ACADIA LOSES TO WANDERERS

In Hard Fought Game of Basketball At Halifax Saturday Night

(From the Morning Chronicle)
In a hard, fast game of basketball, replete with heavy body checking and rough play in which both sides were forced to resort to long shooting, the Wanderers defeated the Acadia quintette at the Y. M. C. A. on Saturday night by a score of 37 to 15.

This was Acadia's first game in Halifax this season, and while the Wanderers outscored them by a wide margin, they nevertheless gave a good account of themselves against the local champions and had they been on the basket on their long shooting to the same extent as the Wanderers, the score would have been much more indicative of the game. The locals showed more speed than their rivals from Wolfville, and in many instances this gave them lots of time to shoot. Most of the shots from both teams were well guarded, however, and some of the guarding was well outside the rules of the game. Referee Barrowman, however, allowed them to hand out the heavy work to their hearts' content, and bumps were given and taken in good spirit.

George Hattie opened the scoring for the Wanderers after three minutes of play, when he threw a long basket from well over half way. The Reds scored again a moment later, but at the five minute mark the visitors evened things up. The Reds went ahead again by two points and again Acadia evaded the count. MacCoy and his cohorts, however, finding that they could not get in very close owing to the guarding of McBride and Rhodenizer, started their famous long range work and quickly ran up a comfortable lead. The first session ended with the locals leading 17 to 8.

The second half was just a procession with the Wanderers getting further and further ahead all the time. Acadia tried all kinds of long shots, but they were off the basket. The Wanderers, towards the end of the game, commenced to show to advantage, and they got in close for some pretty shots. MacCoy was their brilliant man and his speed and footwork, combined with good shooting, ran the Wanderers well out of danger and gave them a big lead. The checking was very heavy towards the end and the entire contest may be summed up as very rough. The Acadia guards did well against the locals, but their forwards were not able to cope with the heavy work of McLeod and Hattie on the Wanderers defense.

The Acadia team has apparently been coached to play basketball, while the Wanderers were playing the brand commonly produced in Halifax and which is fast degenerating into a rough house. MacCoy and Wilks collected most of the points for the locals. Hector "Chick" McLeod, the "Man from Nowhere," jabbing under the taunts of George Hattie, his fellow guard on the Wanderers team, who scored the first points of the game, threw a longer basket than George's which caused the latter to become so depressed that he didn't even get his usual quota of personal fouls. The teams:

Wanderers—Wilks, 16; MacCoy, 13; Bartlett, 2; McLeod, 4; Hattie, 2; Thomson, Armitage.
Acadia—Robinson, 2; Wigmore, Chipman, 6; McCready; Rhodenizer, 4; Brown, 3; Moffatt.

YOUNG PEOPLES' ACTIVITIES

On Saturday evening of last week the "S. S. S." class of the St. John's Sunday School defeated the "Sunshine Workers" Class of the Methodist Sunday School in the final game of Basketball. The game was played in the College gymnasium and though somewhat one-sided was well played from start to finish. The losers are to be congratulated on the way in which they played a losing game. As the winners had already defeated the "Robins" class of the Baptist Sunday School this gives them the cup for the present year.

Last Saturday morning the hockey team of the Wolfville Scouts defeated the Windsor Scouts by a score of 8 to 0. It is hoped that a return game can be arranged.

The inter-patrol leagues of Basketball and Hockey both in the Cubs and Scouts of the Wolfville troop have now been completed. In Basketball Scout Patrol No. 2 (Baptist) and St. Andrews Wolf Cubs (Presbyterian) are the winners. In Hockey, Scout Patrol No. 5 (Methodist) and No. 3 Wolf Cubs (Baptist) have won out. An inter-patrol league of indoor hockey is now being played. At the club-room this evening No. 3 (Anglican) will play No. 4 (Presbyterian) in the Scout league and in the Wolf Cubs No. 2 (Presbyterian) will play No. 3 (Baptist).

TALLY CARDS, 30 cents a dozen, at THE ACADIAN STORE.

HEADS RESOURCES DEPT.

Among the appointments made last week in connection with the reorganization of the Canadian National Railways, Mr. W. D. Robb was made vice-president in charge of the natural resources, development, colonization, express and telegraphs and pension funds.

GIRLS PLAY HOCKEY

Acadia Sensitively Loses to Middleton in Interesting Game

The Middleton hockey team defeated the Acadia Ladies' Seminary team in a good game of hockey Monday evening by the score of 3 to 0. This was the first ladies hockey game here this season. Miss Serton and Miss McEachern played well for the locals, while Miss Cummings and Miss Frazier were the best for Middleton. In the first period Miss Cummings scored the visitors' first goal, and in the second two more were scored by Miss Parker. This was all the scoring done, and the game ended with a score of 3 to 0.

The line up:
Middleton—Goal, Mrs. Backler; defense, Miss Gullivan, Miss Coleman; forwards, Miss Cummings, Miss Parker, Miss Cox.

Acadia Ladies' Seminary—Goal, Miss McEachern; defense, Miss Serton, Miss Freeman; forwards, Miss Gilmore, Miss Serton, Miss McCallum.

GREENWICH NEWS

Messrs. Leslie and George Bishop received a message one day in last week of the death in Oregon of Mr. Davis, husband of their sister. Sympathy of friends in this place is felt for Mrs. Davis, who is so far away from her relatives and girlhood home.

Mrs. T. A. Pearson was hostess at another "afternoon tea" last Thursday, the third of a series of these social informal teas she is giving.

Mrs. Williamson, of Springfield, Mass., who has been the guest of her sister, Mrs. Andrew Fenwick, for several weeks, left last Friday morning to return to her home.

Mrs. Dexter Forsythe who visited for a few days with her mother, Mrs. Porter, of Upper Perseus, returned home on Friday, bringing her mother, who has been ill, with her for a visit.

Those present at Community League last Friday evening enjoyed the lecture of the President, Rev. D. B. Hemmeon, the subject being "United States and Its Foreign Relations". The Dramatic Committee have charge of the evening this week and we understand a good programme is being prepared. All should enjoy it, everybody welcome.

Mr. Edward Hennigar, our resident "meat-man", was ill last week and was unable to make his trip among us Saturday morning, his call being missed by his customers. We hope for him a speedy recovery to his usual good health.

Mr. and Mrs. Lee Bishop accompanied by Miss Rea Cox, spent the week-end in Halifax, guest of Mr. and Mrs. Maurice Williams, the latter being a sister of Mrs. Bishop.

Miss Marshall of Halifax, accompanied by a little niece spent the week-end at the home of Mr. and Mrs. T. A. Pearson. Mrs. Harris Forsythe returned to her home here on Monday, after a two weeks visit to her parents' home near Brooklyn, Hants County.

Mr. Philip Bishop left on Tuesday morning for Norwich, Connecticut, for a stay of a few weeks and reports that he has gone for further knowledge and experience of the "honey bee". We wish this successful young apiculturist still further success.

Mr. and Mrs. I. A. Daniel, of Brandon, Man., arrived in Wolfville on Friday last and are visiting at the home of the latter's mother, Mr. J. W. Beckwith, Acadia street. Mr. Daniel's visit will be a brief one but Mrs. Daniel hopes to remain for some weeks. Many old friends are glad to welcome them back to Wolfville.

VALLEY BOARDS OF TRADE

Hold Important Conference Regarding Immigration

An important meeting of representatives of the different Boards of Trade of the valley was held at the Cornelian Inn, Kentville, on Friday evening last. The meeting was arranged for by the Council of the Kentville Board and the object was to discuss ways and means of inducing immigrants to locate in this section. The coming of a large number of retired military and civil officials from India to settle in Canada, announced in The Acadian last week, was the chief factor in the gathering.

Those in attendance at the conference were: A. E. McMahon, president of the Kentville Board; Prof. W. S. Blair, W. E. Porter (secretary), H. M. Chase, Rev. D. R. Ross, J. R. Webster, James Brydon, R. H. Lamont, H. G. Harris, of the Council, Kentville Board; Edson Graham, president, W. D. Withrow, and G. C. Nowlan of the Wolfville Board; Rev. G. P. Raymond, Berwick; F. E. Cox, Middleton; Mr. Burchell of the Windsor Board, and Mr. Kehall of the Commercial Club, Annapolis.

Prof. Blair read the resolution passed by the Kentville Board, which had been approved by the Council Board, as follows:

Whereas, agriculture is the basis of national prosperity, and whereas, such prosperity results through greater production from the land, made possible largely through greater land settlement, and whereas it has been brought to our attention that certain British Officers, retired from the Indian service are likely to seek homes in Nova Scotia and other parts of the Maritime Provinces, many of whom doubtless desire to take up agricultural pursuits, and whereas, Nova Scotia offers to settlers prospects as satisfying as those of any country.

Therefore resolved, that we, the Executives of the Kentville and Wolfville Boards of Trade in joint session, on behalf of the Boards of Trade of these respective towns, urge the Government of Nova Scotia to take immediate steps to organize all immigration effort so that as many as possible of the said, and other settlers may be located in Nova Scotia; that every assistance be given to aid said settlers in getting located to best advantage; and that assistance necessary for their best direction after being located be supplied, so that contentment may result and further settlement thereby be stimulated.

Further resolved, that in our opinion it is desirable, in order to make such settlement effective that an "Immigration Bureau" be established in the various counties of Nova Scotia, offering best facilities for such settlers, and that the official of such bureau start at once to collect data that will enable the handling of such settlement problems to be carried out in an efficient and expeditious manner. Further more in the development of this scheme the Boards of Trade represented are desirous of co-operation to the extent of rendering any assistance possible.

A general discussion followed in which the opinion was freely expressed that arrangements should be made in this valley to assist the Indian Officers in finding suitable homes here, and that the Department of Immigration should be urged to give their assistance in the work by having a local representative appointed in localities where these officers are likely to settle.

President Graham regarded this move as in the right direction and the other representatives of the Wolfville Board assured the meeting of the co-operation on the part of the members of that organization.

Mr. Burchell, of the Windsor Board, spoke of the importance of Immigration and the valuable assistance an organization for colonization would be in the locating of settlers; also the necessity of a smaller organization in the countries from which they emigrate, to enable the two to work together in the best interests of the prospecting settlers. He also gave emphasis to the standing of these officers, most of them being graduates from Oxford, Cambridge and other institutions of learning; and were of the class that any country could feel proud to have as citizens, and the necessity of the Immigration Department of this Province being awake to the need of making provision and securing as many of these men as possible for settlers.

Mr. Kehall, of the Commercial Club, Annapolis, and Fred E. Cox, of Middleton, spoke of the interest of the people in their towns in this matter, and of the necessity of some one in authority to take immediate action.

Mr. McCoy, who apparently failed to grasp the situation fully, spoke generally on immigration matters and the benefit of settlers of an agricultural class. He did not think it advisable to adopt a policy bringing officers here from India who would probably spend their money and probably make a failure of any kind of work. He considered that if the Federal Government induced these demobilized officers to come to Nova Scotia that the department of Agriculture should be conferred with to take care of them after arrival and see that they promised co-operation in the movement.

Rev. G. P. Raymond added much to the evening's discussion. He had made a study of immigration matters and had made the attempt to act as a buyer's agent in purchasing properties in this vicinity. He approved of the resolution as submitted, and thought that every safeguard should be thrown around intending settlers to keep them contented and prosperous. Here they could find ideal conditions for a suitable home.

On motion of Prof. Blair, seconded by H. M. Chase, it was decided that a committee be selected to confer with the Department of Agriculture on this subject.

The committee consisted of Mr. McMahon, W. D. Withrow, and G. P. Raymond, with a representative selected by Windsor, Wolfville and Annapolis, Cansing, etc., were appointed as such committee.

COMING MUSICAL EVENT

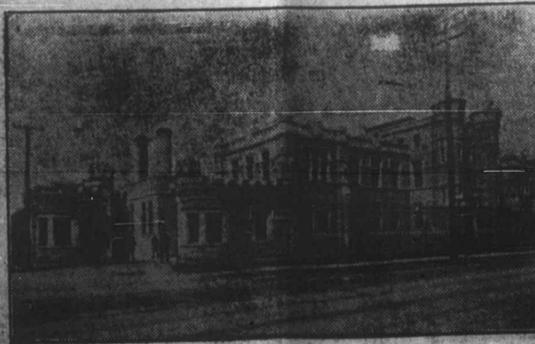

Mr. (George Brown, 'cellist; Mr. De Ross McAlister, tenor; and Mr. Carl Farnsworth, acting as accompanist, will appear in Recital in the Baptist Church of Wolfville, Thursday evening, March 8th, at 8.15 P. M.

Mr. Brown is a 'cellist of exceptional ability and is hailed as one of the most promising artists before the public. Mr. Brown is appearing this week as soloist with the N. E. Conservatory symphony orchestra in Symphony Hall, Boston, and comes to us with many favorable comments by the press and critics.

Mr. McAlister has a magnificent voice according to Dr. Davidson, of Harvard University, and is much demanded as a Tenor soloist. Mr. McAlister is appearing this month in Recital with Evelyn Seaton, formerly of the Boston Opera Company. In 1922, Mr. McAlister appeared in one hundred recitals. That in itself speaks for his popularity as an artist.

Mr. Farnsworth, director of music at the Acadia Conservatory of Music, will act as the accompanist.

WHERE CANADA'S COINS ARE MADE

There are only four branches of the Royal Mint in the Empire, three in Australia, at Sydney, Melbourne and Perth, and the fourth at Ottawa, the beautiful building shown in the picture. It is under the direction of a deputy mint master from London. Perhaps few Canadians realize that British gold sovereigns as well as Canadian coins are minted in Ottawa. Each coin has a small "C" on its reverse side. The Ottawa mint was opened in 1909, nearly nine hundred years after the first British mint was established by William the Conqueror in London. Coins were once issued by any private individuals who wanted to do so, but coinage is now restricted to governments. South American countries have their money made in the mints of Europe.

INTERESTING CANADIAN WOMEN

(Miss Agnes MacPhail)

Of unique interest is Canada's only woman member of parliament, Miss Agnes MacPhail, the clever and unassuming Progressive member of Ceylon, Ontario, who was elected in a three-cornered fight in the general elections in 1921. Miss MacPhail came into prominence as leader of the women's branches of the U. F. O. and was later adopted by the general U. F. O. as a speaker and propagandist of exceptional force. She opposes the present rate of salaries and indemnities paid to members of parliament and in support of her views turns back one-half of her salary to the government. She is endowed with a winning personality. On her shoulders falls the delicate task of establishing precedents for Canadian women in their standing in the Houses of Parliament.

WHEN WINTER CAME—A REMINISCENCE

Two weeks ago THE ACADIAN published an interesting article entitled "Snow Shovelling as An Elective at Acadia". Through an inadvertence an explanatory note which should have accompanied its publication was omitted and detracted somewhat from the interest which might otherwise have attached to it. The article in question was written during the memorable winter of 1905 during which there was an unprecedented snow-fall and all communication with the outside by train was suspended for some weeks. All possible assistance was required by the railway to eventually get a train through about the end of February. It was during the same winter that the roof of the old skating rink which was located on Front street collapsed owing to the weight of snow and a serious loss of life was only averted by the fact that the manager accidentally left the key at home. The roof fell in while the crowd of waiting skaters were denied admittance pending the arrival of the key. During the snow blockade various means of amusement were resorted to by citizens to wile away the time and some of those literarily inclined undertook the publication of an amateur journal only one number of which, however, appeared. Miss Rosamond Archibald, then a Freshman at Acadia, was the promotor as she has been of many matters of community interest, and Miss Margaret Barrs was the editor. The little publication bore the title of "The Snowball" and contained a number of interesting articles, one of which was that referred to at the beginning of these remarks. If a copy of "The Snowball" is still in existence it should furnish interesting reading especially during a winter such as we are now passing through.

HOW DO THEY DO IT?

To the Editor of The Acadian:
Dear Mr. Editor.—It is not usual for me to attend the various functions of town government but on Tuesday afternoon, attracted by the numbers of citizens vying their way to the Town Hall, I joined the procession and spent an interesting hour or so in listening to the discussion of the civic assessment. A comparative stranger in Wolfville, one thing that impressed me was the apparent large number of your people whom I had been led to believe were in affluent circumstances who are apparently living on rather small incomes. As one always seeking useful information the thought came to me that some of these people might prove themselves public benefactors by passing along the formula to less fortunate citizens who find it difficult to make ends meet while living in a very much less pretentious way. Wolfville, I know, is an educational centre and it is a great thing to have an education. As a new comer any suggestions that will tend to a more efficient expenditure of my income will be appreciated.

A SEEKER AFTER LIGHT

ACADIA BASKETERS DEFEAT HALIFAX "Y"

In Exhibition Game at Memorial Gymnasium—Score 22 to 12

On Thursday evening of last week Acadia defeated the Halifax Y. M. C. A. in the Memorial Gymnasium in a hard fought game of basketball by a score of 22-12. After a few minutes of play, Frew scored for Y. M. C. A. followed by Chipman for Acadia. Chipman again tallied, followed by Robinson. From this point the combination of both teams worked well with Y. M. C. A. a slight advantage with the result of Frew scoring a second tally for Y. M. C. A. After this Acadia scored three baskets and one personal in rapid succession. Frew again scored, and the period ended with score 15-6.

The second period started with neither team having any noticeable advantage. Chipman scored on a long shot followed by two in quick succession for the Y by Frew. Brown scored another and with several other scores for Acadia the period ended with score 22-12 in favor of Acadia. Line up:
Y. M. C. A.—Whitlock, centre; Woodley, Greig, guards; Lucas, Frew, forwards; Lawrence, sub.

Acadia—Chipman, centre; Robinson, Wigmore, forwards; Rhodenizer, MacCready, guards; Moffatt, Brown, subs.

APPOINTED TO ENTOMOLOGICAL STAFF AT OTTAWA

It is announced that Alan Gordon Duston, of Fredericton, N. B., well known in Wolfville, where he has spent the past few summers, has received an appointment on the Entomological Staff at Ottawa, to take effect in April. In regard to him the Halifax Chronicle of Feb. 19 said:

Mr. Dustan is a son of the late Rev. John F. Dustan of Halifax. He received his Arts Education here, graduated with high marks from Truro Agricultural College and also from "Guelph". He then took post-graduate work at "McGill", receiving the degree of B. Sc. from that institution.

For several years, Fredericton has been his headquarters. His summers, however, have been employed in original research work in fungi and insects, and he has been successful in detecting the presence of destructive parasites and also in discovering means and methods whereby such fungi and insect life can be arrested and eventually destroyed.

The original research work of Mr. Dustan has been of incalculable benefit to Canada in general and to our province in particular, and it is gratifying to learn that, although his headquarters hence forth will be at Ottawa, yet Nova Scotia is to have the benefit of his services for several summers to come, until the special work he is engaged upon shall have been completed.

In pursuance of this important research work, Mr. Dustan will return to Wolfville in May, where he will spend several months. His friends wish him every success in his original work so valuable to Nova Scotia, and extend him congratulations on his well-merited promotion.

THAT EGYPTIAN TOMB

There are many things to be taken into consideration besides the educational value of distributing Egyptian mummies to the museums of other countries, and one of these was voiced, according to despatches, by an attendant in the Mummy Room at the British Museum when a discussion as to the final disposition of King Tutankhamen arose. This man, having had a great deal of experience, voiced the desire no doubt of others when he hoped that the Egyptian government would exercise its prerogative and retain the mummy of the King in Egypt. The secret of mummifying was intended to be exercised only in the dry air of the countries where the custom prevailed and has proved ineffective on a number of occasions when the mummies of other Pharaohs were exposed to the damp air of England, and cremation has been found necessary "to preserve them", said the attendant. It is to be hoped indeed that the Egyptian government will retain as a permanent museum the whole tomb and its contents. The care that was lavished on the collecting and preservation of the familiar objects that surrounded the King in his lifetime, that he might in some future state find nothing lacking, shows a belief in immortality that merits respect.

Mr. and Mrs. Gerald S. Bauld, who have been popular residents of Wolfville for a number of years, left on Saturday for Halifax, their old home. It is understood that it is their intention to make their future home in Truro, where they will be followed by the best wishes of many Wolfville friends.
