

Do nothing after fullness.

I met a gentleman in Paris who lives in Montreal, Canada. He told me that you cured a friend of his. I called at your office in the early part of 1868, and commenced using your Renovating Resolvent and Pills, and bathed my limbs, that were drawn out of shape by Rheumatism, with your Ready Relief. The first application of Ready Relief stopped the pain and enabled me to sleep well. In the course of a month my appetite improved, and my blood became purer and better. This gave me hope. I continued to use Sarsaparillian Resolvent; with every bottle some new indication of improvement would follow, and twelve bottles, with the Pills and Relief, cured me. Not a sore or ulcer has appeared since. I have now two children—one over two years, and the other six months. They are healthy, have never been sick, and not the least vestige of the taint of disease has shown itself. So I am well convinced that the virus of the old uncured syphilitic disease was completely eradicated from my system, as well as the mercury from my bones, for I never feel the least pain, even when getting wet. I keep my system healthy and regular by taking two Radway's Pills twice or three times per week, and in the Spring and Fall take a bottle or two of the Sarsaparillian Resolvent. This is all the tax I am called on for doctor's bills. Your friend forever,

R—N R—CH.

Bronchitis, Consumption, Coughs, Diphtheria, and all Pulmonary Diseases Cured by Rad- way's Sarsaparillian Resolvent.

Few persons but are troubled, more or less, with difficulty of raising Phlegm, a thick humor or matter deposited from the blood, that obstructs the air-passages and glands of the Bronchi, etc. The accumulation of this matter leads to Ulceration, Tubercles, and Consumption, and the patient suffers great distress until it is removed. One teaspoonful of the Resolvent will loosen the Phlegm and enable the patient to expectorate with ease. Every person troubled with Cough, Bronchitis, Catarrh, Tightness of the Chest, Phlegm, Inflammation of the Lungs, Congestion, etc., should take a teaspoonful of the Sarsaparillian at once, and bathe the chest with Radway's Ready Relief. If the Cough is constant, take the Resolvent regularly—three or four times a day—or whenever a fit of spasmodic cough seizes you.

It secures a good appetite, makes sound and healthy flesh and fibre, gives strength to the weak and repairs the waste with healthy material. Let not the Consumptive neglect this warning, nor reject the hope held out. Exclusive direct remedies, that act only on the lungs, will never cure; they may smooth and soften the path to the grave, but never will they restore the patient to health.

See pages 60 and 61, "False and True."

DR. RADWAY:

DEAR SIR: About six months ago, my attention was called to your medicine by a friend in San Francisco wishing me to try it, and as I was about used up with many of the ails that humanity is subject to, and by most every one considered a victim of consumption, I was induced to do so. I have taken about two dozen bottles of Resolvent, together with the Relief and Pills. By the blessings of God and the use of your valuable medicine, and trying to adhere to a hygienic life, I am now very comfortably able to attend to some business, and gaining strength as fast as could be expected.

Respectfully,

M. P. MARTIN.

COLUMBIA, CAL., January 16, 1873.

BRONCHITIS,

OR

Clergyman's Sore Throat,

is cured with GREAT CERTAINTY with Radway's Resolvent. It seems to act by shifting the disease, as it were, to the surface, throwing out sometimes pimples, little boils.

Liquids replete more easily than solids.

Women whose blood is not evacuated by their menstrual flux, often vomit it up.

The flesh of a wild creature is easier to digest than that of a tame one.

They have fierce fevers who have sordes grown about their skin.
