Note's Combined Spinner.
PATENTED --- 1870.
THIS is one of the most useful Spinning Machines invented. It is Quilt Wheel, Clock Reel, Spinning Wheel, and Swirls all combined. By means of a clamp, it can be attached to a table or stand, and be used in either a standing or sitting posture. It is quite an ornamental piece of furniture, but when not in use, if desired, can be folded up and laid away in a Bureau drawer. It spins faster and better than any of the old wheels now in use, and with one half the labor.

DISSOLVED BY
Watson's Scoleolion!
(WORM CANDY.)
WHICH is offered to the public as a perfectly safe, pleasant and efficacious means of expelling worms from the human system. As this preparation contains no mineral ingredients, the irritation of the bowels is not followed by the dangerous and, in many cases, fatal consequences resulting from the use of many of the Vermifuges in common use.
A compliance with the directions accompanying this, will prove that it deserves the character claimed for it; while the promptness and perfect character of its action render it the cheapest and safest remedy for Worms discovered.
