

Indigestion

It isn't always the stomach's fault that food is not digested. Torpid liver brings Constipation. Bile gets in the stomach. The kidneys become affected. The whole process of digestion is weakened. No wonder you feel so uncomfortable after eating.

Fruit-actives

or Fruit Liver Tablets

make digestion complete by making the liver strong and active. They cause more bile to be excreted, thus effectively curing Constipation. They tone up the stomach, regulate the kidneys, build up the whole system. Made from pure fruit juices, their medicinal action is intensified by a secret process of combining them.

In tablet form, 50 cents a box.

THE PET MOUSE.

It is made of cork, but really acts as though it were alive.
You can have a pet mouse if you want to, and even though he is only made of cork with the proper manipulation he will act as though he were really alive.

First carve a cork into the form of a mouse as well as you can. Then cut away the under part of the body so it will lie perfectly flat. Two ears are now added by means of cardboard and

a little glue, and the tail is formed by attaching a piece of cord in the place where it should be.

Blacken Mr. Mouse in the flame of a candle and then insert a tiny hook in the front part of his body, concealing it from view underneath his neck.

Next tie a piece of black thread about ten inches long to a convenient buttonhole. The end of the thread terminates in a loop.

Fix the loop in the hook, tightening the thread and put the mouse upon the back of your left hand.

If you move the hand back from the body the mouse, which does not move at all, seems to glide across the back of the hand, and at the moment it is about to fall, when it reaches the thumb, the right hand passed below arrives to catch it near the little finger, and from there by the same previous movement it appears to travel to the thumb.

When Women Jump.

Two things there are that women will jump at: a husband and a man. These things are such conclusions and timid little mice.

THE HAPPINESS OF HOME.

Very largely depends on the mother's disposition. If she is kind and bright, everyone is happy; but if she is nervous, irritable and cross, everything goes wrong. Bright, cheerful women usually use Ferrozene, the greatest health-maker known. By acting through the blood Ferrozene is able to reach all the organs that need assistance; it establishes regular and healthy action of all functions, builds up the general health, fortifies the system with a reserve of energy that defies disease. Don't put off—Ferrozene costs only 50c. at any drug store; get it to-day.

weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect

of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, and so increases the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

Thirty-one one-cent stamps to cover expense of mailing and customs will obtain a copy of Dr. Pierce's Common Sense Medical Advice, 1008 pages, in paper cover. Send 50 stamps if cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.

MR. SIFTON'S CAREER.

Sketch of the Life of a Man in the Public Eye.

The Hon. Clifford Sifton, Irish by descent, was born in the township of London, Ont., on March 10, 1861, the son of John W. Sifton, formerly speaker of the Manitoba Legislative Assembly, and his wife, Catharine Watkins. Educated at the high school of London, at the Boys' College, Dundas, and Victoria University, Cobourg, he graduated B. A. and Prince of Wales medalist in 1880, and was called to the Manitoba bar in 1882. Removing from Winnipeg to Brandon, where he commenced the practice of law, he became city solicitor and solicitor to the Western Judicial Board, and in 1886 was created Queen's counsel by Lord Aberdeen.

In 1888 he entered the Manitoba Legislative Assembly as member for North Brandon, and joined the Greenway administration on May 14, 1891, as Attorney-General and Minister of Education. During his tenure of office he codified the law relating to civil procedure in Manitoba and conducted the negotiations with the Dominion Government on the Manitoba school question. He was one of the representatives of the Province at the Ottawa Reform convention of June, 1893, being elected a vice-chairman, acted as Premier during Mr. Greenway's illness in 1895, and in June of the latter year introduced in the Legislature the resolution refusing to carry out the Dominion Government's order of council for the restoration of separate school privileges to the Catholics of Manitoba. In February, 1896, he introduced the resolutions protesting against the passage of the Manitoba Act, and was appointed a commissioner to meet in conference with the Dominion delegates to discuss the school question.

On November 17, 1896, Mr. Sifton retired from the Government and entered Sir Wilfrid Laurier's administration as Minister of the Interior and Superintendent General of Indian Affairs. In the same month he was returned for Brandon in the Liberal campaign on the vacation of the seat by Dalton McCarthy and in the autumn of 1897 personally inspected the various inlets of the Yukon region. On his return Mr. Sifton visited Washington and negotiated the arrangement made with the United States Government for the free passage of Canadian goods into the Yukon. He acted as agent of the British Government before the Alaska Boundary Tribunal in 1903 and throughout his official career has devoted special attention to increasing immigration to Canada. Mr. Sifton was re-elected member for Brandon in 1900 and again at the last Dominion elections. He is a vice-president of the Dominion Educational Association and a member of the Methodist Church. Mr. Sifton was married in August, 1884, to Elizabeth A. A. daughter of H. T. Burrows, of Ottawa. In politics he is a "life-long Liberal."

A Great Painter's Beginning.

Sir Thomas Lawrence was one of the great portrait painters in England. His parents were poor, his father being a country innkeeper. One day Lord Shaftesbury's father and mother stopped at the inn, having their young son, the future lord, with them. In conversation the innkeeper spoke of the genius of his boy in drawing and wished them to test it by a picture of their son. They assented, thinking to gratify a father's pride, but not looking for any evidence of superior talent. The boy came in modestly, with chalk and paper, and in a few minutes had drawn a picture of their son on which the parents looked with wonder. They recognized the genius and the promise of future greatness and befriended the young artist, giving him the help needed to develop his wonderful gift.
