

Lump Jaw

The first remedy to cure Lump Jaw was Fleming's Lump Jaw Cure and it remains today the standard treatment, with years of success back of it. Don't experiment with substitutes or imitations. Use it, no matter how old or bad the case or what else you may have tried—your money back if Fleming's Lump Jaw Cure ever fails. Our fair plan of selling, together with exhaustive information on Lump Jaw and its treatment, is given in Fleming's Vest-Pocket Veterinary Adviser. Most complete veterinary book ever printed to be given away. Durable bound, indexed and illustrated. Write us for a free copy.

QUESTIONS AND ANSWERS.
Miscellaneous.

PROBABLY ECZEMA.

Have a Holstein bull, 10 months old. About a month ago the hair came off his head and neck until it is now more than half off. The animal appears to be doing well; gets skim milk, roots and hay.

CASSIUS.

Ans.—This appears to be eczema. Wash the parts thoroughly with warm soap suds, applied with a scrubbing brush, rub with cloths until dry, and apply a solution of corrosive sublimate, 30 grains to a quart of water. The trouble may be due to the presence of small lice. If so, the same treatment will be effective in destroying them.

QUITTING WORK.

I am a farm servant, and engaged with a farmer for 12 months. After the first two weeks, for some reason unknown to me, his wife made it very unpleasant for me in the house. I gave them two weeks' notice and left. Can I claim wages for the four weeks I worked for him?

LIBERAL.

Ontario.

Ans.—Your reason for leaving does not amount to a sufficient legal ground for the course you have taken, and we do not see that you are in a position to recover wages by legal proceedings. At the same time, it is just possible that the court would allow you something by way of further remuneration in respect of the work you have done—but certainly not as for four weeks' time.

TREATMENT OF OLD MEADOW.

Have a farm of one hundred acres tillable soil, most of which is light soil, part sandy; have some old meadows that are cutting scarcely any hay, and am not making enough manure to give them. Would you advise buying unleached hardwood ashes at 20 cents per bushel, or would you advise sowing to buckwheat and plowing down green crop? C. M. Quebec.

Ans.—On such land as you describe a dressing of hardwood ashes, at the rate of 30 to 40 bushels per acre, would certainly prove of benefit. I am not prepared to say that you would find such an application profitable under all circumstances. If, however, you will treat the land about as follows, I am confident you will get results both satisfactory and profitable:

Pasture the meadows next spring or early summer. In July, or the first days of August, plow the meadow with a shallow furrow, say 3 to 3 1/2 inches deep; then roll with a good heavy roller. If weather is very dry roll twice. After rolling go over two or three times with a good keen-cutting disk harrow. Best results may be achieved by disk harrowing twice lengthwise, rolling again and then harrowing crosswise. Keep field in good tillth all fall. Cultivate or harrow every week or ten days. In October, after the sod has rotted pretty well, rib up with double-mouldboard plow and leave till following spring. In the spring break down ridges by means of disk harrow or other cultivating implement, and sow to oats at the rate of two bushels per acre. Sow clover at the rate of 12 lbs. per acre, and timothy, 10 lbs. per acre. Apply unleached hardwood ashes, 30 to 40 bushels per acre, working in with last harrowing before seeding. A dressing of lime in addition would do good, say 10 bushels per acre, or gypsum or land plaster, 200 to 300 lbs. per acre, would help. After sowing grass seed, harrow with light smoothing harrow and roll. Do not forget to roll right after seeding, unless weather is very wet. Keep cattle off clover or seeds after grain is harvested, even though you should think there was feed going to waste.

J. H. GRISDALE.

TRADE TOPIC.

NEW MARLIN GUN CATALOGUE.—The "Gun Catalogue" of the Marlin Firearms Co., New Haven, Conn., containing 136 pages of live information relating to rifles, shotguns, ammunition, etc., with a beautifully lithographed cover, featuring "Quail Shooting in England," may be had for three stamp postage. More Strength

The World To-day Calls for Men of Strength, Men of Action.

Why do you drag along listlessly from day to day and week to week, brooding over the loss of your former strength and vigor? Get it back. You can do it. No man is so run down that he can't be built up. You can recover your old-time vim and courage.

There's strength in Electricity for such as you. It is a builder, an invigorator, a strength-giver. Its glowing energy fills your nerves and veins with the spirit of youth. Your over-worked organs respond immediately with new life and energy. It fills you with ambition, animation, and happiness.

That's the way you were intended to be, the way you ought to be, and the way you can be. Make your body into a storage battery by filling it every night with the gentle currents from the DR. SANDEN ELECTRIC HERCULEX, and the results will surprise you. The world will look rosy to you, and you'll have the strength and courage to tackle any task.

FREE UNTIL CURED

Call or write to me and I will at once arrange to let you have the Belt on trial, not to be paid for until cured. No deposit or advance payment. Send it back if it doesn't do the work. Liberal discount for cash, if you prefer to deal that way.

Electric Suspensory or other attachment free, and guaranteed for one year.

It is a quick and lasting cure for Weakness of any Organ of the body, for Nervousness, Rheumatism, Pains in the Back and Hips, Lumbago, Indigestion, Constipation, Kidney trouble, Loss of Memory, Poor Circulation, and all evidences of breakdown. It cures where everything else has failed.

SEND FOR MY FREE BOOK

If you cannot call at my office personally, write for my book. It is full of things every man ought to know, and gives full particulars. Sent free, sealed, by mail, in plain envelope. Write to-day.
