Timber and Deals.

We learn from Farnsworth & Jardine's timber circular of the 3rd instant, that the arrivals from British North America during the past month have been 27 vessels, 21,230 tons, against 32 vessels, 26,919 tons during the like period last year.

Business during the month has been it a dragging and unsatisfactory-character, though the deliveries have been fair buyers for the most part restrictrequirements, and are only tempted by very low prices. Stocks, though mparing favourably with last year, are still above the average, and far too heavy for the diminished demand.

Canadian Woods.—In Pine Timber there has been rather more doing, but to effect sales very low prices have been taken. Pine deals have been arriving too freely by the steamers, and, consisting mostly of odd sizes, have been very difficult to sell even at the falling prices. Staves have been dull, and no late ales.

Spruce Deals .- The import has been large and in excess of the demand, and coming upon a weak market prices have had a downward tendency; the latest sales being the lowest ourec considering the time of the year, the stock is far too heavy, being nearly double what it was last year. Pine Deals are most difficult to sell, and prices are excessively low. Of Birch the consumption has been light, and

prices are low.

It is joined at the North by the dwelling house and tin shop of the late Mr. James Gray, within a few-feet of Water Street, and in view of the most public places and wharves where the steamers call. It is the only RARE chance in the vicinity for a good business stand. For certain purposes it is unsurpassed. SALE POSITIVE. Intending purchasers can rely on a bona fide sale.
