## The Daily Tribune.

J. L. STEWART, EDITOR.

WEDNESDAY EVENING, OCT. 5, 1878.

Our School System and the Government of Canada.

The *Gleaner* has an article on the school question this week, and its moderation is a hopeful sign of the times. It gives several strong reasons for the acceptance of certain terms of compromise that are said to have been offered to the Government of New Brunswick by Mr. Masson on behalf of the Bishop. These terms, with which the Catholics were to place their schools under the trustees until they could obtain better ones that the Christian Brothers and Sisters should be examined for houses in a particular way, that Catholic children should be permitted to go from any part of the city to their own schools, and that no books should be used which the Bishop objected. The objections to these terms, it gives members of religious orders facilities for procuring licenses that other people don't have, that it interferes with the grading of the schools, and that the Catholics refuse to accept it as a final settlement of their grievances. The question whether the bringing of the Catholic schools under the act by this compromise, thus removing the excuse for the non-payment of taxes would not be enough, beneficially, educationally, and politically, to outweigh the objections, is open for discussion. The principal objection consists of an idea—the idea conveyed by the word sectarianism—and the benefits are negligible and great. But these are not to be despised. They exercise a potent influence over men, often obstinately refusing to be overcome by great material considerations.

The *Gleaner*, as well as other separate school advocates, is unjust to its opponents, either by direct slander or by implication, in most of the arguments it advances in support of its doctrines. When it describes the advantages of having children trained religiously, and advocates separate schools for the purpose of having them so trained, it conveys the idea that the non-sectarian school men are opposed to the giving of religious instruction to youth, and that this instruction cannot be given without sectarian schools. This places the non-sectarians in a false position entirely, as they fully appreciate the benefits of religious training for their children. They only differ as to the time and place for imparting the instruction. Recognizing the impossibility of public schools being established for every denomination, and the injustice of excluding children of one denomination to another, they are in favor of the other, and feeling that it is absolutely necessary that a fair secular education should be afforded every child, they seek to establish schools for secular and moral instruction, pure and simple, leaving it to the parents and pastors of the children to give them the tenets of their respective faiths in their own way. Most Protestant denominations have Sunday Schools, Bible classes, etc., for this purpose, and we suppose there is nothing to prevent the Catholics establishing some system or other outside of their own schools, and teaching their children the doctrines of their church. As it is always the best, in the long run, not to misrepresent an opponent's position, the sectarian papers should make a note of what we have just stated and remember in the future to leave any policy, except the one of keeping clear of the matter, with respect to the school questions that agitate this Province. We understand why its members would like to see our troubles over—understand that they dread the use their enemies may make of our difficulties in Parliament—and haven't the slightest objection to any offer of mediation from them or their agents, in a purely friendly way—but we do not acknowledge any right on their part to speak officially in the matter, and believe that New Brunswick will promptly resent any attempt to exercise such a right. If the advocates of separate schools, or classic regulations for the benefit of the objects to those in force, really desire to attain their ends they will act on once and for ever cease appealing to Ottawa. New Brunswick, even though in favor of granting a request, might sternly refuse it in the face of a unconstitutional attempt to force her to do so. So long as our dissatisfied people continue running abroad for someone to come and force us into granting their desires, just so long will their demands be sure to be ignored; but if they frankly acknowledge the powers that be in New Brunswick, and confine their appeal to the people and the Legislature of New Brunswick, it is quite possible that modification in the Act or the regulations may, in time, be granted in accordance with the views of the more moderate of the sectarian party.

Take AYE'S CHERRY PECTORAL to stop your Coughs, Croup, and Bronchitis before it becomes a habit, and to make sure that you cannot stop.

## A State to Die In.

If this should meet the eye of any unfortunate who is weary of his life, and who is yet squeamish about suicide, we advise him to emigrate to Arkansas, where the facilities for being shot at the shortest notice are positively unequalled. We have before us a newspaper published in that delectable land, so positively homicidal in its contents that we think it should have been printed in red ink. People sometimes travel a great distance to see life (at Saratoga, for instance, or Newport), but Arkansas is the place to visit if one wishes to see death in grim and most miscellaneous variety. Existence cannot be dull where it is so extremely uncertain, and the apprehension of death would be a fool to succumb to his malady when a leaden pill will cure him of that and all other troubles within a quarter of an hour.

We finish our perusal of the *Greenwood* (Ark.) Standard, a newspaper about the size of a pocket-handkerchief, with a feeling of having been hit somewhere personally. Judge Meers, we see, recognizes the *Wednesday*, Mr. Ward, of Clarksville, was shot on Friday. An unfortunate man named Pigg was shot last week. Several people are spoken of as having been slightly wounded; but of such small matters we take no account in Johnson County all is said to have been terror and excitement. In Perryville they are organizing three military companies, "two white and one black." Occasionally, when a warrant is out for the arrest of some murderer, he also organizes a military company and declares war against the Sheriff and all his deputies. The Adjutant-General, Bishop, writes along letter to Gov. Baxter, explaining his Excellency that "there is a great difficulty in making arrests, and that the weariness we feel from the news columns of this little sheet and try to solve ourselves by reading the advertisements. We fall back upon the peaceful Dry Goods and Shoes and the innocent Dry Goods. It is quite restorative to note the cards of the Physicians and to be informed that they attend calls day and night." Occasionally, when a warrant is out for the arrest of some murderer, he also organizes a military company and declares war against the Sheriff and all his deputies. The Adjutant-General, Bishop, writes along letter to Gov. Baxter, explaining his Excellency that "there is a great difficulty in making arrests, and that the weariness we feel from the news columns of this little sheet and try to solve ourselves by reading the advertisements. Occasionally, when a warrant is out for the arrest of some murderer, he also organizes a military company and declares war against the Sheriff and all his deputies. The Adjutant-General, Bishop, writes along letter to Gov. Baxter, explaining his Excellency that "there is a great difficulty in making arrests, and that the weariness we feel from the news columns of this little sheet and try to solve ourselves by reading the advertisements. We fall back upon the peaceful Dry Goods and Shoes and the innocent Dry Goods. It is quite restorative to note the cards of the Physicians and to be informed that they attend calls day and night." Occasionally, when a warrant is out for the arrest of some murderer, he also organizes a military company and declares war against the Sheriff and all his deputies.
