Report of the Auditors to the Shareholders of The Merchants Bank of Canada.

In accordance with the provisions of sub-sections 19 and 20 of Section 56 of the Bank Act, we report to the shareholders as follows:—We have examined the above Balance Sheet with the Books of Account and other records at the Chief Office of the Bank and with the signed returns from the Branches and Agencies and have checked the cash and verified the securities of the Bank at the Chief Office against the entries in regard thereto in the books of the Bank at 30th April, 1919, and at a different time during the year and found them to agree with such entries. We also attended at some of the Branches during the year and checked the cash and verified the securities held at the dates of our attendances and found them to agree with the entries in regard thereto in the books of the Bank.

We have obtained all the information and explanations we have required. In our opinion, the transactions of the Bank which have come under our notice have been conducted in accordance with the provisions of the Bank Act and the regulations made thereunder, and the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs, according to the best of our information and the explanations given to us, and as shown by the books of the Bank.

The Easiest Way To Invest

Canada, following the example of other Allied countries, has made it possible for wage earners—men and women—to invest in safe securities without effort.

These securities are called War Savings Stamps.

The cost now \$4.04, but by compounding interest, the \$4.04 you invest now will be worth \$5.00 in 1924. There is no other security in which you can invest such a small amount that is as safe and that bears so high a rate of interest.

Or you can start with 25 cents, by buying a Thrift Stamp. When you have sixteen Thrift Stamps, you can exchange them for a War Savings Stamp.

You take no risks. The Government of Canada guarantees to pay you back your money—with interest—at any time during the five years, or to pay you in 1924 \$5.00 for every \$4.00 (and a fraction) you invest now.

TALKING IT OVER

With Lorna Moon

NOT PLAYING THE GAME

"Do you think that a woman has any right to sit down like a dead weight when she marries, and not do a thing to help? The pretty college girl looked her belief in my ability to settle the question in a word.

"Apropos of what?" I questioned with caution.

"Oh—I was thinking of Betty. I know that her husband can't really afford to give her a maid—not on his present salary. If Betty were not as strong as a horse, or if she had babies, there might be some excuse. I don't think that a girl should marry to make a drudge of herself, of course; but I do think that there is something wrong with a girl's view point when she thinks that marriage is the gateway to the lotus fields.

"And if you were in Betty's shoes, you would do without the maid?"

all your married-friends have maids you know."

"Yes, and NOT ONE of them can really afford it—Do you know that Betty's husband had a chance to become a shareholder in the business in which he works, but he simply didn't have a cent to pay for the stock? Betty is running his house just three rings higher up the social ladder than it should be. She lives on one scale and he works on another. I don't call that playing the game, do you?"

"No," I agreed heartily. "A girl isn't even being fair to herself when she does that. She may be gathering all the plums of leisure, while her husband stakes the tree; but she also makes herself an exile from her husband's heart, for there can be no real companionship between an idler and a worker. An indolent woman never kept a husband's love for very long."

U.S. SECRET SERVICE MEN UN-EARTH ACTIVITIES

WASHINGTON, June 6.—Information received in Washington to-day indicates that the strike in Winnipeg is being aided by American Bolshevik sympathizers.

United States secret service men, with the assistance of Canadian authorities have established the fact that Chicago Bolsheviks sent \$10,000 by messenger to leading agitators of the Winnipeg strike and that the money was distributed among the strike leaders. The names of the persons involved are not known.

Started At Seattle.

Investigation of the Winnipeg strike led to the belief that the movement is part of the movement which was originally staged at Seattle and that it is part of a larger international movement, which aims to abolish the American Federation of Labor and establish in its place a central soviet, or "one big union." This is to be part of a general revolutionary movement which would overturn the established governments in both Canada and the United States and establish a Bolshevik regime in the two countries.

Had the movement been successful it was aimed to endeavor to make the first move toward the capture of the American Federation of Labor by the radical element and the overturn of the rule of Samuel Gompers and all his lieutenants.

Frank Morrison, vice-president of the federation, over the long-distance phone at Atlantic City, where the meeting of the federation opened to-day, said that there no chance of any such movement.

American authorities are watching the developments at Winnipeg closely and are co-operating with the Canadian Government in keeping track of the activities of the radical element. Over a score of United States secret service men are reported to be in Canada now.

Reports received here to-day indicate the Winnipeg strike has been nailed the attitude of the return Canadian soldiers making its success impossible. Trade unionists are reported to be openly expressing their willingness to rattle out of the strike movement in the belief that the have been made dupes by the radical elements, leading it, whose purposes they did not understand.

Winnipeg June 9.—Delegations of press and commercial telegraphers visited the Canadian Press office and the Commercial Telegraph office to-day and asked information regarding the terms on which they

WHAT AN AVIATOR WE'D MAKE

HE'S THE SHORTEST HIGH HURDLER SEEN IN MANY A YEAR

LIKES HOCKEY BEST NEXT TO HIS OLD LOVE HURDLING

With the coming of the Intercollegiate meet, to be held in the Harvard Stadium tracks, May 21st, a good deal of interest centers around Carl Erdman, the Princeton hurdler.

Probably the most remarkable hurdler that has been seen on the track for a score of years, Erdman has disproved the theory that a hurdler must be a six footer, for he stands but 5 ft. 8 in. and weighs 145.

There is a peculiar thing about Carl's hurdling, for a man who can do

18.1-5 over the high sticks. He has never run the "100 yds." under 10.45. He attributes all of his success to "form." Erdman recovers very quickly after clearing the timber, which compensates for his lack of speed. There are two things a hurdler is supposed to have by all the laws of the game—one is height, the other speed and Erdman has neither.

Born 21 years ago, in Philadelphia, his parents moving to Princeton a short time later, Carl has spent most

of his time in the university city and when a youth began to emulate the different college athletic heroes. He attended Lawrenceville and it was while there that he took hurdling seriously.

Erdman is a senior and graduating this spring with an "A.B." degree. He likes hockey and earned the game under Holey Baker.

"What do you consider your best performance?" we asked.

"Why last year at the I. A. A. A. performance," we asked.

In June, when I hit the first hurdle, fell

to the track, recovered myself and beat out Smith of Cornell in 15.2-5 seconds. That's the best trick I ever pulled."

Erdman's record follows:

Winner Intercollegiate Championship 1918, 120 yd. hurdles; Time 15.2-5 sec.

Winner Intercollegiate Championship 1918, 120 yd. hurdles; Time 24.2-6.

Winner Meadowbrook Games 1918, 45 high hurdles; Time 6 sec. (World's record).

Winner Penn. 1918, 1019, 120 yd. hurdles; Time 15.4-5 sec.
