From the Eeamington Post.

Mr Joseph Robson, whose home is on
the first concession of Meresa township,
about a mile from Leamington is known
to almost every resident in this section.
For years past, Mr Robson has been a
victim of paralysis in its worst form, and
his care was regarded as hopeless not only
by himself and his friends but by the
doctors who had attended him.

To one who knew Mr Robson's pitiable

To one who knew Mr Robson's pitiable ition as we did, it was with no smal degree of surprise and pleasure that we recently saw him drive through town sitrecently saw nim drive through town at-ting quite erect on a cross board in a lumber wagon, and controlling a lively pair of horses. Hailing him we asked what miracle had brought about this changed condition, and asked if he had any objection to the multication of the objection to the publication of the facts connected with his case. Replying he said he would indeed be a mean man if he refused to let the public know how his wonderful recovery had been brought about. Mr Robson then told the story of his illness and recovery about as fol-

of his illness and recovery about as 10 lows:—

"About ten years ago, while living in the state of Ohio, I was taken down with an attack of typhoid fever, and for three months hung between life suiding. Ready the state of the I am now able to walk a considerable distance, and my nervous system seems fully restored. There is not the slightest doubt that these results are entirely due to the use of Dr Williams' Pink Pills and I am confident that had I been able to procure this wonderful remedy when I was first taken with the disease, I would never have been where I was. The absolute truthfulness of the facts as I have given them to you can be verified by hundreds of friends and neighbors, or by any member of my own family."

As to much of the evidence contained

Mr Smith, "have a remarkable sale, which seems due to their remarkable efficacy in curing diseases arising from an impoverished condition of the blood, or an impairment of the nervous system such as rheumatism, neuralgia, partial paralysis, locomoter ataxia, St. Vitus dance, nervous headache, nervous prostration, and the tired feeling arising therefrom, the after effects of la grippe, influenza and severe colds, diseases depending on humors in the blood, such as "#" that our officials shall be sober men?"

"Our laws will be no better than the men who make them. Spend a few days at Harrisburg, or Albany, or Washington, and you will find out why, upon these subjects, it is impossible to get righteous or the subjects o
