

Shaving Single Handed in a Military Hospital

Only those who have been there can realize what the Gillette Safety Razor is doing for the wounded!

Clean shaving on the firing line, possible only with a Gillette, has saved endless trouble in dressing face wounds. In the hands of orderly or nurse it shortens by precious minutes the preparations for operating. Later, in the hands of the patients, it is a blessing indeed!

As soon as their strength begins to return, they get the Gillette into action, and fairly revel in the finishing touch which it gives to the welcome cleanliness of hospital life. For though he can use but one hand—and that one shaky—a man can shave himself safely and comfortably with a Gillette Safety Razor.

It may seem a little thing to you to send a Gillette to that lad you know Overseas, but to him it will mean so much! It will bring a touch of home comfort to his life on active service, and be even more appreciated if he gets "Blighty".

A PLEASANT JOB FOR SOME ONE.

THERE is an excellent position open on the salaried staff of Farm and Dairy for a couple of young men, with farm and business experience. The work will require training throughout one-half of Ontario—probably with an automobile—interviewing men and appointing agents for this valuable dairy paper; also picking up information for our Editorial Department.

Travelling expenses will be met, a salary paid and lines of names furnished. The territory to be covered will be mapped out and routed. Every assistance necessary will be given from this office. We want the men we employ in this work to be successful and qualify for a permanent position on Farm and Dairy staff. Write us fully, stating your experience, age, etc. Send a photo if possible. It will be returned.
