

### TAKING WORDS FOR THINGS

though it in some degree concerns all been called the inventor of the game of staff of teachers as last term. names in general, yet more particularly whist, but this is certainly a mistake, affects those of substances. To this though there can be no doubt that it was abuse, those men are most subject, who indebted to him for being first treated of, a severe illness. firm belief of the perfection of any re- England about 1730, when it was particbred up in the peripatetic philosophy, who | Chambers' Book of Days. does not think the ten names under which are ranked the te i predicaments, to be exactly conformable to the nature of things? Who is there of that school that is not persuaded that substantial forms, vegetative souls, abhorrence of a vacuum, und their masters and syster

intentional species, &c., are something These words men have learned from their very entrance upon knowledge. are conformable by nature, and the re- last week in Mrs. Wm. Mersereau's camp, presentations of something that really at Lake Utopia. exists. The Platonists have their soul of the world, and the Epicureans their en deavour towards motions in their atoms, terms that others understand not. But yet this gibberish, which in the weakness of the human understanding serves so McArdle, G. McCallum and Bessie Frauley. well to palliate men's ignorance and cover their errors, comes by familiar use amongst those of the same tribe, to seem the most important part of language, and of all other, the terms the most significant : and should aërial and ethereal vehicles come once, by the prevalency of that doctrine, to be generally received any. Me where, no doubt those terms would make impressions on men's minds, so as to Mrs. Wm. Seely. establish them in the persuasion of the reality of such things, as much as peripatetic forms and intentional species have heretofore done.

How much names taken from things are apt to mislead the understanding, the attentive reading of philosophical writers would abundantly discover, and that, per haps, in words little suspected of any such misuse. I shall instance in one only, and guest of relatives here. that a familiar one. How many intricate disputes have there been about matter, as if there were some such thing really in day last. nature, distinct from body; as it is ev dent, the word matter stands for an idea distinct from the idea of body? For if the ideas these two terms stood for were pre cisely the same, they might indifferently in all places be put one for another But we see, that though it be proper say there is one matter of all bodies, one cannot say, there is one body of all matters. We familiarly say, one body is pigger than another; but it sounds harsh (and, I think, is never used) to say, one York, spent last week here, guests of Mrs. matter is bigger than another. Whence comes this then? viz., from hence, tha though matter and body be not really there is the other: vet matter and body stand for two different conceptions, whereextended figured substonce, whereof matter is but a partial and more confused concention: it seeming to me to be used for the substance and solidity of body, without taking in its extension and figure and therefore it is that speaking of matter. we speak of it always as one, because in truth, it expressly contains nothing but the idea of a solid substance. which is everywhere the same, everywhere uniform. This being our idea o matter, we no more conceive, or speak of different matters in the world than we do here last week bidding his family and of different solidities; though we both friends good bye. While here a number conceive and speak of different bodies. because extension and figure are capable of variation. But since solidity cannot McLaughlin, who has been with the exist without extension and figure, the taking matter to be the name of some. and was admitted to the bar last year, thing really existing under that precision, carries with him the best wishes of a host has no doubt produced those obscure and unintelligible discourses and disputes, which have filled the heads and books o philosophers concerning materia prima, which imperfection or abuse, how far i may concern a great many other genera terms I leave to be considered. This I think, I may at least say, that we should have a great many fewer disputes in the Milbury) received, for the first time since world, if words were taken for what they her marriage, on Wednesday and Thursare, the sighs of our ideas only, and not day of last week at her home here. She for things themselves. For when we was assisted in receiving by Mrs. A. C. argue about matter, or any the like term, Kennedy, Mrs. T. R.
