaders were in power and could make him a cabinet minister he could be true to his party, but the moment they were out of power he went over to the liberal government, received the patronage of the county and now comes to the liberals for their support. Mr. Costigan is an old worn-out conservative. He may suit the purposes of Mr. Blair, but why should the liberals of this constituency ratify the sale? In political language this may be

CALLED A DEAL.

The reasons for it may be withheld from the electors, but in the interests of political morality and good governmeat should not the liberals of this country exercise the "divine right of bolting" and vote for the defeat of Mr. Costigan. Let no false ideas of party, allegiance induce us to sanction such dishonorable conduct on the part of our representatives. Let us raise the standard of political morality so that no representative in the future will dare to do as Mr. Costigan has done. The true liberals are those who stand by their principles and vote for honest men and honest government. The liberal party of Victoria, led by John Costigan, is not the party to which you nor I owe allegiance: Let us do our duty at the polls.

Yours. GEO. R. BAXTER Andever, N. B.

ODD RESULTS OF GRAFFING. French Bean Wedded to the Caston

Oil Plant. Our Brussels correspondent telegraphs that it has been reserved for a Belgian gardener to show the modern plant what it can do in the way of grafting. Hitherto it has been customary to assume a spirit of determined exclusiveness to be implanted in plants-that, in fact, a stock will take no graft unless it be of the same plant family with itself. The ingeni-ous Belgian has changed all that. He has, he declares, grafted the sugar maple on the lilac, the French bean on the castor oil plant and the cabage on

the tomato. A Daily Mail representative ran un to Holborn yesterday to ask Mr. Carter's grafter whether these things might be. The seed-plant expert said that he would not go so far as to say that they might not, but if they might he did not know of it. And again, if they might, what then? The result would not be a species of sweet lilac that might be used in fruit tarts, nor a French bean with medicinal properties attached, nor a cross between a

abbage and a tomato. The graft preserves its own character. Its habit of growth may in some cases be modified, but the fruit remains as before. Moreover, these freak plants do not seed. You may get the first step, but no further. The sugar maple would remain a sugar maple, the French bean would conis to be a French bean, and the cabbage would not cease to be a cabbage—only that and nothing more. It is therefore very clever of the Belgian, but rather unnecessary—unless of course, he could manage to graft mint upon green peas and broad beans upon parsley and melted butter.-London

> INJURED INNOCENCE. (Revelstoke Horald.)

Not a few of the leaders of the liberal party are making themselves ridi-

culous by their methods of meeting the charges of their antagonists. A horrified countenance and a tone of injured inappence are the choice weapons of Sir Wilfrid Laurier and his colleagues in the election campaign, and not infrequently they were their defence in the dominion parliament. The Canadian electorate is not all likely to be misled by these efforts te place the opposition on the defenswe while the government seeks cover behind "How can you?" appeals to

conservative leaders. Candid admission of a fault will never rank as a virtue of the liberal ministers of today. Straightforward defence is also a method which finds few followers in the adherents of the new liberalism.

Liberal 'eaders are meeting the charges of the enemy of this campaign on the injured innocence plan and the tactics are anything but a tribute to government which professes confidence in its policy and belief in the wisdom of its public acts.

BIG COAL STRIKE.

President Mitchell Will Issue an Important Statement Teday Defining the Position of the Union.

HAZLETON, Pa., Oct. 24.-President Mitchell tonight announced that he would tomorrow, probably late in the afternoon or evening, issue a statement defining the position of the United Mine Workers in the present situation of the strike. He also said that his statement would in all likelihood andicate whether the strike would be immediately declared off or whether it would be continued.

This announcement was made as result of today's conference between the national and district officers of the United Mine Workers. The impression around headquarters tonight is that the statement will contain practically a declaration that the contest is ended. Coal companies controlling 75 per cent of the anthracite coal product, it is learned, have posted notices, but President Mitchell will not say that all of them comply with the terms of the Soranton convention. The big companies in this district that have not posted the notices are the Lehigh Coal and Navigation Co., G. B. Markle & Co., and Coxe Bros. & Co. The Markles have granted no

increase of wages of any kind. Today's conference was in sessison three hours and was adjourned till tomorrow morning. President Mitchell at its conclusion announced that the situation was partly canvessed and that the review would be completed tomorrow.

CLOSER COMMERCIAL UNION.

LONDON, Oct. 25 .- The chancellor of the exchequer, Sir Michael Hicks-Beach, in the course of an address before the Liverpool chamber of commmerce yesterday, advocated closer commercial union between the different countries of the empire and greater organization for the empire's common in-terests. He said, with regard to the former, that it was impossible for Great Britain to be other than a free trade country, and that he sympathized with Sir Wilfrid Laurier, the dominion premier, in his opinion that an imperial zollverein was unattainable with-out free trade within the empire. So far as imperial organization was con-cerned, he said he did not think there was any immediate danger of war, and he ex-pressed a hope that the principles of the Arglo-German agreen ent would be univer-

WEST INDIA TRADE.

A British Guiana Paper Makes a Suggestion Concerning Canada's Policy.

(Georgetown, B. G., Chronicle.)

The Nova Scotia Chronicle continues to hammer away with exemplary assiduity at the question of Canadian reciprocity with the West Indies generally and Trinidad in particular. As we pointed out some weeks ago it is unlikely that any practicable scheme ciprocal trade will materialize for the present, and this the Canadians themselves must recognize. But there is "another way round" which the dominion government have within their power to adopt without arranging any reciprecity convention. The board of trade of the maritime provinces recently passed a resolution inviting the imperial government to levy a countervailing duty against the bounty-fed beet sugar of Europe in order that the West Indian product might have a fair chance in the markets of the United Kingdom. This act of the merchants on the Canadian seaboard was much appreciated in the West Indies, the Jamaica Daily Telegraph preaching an

edifying homily on Canadian preparedness to see "justice" done to the Caribbean possessions when the statesmen of the mother country remained deaf to their supplications. Unfortunately, there are many people in Great Britain who, wisely or unwisely, object to see the existing free trade basis, upon which England's commercial position has been built up, in any way modified. If we may accept Lord Salisbury's word for it, there is no. much hope that the British elector will ever see the wisdom of a policy likely to increase the price of sugar in the United Kingdom. But in the case of Canada the people have no such scruples upon questions of financial policy. It is true they protest against the European sugar bounties, but the government of the dominion subsidises just in the same way the farm produce and the rising iron industry of the dominion. Under these circumstances, since Canada is still committed to a protective trade system it ought to be feasible for the government of Sir Wilfrid Laurier or whatever government comes into power after the pending general election, to devise a retaliatory tariff in respect to sugar which will block the admission of European sugar to the markets of the country as effectively as a similar measure has done in the United States. If it is possible for Canada to develop a substantial trade with the West Indies at all, a countervalling duty imposed upon bounded sugars would be as effective an agency as any for initiating it Over and above the best product West India sugar would then have first of all the advantage of the 33 1-3 per cent preference accorded by Canada to the exports of the United Kingdom and the colonies, and secondly, the preference represented by a retaliatory duty. which based by the United States calculations would amount to about £1 per ton. If with such a substantial advantage offered it in the Canadian market British West Indian ugar failed to come into general consumption in the country, then undoubtedly any measure of reciprocity between the dominion and the British possessions in the Caribbean gulf would at best be only temporary in its results, and in the long run would have no appreciable effect on the current of West Indian
