This means disaster and death when applied to a fast express train. It is equally serious when it refers to people whose blood is disordered and who consequently have pimples and sores, bad stomachs, deranged kidneys, weak nerves and that tired feeling. One Price

Is a Guarantee

We have been too long in business, too long manufacturing Clothing for men and boys. Smocks, Shirts, Overalls and working men's Pants, to put prices upon goods that we can cut our competitors undercut.

We make our Clothing the best we know how, and out of the best we can buy. We fix the lowest and fairest price possible, and know no store can meet it—then we stick to it.

Otherwise how would you know when to stop dickering, and how would you know that you got the lowest price after all? What would you think of the goods, anyway—goods that are not good enough to have a decent, respectable, fixed value.

We stand as squarely by our Goods as by our prices, and say to you, bring them back if not as represented. We won't haggle and dicker then, any more than we did in the selling.
