## Abraham T. Watters Struck on Head With Iron Pivot and Hurled Thirty Feet Into Steamer's Hold—How Accident Occurred—Inquest Will Probably Be Held.

Saturday, Oct. 15. Struck on the back of the head with an iron pivot, and then tossed in the air to fall heading thirty feet into the ship's hold, Stevedore Abraham T. Watters, while working on board the S. S. Manchester Commerce yesterday afternoon, met death instantly. The accident happened at 4.55, just five minutes before the day's work was over. The blow which he received on the back of the head from the iron pivot coming at such force was in itself sufficient to cause instantaneous death.

The steamer was docked at Long wharf, loading lumber. Watters was at the time of the accident acting as winchman. The accident itself was caused by the pivot giving way from the lead block attached to the front of the derrick. The machinery was in full operation at the time, a sling of deals being lifted. The tension on the blocks was terrific and when the lead block gave away the wire leading from the winch into the derrick recoiled, hitting the stevedore and throwing him over the winch into the hatchway. When picked up all signs of life were extinct and from the nature of the wounds in his head it is believed that he was killed the moment the pivot struck him. The accident happened so quickly that none of his fellow workmen realized what had happened until all was over. Coroner Berryman was summoned and after viewing the remains, ordered their removal to Chamberlain's undertaking rooms. This morning he will empanel a jury and in all probability hold an inquest this evening.

Those working on board the steamer were greatly affected by the mishap. Norman Gregory, the stevedore, and the steamship men were inclined to be lenient. "It was an unfortunate occurrence," said Mr. Gregory, "and outside of that I have nothing to say. I was present at the time, but feel that I should not at the present time give any opinion as to what was the cause."

The remains were left in Chamberlain's undertaking rooms all last evening, the corner giving orders not to have them moved until viewed by the jury. It is expected that the jury will be empaneled early this morning, however, so that they can be removed to his home in 63 Metcalf street.

The victim of the shocking accident was 62 years of age. He has been engaged at longshore work for about 12 years. Previous to that he followed the sea. He was a very genial man and was held in popular esteem by all who knew him. He is survived by his wife, two sons and three daughters, all grown up. The sons are Edward and Guy J., daughters are Louise, Gladys and Helen. William Watters of Westfield is a brother. Three sisters, one of whom is Mrs. Louise Jones of this city, also survive. The funeral will take place from his late residence, Metcalf street, Monday at 2.30 o'clock.

People in Fairville are very much amused over an incident which occurred a few days ago, in connection with some repairs being made on the Suspension bridge, by the provincial government. It seems that the provincial engineer instructed the caretaker, Mr. Burns, to engage someone to make repairs to some of the overhead work on the structure. Following his practice in other years Mr. Burns arranged with W. J. Linton, of Fairville, to do the work. Mr. Linton ordered his materials and had men ready to go on the job when it was found that the man he had engaged, Mr. Maxwell, that in the last election Mr. Linton had voted for the Liberal candidates.

A hurried visit was made to the scene of action and Mr. Burns was instructed to dismiss Mr. Linton and to engage supporters of the local government. Now the work is being done by Atkin Brothers, of Fairville. The humorous side of the story is, however, that Mr. Linton and all members of his family have been staunch Conservatives for many years, and the two men who had been engaged by Mr. Linton to do the work, Messrs. Cunningham and Miller, are life-long Conservatives. It would appear that a mistake had been made after all.

# INQUEST BEGUN IN CASE OF MAN KILLED ON SHIP

## First Officer of S. S. Manchester Commerce on the Stand—Inquiry Adjourned Until October 25.

The inquest into the death of Abraham T. Watters, who was accidentally killed while working aboard the steamship Manchester Commerce, docked at Long wharf, last Friday afternoon, was commenced in the police court Saturday evening, Coroner Berryman presiding. Three witnesses were examined after which the hearing was adjourned until Tuesday evening, Oct. 25.

Recorder Baxter, K. C., and Col. R. J. Armstrong were present in the interests of the steamship people, of which Wm. Thomson & Co. are agents, and Amon A. Wilson, K. C., in the interests of Mrs. Watters.

Evran Davis, first officer of the steamship Manchester Commerce, was the first witness, and told of having heard of the accident which resulted in the death of the stevedore. He knew that Watters was acting as winchman. The gear for lifting, he said, had been arranged on coming in to port last Wednesday. It was in perfect condition at that time. When the accident occurred the steamer was in the dock. The weight being lifted was, on an average, about 1,500 pounds. The shackle which gave away was capable of bearing five tons. He considered that the breaking of the shackle was caused by the screw giving away as the result of vibration. Witness was aware that there was a possibility of the pin giving away from the lead block. He had made no special examination, however, of that particular lead block on the day of the accident. Witness produced a certificate dated Aug. 5, 1910, showing that the shackle in use on board the steamer was practically a new one, being only a little over two months old. If the shackle had been looked after and tightly screwed the accident would never have occurred. The drop from the deck where Watters had fallen was forty-eight feet in depth. After the accident no blood was to be seen on the winch or on the block.

In reply to Mr. Wilson, witness said that the lead block in question was about seven feet from the deck.

In reply to Mr. Baxter, witness said the winchman's duty was to leave up the deals. If the winchman saw anything out of order he would report to the stevedore, who would in turn report to the witness. No report regarding any defect in the shackle, witness said, had been made to him.

Richard J. Sowrey, boatswain, testified that he was on board the Manchester Commerce Friday afternoon between 5 and 6. He did not see the accident occur. It was the duty of the lamp trimmer to oil the shackle. Witness would not know whether the shackle was oiled properly. He did not know how this particular accident occurred. He attended to the arranging and screwing of the shackle when the steamer was coming into port.

John Winspear, ship's carpenter on board the steamship Manchester Commerce, testified that he knew absolutely nothing concerning the accident.

# RECORD HUNTING SEASON LOOKED FOR THIS YEAR

## Great Demand for Licenses Here, and Rush Has Only Begun--A Giant Moose in the Musquash Woods.

All indications point to a record number of hunting licenses being issued this year. A large number of parties are now in the woods, but the best of the season is yet to come. J. H. Noble, King square, issuer of game licenses, said yesterday afternoon that they had issued so far 335 of these necessary documents. This, he said, was a larger number than was issued for the corresponding period last year. Moose heads with a spread of 60 to 62 inches are not brought out of the New Brunswick woods every day, and the hunter who secures one of this size congratulates himself on having a notable trophy. From Musquash, however, comes a story of a moose with a spread larger than any ever found in the province. The trophy of the story is vouchered for by Game Warden Dean, and also by a veteran hunter of unimpeachable veracity. They declare that a great moose with a spread of six feet is haunting the woods near Musquash. Game Warden Dean caught a glimpse of the animal but did not shoot. The old hunter, although thunderstruck at the appearance of the beast, fired two shots but missed. He said afterwards that it was just as well he did, as he could never have got the animal out of the woods, and it would have been illegal to leave it there.

The moose seems to bear a charmed life for some American sportsmen who were in the woods reported that they also saw it and sent several bullets whistling in its direction without effect. It is expected that next week will see a large number of sportsmen in the woods near Musquash looking for this very animal.

# NEW TURN IN REID ASSAULT CASE

Hopewell Hill, Albert county, N. B., Oct. 16.—The recent case of assault against Gideon D. Reid, who was committed for trial by Police Magistrate Peck on a charge of throwing a stone through a window at L. V. McNulty of Albert, had resulted in a counter charge against McNulty, who was this afternoon arrested on a warrant charging him with perjury in connection with the case against Reid. The accused was taken before Justice John Keizer and admitted to bail to appear on Monday for examination.

McNulty was the complainant in the assault case and swore to recognizing Reid as the offender. The latter contends that he was in a store in the village, a considerable distance away, at the time of the alleged assault, and therefore takes action for false testimony.

# CANADA GETTING DESIRABLE CLASS

## Large Number of Wealthy and Experienced Farmers Are Taking Up Irrigated Lands in the Dominion.

That the tide of immigration is now flowing from the United States into Canada instead of vice versa as in former years, was the statement made by J. C. Sherk, of Montreal, manager of the C. P. R. lands department, who was in the city yesterday. Only a short time ago, he said a carload of American immigrants arrived in the west and bought up \$200,000 worth of western real estate. These settled mostly in Sedgewick, a non-irrigated district. Towards the latter part of the month two more carloads are looked for, and it is also expected that they will purchase between \$300,000 and \$400,000 worth of real estate. The Americans, he said, who are expert farmers and men of money, are a very desirable class of immigrants.

The C. P. R. are doing much, he said, in the way of building up the west. At their last meeting, held on the 5th inst., they voted \$8,500,000 to be spent in irrigation purposes exclusively. One of their most recent works of an extensive nature was the building of a dam at the south of Bassano, capable of raising the water in the Bow river 180 feet. This will afford irrigation for all the land of the eastern section in Alberta, from Bassano to Medicine Hat. The construction of this dam cost over \$1,000,000.

The irrigating of the western lands has proven very popular and has resulted in a vast influx of foreign settlers.

Mr. Sherk says that he intends going to Scotland the first of the year to arrange for the transportation of immigrants from that country. He was registered at the Dufferin.

Stavert in the presence of a number of the relative and immediate friends. The young couple were unattended.

The bride, who was given away by her brother, W. J. Quirk, was very prettily gowned in a semi-prince dress, tinted effect of blue blue, with Persian trimmings, sash of Dresden ribbon and wore a blue tulle hat. She was attended by her sister, Miss Emily, who wore a similar gown of ashes of roses with hat to match and carried a bouquet of pink carnations. The groom was supported by Lee Quirk.

After the ceremony the bridal party and immediate friends drove to the home of the bride's parents, where a pleasing repast was served, after which Mr. and Mrs. Ruland left on the C. P. R. to connect with the Calvin Austin on an extended tour. The bride and groom will reside in Sussex. The bride's going away dress was of blue broadcloth, with hat to match. # RATHER MR. MAYES WHO BACKED DOWN

## Another Misstatement Regarding the Dredging Case Corrected--Again, the Eloquent Figures.

(Evening Times, Saturday.)

The Standard asserts this morning that the statement of the Times-Star that Mr. Mayes' claim for \$5,000 was not disputed by the crown is incorrect, and that the government repudiated liability.

In reply to this it is only necessary to say that when the case opened Mr. Wallace, for the crown, offered to grant this claim if the others were withdrawn. This was before negotiations for settlement began.

Now what were the other claims? Five of them, for \$25,256; \$13,350; \$1,251; \$337 and \$1,247, making a total of \$41,641, were utterly abandoned by Mr. Mayes. Two others, one for \$5,640 and the other for \$10,500 or a total of \$16,140, were compromised for \$4,600.

Mr. Mayes also asked for interest on \$5,001, from August 22, 1908, and this also he abandoned.

That is to say, Mr. Mayes gets \$5,000, which was not disputed, and gets \$4,600 as settlement for \$51,781 which he claimed.

Who backed down? Certainly not the public works department.

# SACKVILLE GIRL WOUNDED BY STRAY BULLET

## Her Father, Standing Near Her, Had Narrow Escape from Second Shot of Careless Hunter.

Sackville, N. B., Oct. 17.—While standing outside her home last Thursday the young daughter of Clifford Thompson of Mount View, was struck by a bullet from the rifle of some unknown person and Mr. Thompson himself narrowly escaped serious injury from a second bullet. It is supposed that the shots were fired by a hunter in the woods.

Mr. Thompson was putting some potatoes into his cellar through a window and his daughter was standing beside him. One bullet struck the girl passing through the calf of one leg and cutting into the other. The other bullet struck behind the two people and was imbedded in the house. Both Mr. Thompson and his daughter had a very narrow escape from grave injuries.

Sackville was visited a few days ago by H. J. Keith, of Toronto, a representative of Charles D. Sheldon the man who was recently operating a "blind pool" in Montreal. Men who talked with Keith are of the opinion that he was entirely sincere in his statements and really believed Sheldon to be a man of unusual managerial ability and able and willing to do what he claimed. Mr. Keith said that Sheldon had several clients in Sackville and that enquiries had recently been received from other Sackville citizens.

Miss Hattie Sangster, professional nurse, who has been spending several weeks here with her parents, Dr. and Mrs. J. W. Sangster, left on Saturday for Boston, accompanied by her sister, Mrs. J. Elworth Fowler, who will visit friends in Boston and vicinity.

A son was born to Mr. and Mrs. Harry Donley on Saturday.

The promenade concert under the auspices of the Mount Allison Athletic Association last Friday night was very successful. The attendance was large and the proceeds amount to more than \$80. Among those who took part in the programme were Miss Helen Hughes, of Charlottetown, P. T. Meek, of Truro, E. E. Spicer of Perwick and Miss Lena Livingston, of the local vocal tessie in Mr. Allison Conservatory.

The marriage of Miss Bessie Cook of Amherst to William A. Dolson, Sackville, was solemnized at the Baptist parsonage here last Thursday evening. Rev. H. J. Keith officiated.

Sackville industries are booming as never before. The stove foundries of the Charles Fawcett Manufacturing Co., and The Enterprise, the harness and boot and shoe factories of the Standard Manufacturing Co., E. W. Way Limited and Edgar Aye the factory of the Sackville Paper Box Company Limited all are running full blast and are turning out manufactured goods by the carload. The foundries are especially busy many car shipments being made to the west. The question of starting one or more additional industries is being considered.

A concrete sidewalk is being laid on the south side of Bridge street by the residents of that locality. Frank Dolson has charge of the work.

The Maritime Real Estate Company have divided into lots the property recently bought by them from W. L. T. Weldon, of Chatham. A right of way has been secured through property of Wm. Carter and Willow street is to be extended about 150 yards. A new street running at right angles to Weldon street extension will be opened but so far no name has been suggested. Through the action of the real estate company some fifty lots will be made available for building purposes.

Mrs. Charles W. Fawcett entertained a large number of friends on Friday afternoon.

An epidemic of measles has broken out among the children of the town and the attendance at the schools has fallen off considerably.

# RUB THAT SORE SPOT

With Father Morrisey's Liniment and Promptly Stop the Ache.

Every household has its share of aches, pains, bruises, chilblains, burns and sores, which collect sore throats, muscular soreness and similar troubles. It is surely unwise to suffer with even the least of these, when there is a sure and speedy remedy.

Father Morrisey's, the famous priest-physician, was especially successful in devising a prescription for the prompt relief of these ailments. Many thousands of families keep a bottle of Father Morrisey's Liniment constantly in the house ready for any emergency.

Unlike most liniments, it has both a pleasant feeling and a clean, wholesome smell. It is a splendid rubbing liniment, as it makes the skin soft and smooth and does not blister. Better yet, it gets straight to the seat of the trouble, very little remaining on the skin.

In rheumatism and backache it is a helpful adjunct to Father Morrisey's "No. 7," and in cases of sore throat it is cold on the chest, it supplements his well known "No. 10."

The liniment should be always on hand against a case of need. 25c a bottle at your druggist's, or from Father Morrisey Medicine Co., Ltd., Chatham, N. B.

# JULIA WARD HOWE, FAMOUS WRITER AND PHILANTHROPIST, DEAD

Middleton, R. I., Oct. 17.—Mrs. Julia Ward Howe died at her summer home here today, aged 91.

The famous writer and philanthropist was born in New York on May 27, 1819, and was the daughter of Samuel and Julia Rush Ward. She was privately educated, and in 1843 married Dr. Samuel Gridley Howe, who died in 1876. With him she conducted the Boston Commonwealth, an anti-slavery paper, prior to the civil war.

After the slavery question was settled she became active in woman suffrage, prison reform and the cause of peace. She was a Unitarian preacher, lecturer and writer. Her Battle Hymn of the Republic is widely known and she was the author of many other works. Mrs. Howe visited St. John a few years ago, attending a meeting of the Association for the Advancement of Women. At that time she preached in the Unitarian church and was compelled to address an overflow meeting in the Institute, so great was the demand to hear. Maud Howe Elliott and Laura E. Richards are daughters of Mrs. Howe.

There were ten patients at the anti-tuberculosis clinic in the board of health rooms Thursday. Seven were children and three adults. Four of the children were new cases and two of them were referred to the hospital for special treatment. A. Chipman Smith & Co. sent another donation of emergency drugs and requisites for the dispensary.
