Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a
glass of hot water before
breakfast.

We're not here long, so let's make
our stay agreeable. Let us live well,
eat well, digest well, work well, sleep
well, and look well. What a glorious
condition to attain, and yet how very
easy it is if one will only adopt the
morning inside bath.

Folks who are accustomed to feel
dull and heavy when they arise, split
tint headache, stuffy from a cold, cold
tongue, nasty breath, acid stomach,
etc., instead, feel as fresh as a daisy
by opening the sluices of the system
each morning and flushing out the
whole of the internal poisonous stag-
nant matter.

Everyone, whether ailing, sick or
well, should, each morning, before
breakfast, drink a glass of real hot
water with a teaspoonful of limestone
phosphate in it to wash from the
stomach, liver and bowels the previ-
ous day's indigestible waste, sour bile
and poisonous toxins. The action of
hot water and limestone phosphate on
an empty stomach is wonderfully in-
vigorating. It cleans out all the sour
fermentations, gases, waste and
acidity and gives one a splendid
appetite for breakfast.

The millions of people who are
bothered with constipation, bilious-
ness, stomach trouble; others who
have sallow skins, blood disorders
and sickly complexions are urged to
get a quarter pound of limestone phos-
phate from the drug store. This will
cost very little, but is sufficient to
make anyone a pronounced crank on
the subject of inside-bathing before
breakfast.

COMMON COUNCIL MET IN COMMITTEE

St. John Drydock and Ship-
building Company Ask for
Large Cash Grant, Portion
of Land and Diversion of
Road.

At the city council committee meet-
ing held yesterday morning a letter
from the St. John Dry Dock and Ship-
building Company asking for a cash
grant of \$500,000, the land on which
the Municipal Home stands and the
diversion of the Red Head Road op-
posite their plant, they to rebuild the
Municipal Home on some other site,
was read but no action was taken as
the provincial government was asked
to contribute a part of the money and
it was thought best to wait and see
what action they would take at their
meeting in November.

In connection with the offer of 1,000
tons of Albert shale, it was decided
to accept orders at \$5.50 per ton from
any citizens who might wish to buy.
A letter from Dr. W. C. Kierstead,
urging the city to appoint committees
to look after the enforcement of food
regulations, was also read.

LIQUOR CASES IN POLICE COURT

Several Cases Heard in Illegal
Handling of Liquor—Chi-
nese Are Charged With
Fighting on Board Ship.

In the police court yesterday morn-
ing a man was charged with having
liquor in his possession the previous
evening, also with having liquor in his
house for illegal purposes. He plead-
ed guilty to the first charge, but to
the second he pleaded not guilty. He asked that
the case be then postponed until this
morning. E. S. Ritchie is appearing
for the defence.

A North End man was charged with
having liquor in his possession other
than in his private dwelling house.
He was warned of his liability to a
fine of \$200, or the option of six
months in jail, and was sent below.

Another person was charged with
being drunk, and having lemon extract
in his possession. He was fined \$5,
and told of his liability to a fine of
\$200.

A youth appeared charged with be-
ing drunk. He was remanded after
stating that he bought lemon extract
from another chap, paying him 70c.
per bottle for same.

A young man, charged with having
liquor in his possession, was allowed
out on deposit, the hearing in the case
coming up Friday, while the person
who supplied the forbidden potent
was allowed out on deposit. Hear-
ing to come up on Friday.

Three Chinese charged with fight-
ing on board a ship in port, were
remanded until five o'clock last even-
ing, when the ship sailed.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women
crowd and buckle up their tender toes
in high heel footwear they suffer from
corns, then they cut and trim at these
painful pests which merely makes the
corn grow hard. This suicidal habit
may cause lockjaw and women are
warned to stop it.

A few drops of a drug called free-
one applied directly upon a sore corn
gives quick relief and soon the entire
corn, root and all, lifts out without
pain. Ask the drug store man for a
quarter of an ounce of freeone, which
costs very little but is sufficient to re-
move every hard or soft corn or callus
from one's feet.

This drug is an ether compound and
dries in a moment and simply shrivels
up the corn without inflaming or even
irritating the surrounding tissue or
skin. Clip this out and pin on your
wife's dresser.

INTERESTING LETTER FROM AMERICAN SOLDIER IN FRANCE

Great Praise for British and French Troops.

One of "Uncle Sam's" soldiers who
is fighting in France writing to a
friend who is at present in the city,
tells of the conditions in the great
war in the following interesting
letter:

"Somewhere in France."
Our first hospital train arrived this
morning with something over 500 Am-
ericans direct from the front, and we
were looking for another this afternoon.
We are ready for 3,000 except that the
nurses have not yet arrived. In the
meantime the doctors and enlisted men
look after the boys. The boys
bring news that seems to indicate
that the Germans are getting hard
pressed for men—it is that women
Americans direct from the front, and we

German has systematically worked
for years to eradicate the souls from
her people, to make of them human
machines which could be driven at
will by a master hand. With what ar-
rogant superiority Germany spoke of
France and England before the war
as decadent nations, without system,
without efficiency, without children in
comparison to the sons of Kultur. And
again with what contemptuousness,
what prudish ignorance she spoke of
America as a nation of shopkeepers,
money makers, a people who didn't
have the first conception of the prin-
ciples of warfare, a people who were
gun shy and would run like scared rab-
bits before the mighty Hun and Teu-
ton. Only a wave of the Boche hand,
only a mere puff of Prussian breath
would dispose of the few thousands
of ignorant, untrained, gun-shy men
that we could force to come over here,
or that could get by the mighty wea-
pon of the deep, the treacherous, sink-
ing submarine.

If Germany were so near-sighted
ed that she cannot see anything in this
world except Kultur and Prussianism
she would have seen that there is some-
thing greater in this world than mere
guns in the hands of human machines,
whatever their superiority in numbers.
She would have seen that there is a
something in the French and the Brit-
ish that she does not possess, the very
thing that she has so deliberately erad-
icated from her own people, the soul.
Without it, outnumbered as they were,
with no ammunition, using their rifles
as clubs, the French would have lost
their cause in 1914, and the world
would be a different place today.

all the picturesque surrounding of
Japan, Fanny Ward is shown as the
