Tammany Hall.

Kingr County has been said to be by people in other parts of the province, the most corrupt county in Nova Scotta. Whether that was true of the past or not, we know it does not apply in toto now as the Conservative party in the last contest was pledged to and faithfully carried out a pure election. The Conservative candidates were beaten by a large majority but the party has not suffered by this defeat as the right and manful advocacy of pure politics of that party has won the esteem and will have the future support or many independent thinking Liberals. Bribery and corruption must go before the avakening intelligence of the people. We see hopeful signs that the people are awakening from their lethargy and bid fair to overthrow political machinery of every sind.

Concerning the defeat of the corrupt of the contract of Tammany Hall of T

"The defeat of Tammany Hall of Carpets "The defeat of Tammany Hall of New York should give encouragement to the friends of honest government everywhere. It is conclusive proof that a corrupt organization, no matter how weil organized, or how liberally supplied with money, can be beaten, if only the people go resolutely to work to accomplish its defeat. Tammany Hall in nearly every respect resembles Canadian gritism, having no principles, and existing wholly for the spoils of office. It is in tact nothing but an Organized Appetite, and stands ready to sell anything it has to dispose of—offices, contracts or anything else, for money with which to purchase votes to keep itself in power. But it has been beaten and beaten solely by the force of public opinion

Board of Health Bulletin

KENTVILLE, NOV. 7th, 5-30 P. M.

The following detailed statement regarding small pox cases is presented with the consent of and upon information supplied by the physicians in attendance, for the purpose of correcting false rumors within and without the course.

The King's Birthday.

To-morrow is the birthday of King Edward, and throughout the British Empire loyal subjects will give him reverance. The same loyal support that was given to Queen Victoria will be given to our present King, and he deserves his full share of public honor.

To-morrow the day in town is to be celebrated by a horse show in the afternoon and Band Concert and fireworks in the evening. All indications lead us to believe that a large number of people will be in town, and that those who come will see one of the best shows of horse flesh ever assembled in the County. The prizes offered are handsome ones, and the competition is open to anyone who may bring a good horse to town that day. Good prizes are also given for cattle, and prizes are also given for cattle, and prizes are also given for cattle, and prizes offered. The cattle, and prizes are also given for cattle, and prizes offered are handsome ones, and the competition is open to anyone who may bring a good horse to town that day. Good prizes are also given for cattle, and the consent of and upon information supplied by the paysacians in the attendance, for the purpose of correcting falsa rumors within and without attendance, for the purpose of correcting falsa rumors within and without the town.

There are seven houses only under quarantine, and a Hospital at the outer, out of the business only under quarantine and the some, and stance away, are all well, and only quarantine donger for safety. The Porter family living on the hill south of the business centre and some distance away, are all well, and only quarantine longer for safety. The Porter family living in the same nelghborhood, are all well, and only quarantine longer for safety. The Porter family living in the same helghborhood, are all well, and only quarantine done is rapidly recovering. The Tully family living away at the eastern border on the hill opposite the cemetry are all well, and further quarantine of safety. The Porter family living in the same helghborhood, are all well, and

Our readers will see by the Bulletin we publish that now no danger from smallpox exists here.
Every house where danger exists
ise quarantined and carefully guarded. Most of the houses quarantined contain no one sick with the
disease, merely quarantined for
publie safety, as the innates have
either recovered entirely, or boring
in perfect health were quarentined
because they formerly came in context with some one who had the
smallpox.

The statements in the Board of
Health Balletin are true in every
particular and any reports our
readers may have heard as to furthere danger or other cases are false
and misleading to the public.

GORRUPT GOVERNMENT

MUST CEASE

Within the last six years party government in Cansda has almost become
synonomous with corruption. The
