On Thursday last, some one registered the name of A. deW. Foster, M. P., at the Queen Hotel, Halifax, and many people thought our member was not attending to his legislative duties at Ottawa. Mr. Foster, however, was not at Halifax, but was in his seat in the House of Commons on that day and addressed the House on the Fruit Marks Bill, in the interest of the fruit growers of the Valley and elsewhere. Mr. Foster's interests are the interests of his constituents, and no member has been more faithful in his attendance at his duties at Ottawa.

A FURTHER APPEAL

We are again under the necessity of urging upon our subscribers and patrons who are owing us to send in their remittance at as early a date as possible. We have very heavy obligations now due and we cannot meet them with money due us remaining in other people's pockets. Let all our readers to whom this appeal applies, call at our office and pay the amount due or send same by post office order or postal note. Do not pay all other bills first and leave the publisher of the paper you are reading every week to struggle along and borrow money to pay for the white paper upon which the news reaches you.

We anticipate a prompt and cheerful response from many. Do not neglect this if you are owing us.

Serious Strike at Halifax

The tramway strike which began at Halifax Friday last assumed a very serious aspect before the day was over. Eight men were locked up at the police station and two strike breakers there, for protection, after street scenes such as never before were witnessed in Halifax, was the way the slate stood at midnight of the first day's strike. Late in the afternoon the strike-breakers and strike sympathizers came into collision; when motormen were assaulted, car windows smashed, and firearms and pick handles flourished, and windows of the car barns and tramway offices smashed and the operation of cars stopped.

One notable feature was the fact that in Friday's disturbance the strikers themselves had no part. Their hands were free from it. The trouble was directly caused altogether because of an accident from a car manned by a strike-breaker and the inexcusable conduct of a host of strike sympathizers and a vast concourse of boys, while to some extent the temporary inability of the police to meet the emergency was responsible for the continuation of the unfortunate occurrences. Indirectly the cause of the trouble was the importation of professional strike-breakers from Montreal.

Monday's Herald reports that there is no rift in the cloud of the Tramway strike trouble. The company have declined an offer from the men to go back to work on condition that there be no discrimination and that the wage question be arbitrated upon. The company reply that they are ready to receive applications from men competent as motormen and conductors, and that priority would be given to old employees, while the Montreal scale of wages would be paid which, it appears, is from 1/2 to 2 cents higher than the present Halifax rate.

Liberals are Turning

"I have received hundreds of letters from Liberals in various parts of the country, who say they are disgusted with the conduct of the Opposition and will work and vote for Conservative party next time." — Rt. Hon. R. L. Borden in the House of Commons, May 6, 1913.

Millinery Notes

The Mid-Summer Millinery Opening on Thursday, May 15th, drew many to the popular parlors of F. J. McCarthy to inspect the bewildering array of lovely summer millinery on display. The latest decrees in dame fashion from the Paris millinery world were much in evidence.

Flower garnitures play an important part in Summer millinery, small and round bunches of divers-colored miniature flowers are spread around the crown or made into garlands or stiff mounts. On the other hand, there are the large and almost gigantic roses in blue, or green satin or silk. Flowers of the fields in fancy colorings are also good; the lily of the valley in red and emerald, corn flowers in white and gold; the leaves are made of violet and green satin. Most of these large flowers are mounted in stiff piquets or in trails, the ends of which fall over the brim at the back.

Malines tulle is the very material used on Summer hats, combined with Chantilly or Alencorn lace, they make very elegant and dainty hats. All colors are worn, more or less. The brightest colors are the richest. Red, green and blue are the modern tones. Yellow and purple are no less fashionable.
