The first Patrice Recording of the Superior Recording of the Superior

Being a Synopsis of the Diseases of Horses and Cattle, with their cause, symptoms and cure.

By Peter Bunting, Veterinary Practitioner, St. John.

This Work to a generous and discerning Public, would te specifully intimate, that it combines the experience of the most eminent Veterinary Surgeons and Practitioners is Europe, and that the whole has been carefully revised by the Author, and such alterations made therein as the peculiarity of the climate of New Branawick required. Notwithstanding the perfection to which the art has arrived in Great Britain, there are diseases known there, which have never been known to exist here, and vice versa; consequently an English Veterinary Tablet, would be from to be very imperfect indeed in North America. He would also beg leave to assure Farmers, and others, that with his Tablet before them, very few cases of disease would ever occur, which they would not be enabled to treat with perfect safety, by following the instructions there lad down.
