Halifaz, August 9.

After a session lasting about five months the Dominion Parliament was prorogued on Friday.

on Friday. On Thursday last Ex-Judge A. L. Parimer died in St. John at the age of sev-enty-nine. Mr Palmer was one of the sphest of New Brunswick's lawyers and has been in miost important cases. He was born and educated at Sackville, and admitted an attorney in 1884. He prac-ticed at Dorchester and St. John; made judge of equity in 1879, and resigned in 1890. He lived in Boston much since then and was injuried there at few months apo by falling from a street câr. He was brought to St John a few weeks ago and shortly afterward was taken ill. He was prominent in politics some years ago and successfully contested Weatmorland Coun-tor the Dominion seat. He was return-ed representative from St. John in 1872 and again two years later.

Mr. W. J. Fanning, steward of the steamer New York, at Clayton, N. Y., is anxious to find relatives who formerly resided in Montreal. His father, the late Jeffrey Fanning, of St. John, N. B., had two sisters who married Montreal men named Haskells. His father was killed in the rebellion in the United States, and for many years the family has had no com-munication with their aunts or family. They would now like to find them.

How Much Are Young women Worth. Young women cannot build the houses that would line eight streets from New York to San Francisco, but rightly educated they could convert each one of these houses into a home, and to found a home and conduct it properly is to help the world. It is so easy to measure what is done with physical strength. We can see what men are doing when they build railroads, construct immense bridges, and towering buildings, but it is more difficult to measure what is done through intellect-ual and spiritual forces which go to build up men and women. With this thought in your mind can you answer the question. How much are you worth? How much are you worth to yourself? How much are you worth in your home? How much money would your parents be willing to accept in place of yourself. How much are you worth to the community in which

are you worth to the community in which you live? How much are you worth to the State, the nation, the human race? You can recognize your value in the home when you remember that you are the centre of all that goes on there, how much your interest is consulted in everything that is done by your father and mother. You can realize your value to the State when you realize how much money is spent for the education of young people how cultured men and women give the best of their lives to your instruction. You cannot measure your value to the that the young people of today are creat-ing the condition of the world in fifty or owe hundred years to come. that you through your physical health, or lack of its weakness in future years, if you are a mother. It is all right that young women should think of marriage and motherhood provided they think of it in the right weakness.

provided they think of it in the right way. Twent you to reverence yourself, to realize your own importance, to feel that you are a becessity to God's perfect plan. When we are young, and feel that we are of no account in the world, it is difficult to realize that God's complete plan cannot be carried out without us. The smallest, timbest rivet or bolt may be of such great importance is the construction of an engine that its loss means the incapacity of that placed you here to do its work. As God has placed you in the world, he has placed you here to do a specific work for him and for humanity, and your failure to do that work means the failure of his com-plete and perfect plan. Now can you be-gin to see how mitch you are worth—The New Crusside.
