WIPED OUT IN SHORT TIME

WASHINGTON, Aug 16.—(United Press.)—Federal Prohibition Commissioner Haynes today predicted that bootlegging will be wiped out throughout the United States within a "very short period." "The bootleggers will be in jails," he said to the United Press.

Haynes isn't worried, he emphasized, at the activity of smugglers bringing liquor across the border from Canada. Neither does he believe the smugglers trying to land liquor at night along the Atlantic Coast, are successful in great measure.

"Picturesque stories can and are being written by the activities of what the reporters call 'run runners', he said. "But the truth is that prohibition now is pretty tight throughout the United States, considering that enforcing the Volstead Law involves helping the American people put across the most gigantic moral reform ever attempted.

"Prohibition thus far has been wonderfully successful. No one can deny this statement, and in making it I am perfectly aware that it is sometimes not difficult to buy what passes for liquor in violation of the law. Nevertheless those who believe in and are helping to enforce the prohibition laws are justified in feeling the glow of satisfaction that comes to be more and more inspiring as time passes.

"The enforcement of prohibition depends upon educating some sections of the United States up to American ideals. The great central west is a unit behind prohibition. In some cities, however, that element of the population which is of foreign blood is not squarely behind the law. This was to be expected. These elements are trying to foreignize America. This must be stopped if we are to have vigorous law enforcement. We must Americanize these foreign elements."—Ex.

What One of the Best Known Travelers in Canada Says.

"Now I am going to give you an unsolicited testimonial as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill a day in my life. One day last fall after a hard day's tramp in the slush of Montreal, I developed a severe pain in my legs and of course like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says: "I will rub them with some liniment I have." "Go ahead," I said, just to humor her. "Well, in she comes with a bottle of Minard's Liniment and gets busy. Believe me the pain disappeared a few minutes after, and you can tell the world I said so." (Signed) FRANK E. JOHNS, Montreal.

BIRDS SHOULD BE PROTECTED

Their Worth Becoming More Recognized By Farmers.

It may appear startling, but it is a fact that if all the insect pests ravaging our crops could be suppressed, and all the plant and tree diseases eradicated, and the increased revenue derived by the country thereby could be turned into the Dominion Treasury, there would need be no question of taxation. This idea is largely substantiated by the fact set forth by the Entomologist of the Dominion Department of Agriculture that a conservative estimate of the annual loss in Canada to field, orchard and garden crops due to destructive insects is upwards of \$200,000,000. As our authority says: "To this huge devastation must be added the enormous annual destruction caused by forest insects, etc." Upon this statement the entomologist founds a well-sustained argument in favor of the protection of the insectivorous birds, such as the prairie horned-lark, the robin, the somewhat despised crow, the red-breasted Nuthatch, the western tanager, the myrtle warbler, the chickadee, grouse, gulls, and many other kinds.

In the state of Iowa it has been estimated that tree sparrows annually devour something like 895 tons of weed seeds! Speaking of the robin, an investigator in Toronto found that a single bird kept in confinement ate 165 cutworms in one day. Another authority states that a brood of prairie horned-larks consumed 400 cut worms in one day. This same authority namely Mr. Norman Cridde, Dominion Entomologist in Manitoba, declares that six crows are capable of consuming three bushels of grasshoppers in one season. It is recorded that in certain places in Manitoba areas of growing grain have been saved from destruction by the pestilent grasshoppers owing to the presence of large flocks of gulls. In light of these facts it is gratifying to be informed by the Dominion Entomologist, Mr. Arthur Gibson, to wit, that the importance of protecting our useful birds is becoming more and more recognized by farmers and fruit growers.

FOREST FIRES BURN THE FUTURE

Every good citizen should know what forests mean to Canada, to his province, and to his very home; and that every fire that burns in the forests is a detriment to the progress of civilization. Every boy and girl should have instilled into their minds the untold damage that may result from carelessness with fire in the woods. In destroying the forests we are not only damaging the present, but are literally burning up the future.

Blood and Nerves

To Purify the Blood, To Strengthen the Nerve Redmac is Guaranteed

If your blood is thick and impure you will soon know it. Your face becomes covered with pimples and blotches, your back covered with spots. If your nerves are shattered you are nervous, irritable, easily annoyed, and will eventually become run down and the whole nervous system a wreck. Redmac, the most wonderful of all Tonics made from Herbs, Roots and Barks, will fix you up in a short time. It is the latest and most wonderful Tonic ever offered to the Public. The nerves are made strong and healthy. The Blood purified and made pure. Sold by one druggist in every Town. For sale in Wolfville by Rands Drug Store.

A NECESSITY OF BUSINESS.

The absolute necessity for large departmental stores to use big space in the papers is one of the important factors in the newsprint market.

For a time some of the larger stores had thought they could reduce expenses by cutting down their regular daily space. When they did they found that sales also had a knack of falling off and without exception they were forced back to the big space policy. These days the house wife is looking for bargains and is doing her shopping where she finds sales well advertised.—Financial Times.

EYE OPENERS

A man who was fairly old got married and one of his friends who was surprised at the fact, said to him, "Why how does it happen that you are taking a wife at this late date?" "Oh," he replied, "I thought it would be a nice thing for me to have someone standing by me to close my eyes when I pass out, so I took to myself a wife." "My dear man," replied his friend, "you have made a great mistake. I married two women and they both opened my eyes."

The breakfast food barons have been at it quite a while, but to our way of thinking they haven't produced anything to take the place of ham and eggs.

Minard's Liniment used by Physicians

RUSSIA IN CANADA

That the Soviet has been re-organized in Canada and the United States and is actually stronger and more aggressive, though less heard of it in the public press is the statement of a Toronto contemporary, which says further:

This is explained by Article IV., Section I. of the Constitution of the Communist Party of Canada, which proves that "it is an underground, illegal organization. It is highly centralized, with a convention as its supreme body and a central executive committee acting as such between conventions."

It has been re-organized in Canada on instructions of the Third Internationale, Moscow, working under instructions from Berlin through New York. It has laid down a program of "mass action in Canada as a vital form of proletarian activity leading to armed insurrection, and civil war, as the decisive, final form of mass action for the destruction of the capitalists; proletarian dictatorship in the form of Soviet power as a lever of the Communist Reconstruction of society." It is to-day strongest in the districts between Toronto and London. The aim at present is to promote as much unemployment as possible. It is creating the impression in the Unions that there will be great distress this winter, that workers will be hungry and that therefore they will riot. Magnetic speakers are being brought out. Agents have been visiting various labor unions and listening to the speakers.

Lists of men and women most successful in inflaming the crowd are being made up, and they are being tested, and those who can be trusted are employed to prevent wage agreements, to suggest seizure of industries, to urge strikes. The Niagara Falls district is seething with them. The real leaders do not appear. They pull the wires. Certain newspapers and Trade Unionists are doing their bidding. Reputable newspapers sometimes unconsciously help to spread their propaganda.
