Busy Trenton

Trenton, May 6.—A convention of officials connected with the Electric Power Co will be held here tomorrow. We have not heard that the visitors are to be officially welcomed by the Mayor and President of Board of Trade.

It is quite probable that the Fire, Market and Police Committee, will be authorized, at the next meeting of the council to purchase a team of horses for use on the streets and for fire purposes.

The Weddell dredge "Trenton" has quinned work in the harbor. Mr. H. F. Whittier has purchased from Mr. S. Dench her fine residence on Marmora Street. Mr. and Mrs. Whittier will be a welcome addition to Marmora Street colony.

Prof. Drake has commenced getting his chorus workers into shape for the I.O.O.F. production of "Jephtha." A syndicate of Campbellbell men has bought thirty lots near the C.P.R. Divisional in East Trenton and are today looking over the ground with a view of letting contracts for the erection of fifty houses on the property.

The recent milk inspection resulted as follows:—Proportion of butter fat Ketcheson 31; Frauts 31; Meyers 34; T. White 42; W. R. White 33. The Board of Education met last evening in connection with the proposal to build a new High School. no action was taken as the report of the architect was not of hand.

Under the School Act, the Council can issue debentures covering the necessary expenditures for school accommodation and if this be refused the Board can demand that a by-law be submitted to the rate-payers, which if carried, makes it compulsory for the Council to provide the funds. It would be much better to spend \$50,000 for a new school than to throw away \$15,000 on alterations to the old one.

Trenton, May 7.—Mr. C. R. Stork has purchased the fine new residence on Cedar Street, recently built and occupied by F. E. Crouter.

Mr. J. F. Kern, of the Standard Bank, who has been on sick leave for a few weeks has returned to town.

Mr. C. V. Wilkins, of Queen's University, is spending the holidays at home with his parents.

Bell Telephone Linemen are placing a line of poles on Cedar Street today. We also hear that the long promised sidewalk on the East side of this street will soon be laid.

Telephone poles and electric poles, as well as above, before many years pass, be buried underground. They are a dreaded eyesore in Trenton.

Messrs. Mulhern and Martin, of the C.P.R. Freight Department, Toronto, were in town today.

A Mr. Clark, of Trinity College, Toronto, addressed the scholars of the High School on Tuesday last.

The clean-up movement is taking hold. We drove over the town yesterday and noticed that many citizens had made a good start. It is expected that the town will provide for the gathering up of waste paper, if Councilor Loomis can get his plan taken up.

Mr. H. F. Whittier was a Toronto visitor yesterday. Morris Stewart, the man accused of having fired the Stratheona Hotel was acquitted at the assize court, held in Belleville, yesterday.

A couple of horsemen are making a race course of the main streets this afternoon. They certainly know little about the art of horse-back riding.

Trenton, May 8th.—The Toronto Globe reports in today's issue that D. H. Coleman, school teacher late of Milverton and well known here, left Milverton on Friday last and has not since been heard of.

Col. the Hon. Sam. had a strenuous day trying to get his militia estimates through. The debate ended with no-

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were sold in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism, and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to

Cure Common Ills

was a decided pleasure to listen to the well balanced argument put forward in behalf of the boys and girls, who are to an alarming extent, allowed to shift for themselves in this, and in many, other towns, similar to this. Mr. Foster pointed out the responsibility that rested upon every man, an dwoman, regarding the welfare of the community at large, and he asked: "Where is your library, your reading room, your gymnasium, park and playground?"

There is every reason for parents and citizens generally to ponder over Mr. Foster's indictment, and to, as soon as possible, see to it that insofar as educational facilities are concerned, every Trenton child will in future, have an equal chance.

In the Daughters of Rebekah, who were also in attendance, the I.O.O.F. in this town, have a wonderful adjunct for good, and we hope and trust that they will at some near date, take into consideration of their organization the question of making some effort to do something in a general way to improve social conditions in Trenton.

If the Daughters of Rebekah will take the lead in a good cause, the men of the subordinate lodge will not lag behind. There are many things that can be done, but we believe that an I.O.O.F. Supervised Playgrounds for the little tots, would be greatly appreciated, and would be followed by the erection of a playground for the older children to some extent. The turnout yesterday was a splendid one, and attracted many people to the main streets.

We are pleased to notice the great improvement in the quality of the air. There is less noise but more music, in our opinion, than there was formerly, and we think it an improvement. The new uniforms are soon to be handed out.

Mr. Marshall, the new city engineer, will arrive in town today to commence his duties.

The village of Onemee is a progressive place. We have a letter from one of the citizens here, who states that they have used road oil with great success in the last three years. The first year they put on a cheap oil costing 8 cents a gallon, which had an unpleasant smell, but for the last two years they have used No. 2 Asphaltum Road Oil, costing 12 cents per gallon, which has sufficed for the oiling of all the streets in the corporation, put on with an ordinary watering cart. One oiling a year is sufficient. We have not required to put any on this year, as there is no need of it. The streets from last year's asphaltum road oil is odorless. Perhaps the new engineer can give the councillors some further information regarding this mode of keeping down the dust.

Trenton, May 12th.—Mr. Powers, physical instructor of the Belleville Y.M.C.A. was in town yesterday, making arrangements with the St. George's club, for the bringing on of an entertainment by the gymnastic classes.

A C.P.R. engineer at present on the Toronto-Havelock run, was in town today, looking after some real estate. He told us that a number of men will be ordered here almost immediately, and that they will be "The successful rail road men, east and west, they will have to live here. It is not intended that crews will only run either east or west, as is the custom now between Toronto and Havelock, and between Havelock and St. Catharines.

A Railwayman's Y.M.C.A. is one of the things we have heard whisperings about recently. It seems to be probable that the railway officials will soon realize that something will be necessary to enable their men to get healthful recreation. Public baths and cheap refreshments, we are told is part of the program.

The Gilmore Door Company property, known as Banker Hill, may in short time change ownership. The Gilmore Door Co. property north of the C.P.R. bridge, and fronting on the river, may also soon be sold.

The Daughters of Rebekah held a most successful ball social last evening, in their handsome lodge rooms on Front Street.

Mr. Sam Sisk of Millbridge is in town today.

Mr. Donald Stevenson returns to Los Angeles tomorrow. He may return during the summer months for an extended visit.

The A.Y.P.A. Society of St. Paul's church Brighton has issued invitations for a dance to be held shortly.

Mr. Geo. A. White left today for a visit to the Old Country. She sails on the "Caronia," from New York.

Mr. H. McGorman of the Molsons Bank, Port Arthur, is in town for day or so, before proceeding to his new appointment.

Every boy and girl born in Trenton is entitled to demand from the State that he or she shall have his and her chance; so spoke Rev. E. F. Foster, when during the I.O.O.F. at St. Andrew's church yesterday. The significance of the Rev'd gentleman's remarks, if it is to be hoped, was not lost on the men who were present. It

thing doing. As Mr. Pardee stated, the \$14,000,000 proposed to be expended in this department, is much more needed for the development of the country than for the perpetuation of militarism.

The electric hunches given by the management of the Electric Power Company, in the handsome office building occupied by the Trenton unit, was a great success, and was greatly enjoyed by all who were fortunate enough to be invited. Detailed account will appear in another column of this paper. Among the guests from Trenton, we noticed Mayor Kidd, President Cuff, of the Board of Trade, Mr. Robert Weddell and Messrs. E. V. Hiley and H. A. Thomson.

The Standard Bank is opening a branch office in Windsor, Ont, which is to be in charge of Mr. E. V. Hiley, the Bank's local manager.

The members of Trenton Lodge No. 113, I.O.O.F., will attend Divineservice at St. Andrew's Presbyterian Church on Sunday afternoon next. Members will assemble at the lodge room at 2 p.m.

Mr. W. Murdoff, representing Plant & Co., of Boston, leaves tomorrow on his regular spring business trip to the Pacific coast.

We regret to have to report the serious illness of Dr. McLean.

A large lake freighter, the "Henry E. Packard," of Cobourg is in port today receiving repairs to her engine.

We are having a strenuous time these days, keeping clear of the charming young ladies from Belleville learning freestyle and the drop on most of the other fellows, however, by pleading that a fellow with six children ought to be exempt from all unnecessary expenses. We hope every man who has not got an excuse of this nature gets soaked.

Mr. J. W. Johnson, M.P.P. of Belleville, will address the members of the Canadian Club this evening.

Trenton, May 9.—A newspaper paragraph tells how a man in Collingwood secured a verdict of \$93.97 against the water and light commission of that town for the damage done to some shade trees by the agents of the hydro-commission. The paragraph adds that according to the law as interpreted by the courts, no lawyer, even when backed by the authority of the municipal council, has a right to cut down or mutilate any shade trees without the consent of the owner of the property in front of which the trees are standing. It is well that this should be kept in mind. One can never tell when such information may prove useful.

We have heard with great surprise this morning, that it is the intention of the council to attempt to police the town with two men. Have the citizens of East Trenton no rights whatever? Even when we had three men on the force, it was a race occasion when any one of them succeeded in getting across the bridge. We are supposed to pay taxes to ensure police protection of our property, and it seems to be a most absurd proposition to reduce the number of police. Just when we are congratulating ourselves on a population increase of nearly six hundred during the year. Rather let the council increase the force to four men, and give the whole city a fair proportion of protection, than attempt an utter impossibility, such as we have heard proposed.

The meeting of the Canadian Club last evening was the last of the series, until the coming fall. When looking over the last three years, we were struck with the absence of many prominent citizens who should have been present. To Mr. Hiley, much of the success of the Club is due, and it should be the desire of every man in Trenton who has any wish to broaden his outlook, to at least turn out to the meetings, and encourage those who devote their time and energy to making them a success. Mr. Hiley's removal from Trenton was publicly announced, and he was the subject of many complimentary and eulogistic remarks. Rev. Mr. Wilkins moved a hearty vote of thanks to Mr. Hiley for his untiring efforts in connection with the Canadian Club, which was seconded by Mr. A. E. Cuff, the president of the Board of Trade. Mr. J. W. Johnson, M.P.P., who addressed the meeting at the conclusion of Mr. Studholme's Tax Reform speech, also spoke highly of Mr. Hiley. President Whyte also spoke feelingly regarding Mr. Hiley's removal, and stated that his loss would be keenly felt in business, social and musical circles.

Miss Kirkpatrick, one of our popular High School teachers, has resigned, and will rest for some time at her home in Detroit.

Chancellor Boyd, in the Westcott-Webb trial, refused to allow a female witness to be tortured by the opposing counsel according to a report in today's World.

The Tweed Advocate seems to be pessimistic about the cheese outlook. The Editor writes thus—"But the future of the cheese trade is not so bright as it appears at the moment, although we understand parties on the other side are ready to take our April orders at a price. If that is so, it might be well to coax the trade on the other side in order to bring on the demand for the later make."

We notice also that at Madoc recently 400 to 500 boxes of white cheese sold for 11-11-16.

The Belleville Creamery is doing a steadily increasing business with the farmers throughout the district. During April the butter output of the factory amounted to 30,490 lbs.
