Some time ago when the French warship visited the island the sailors found soldiers there in Mexican uniform and the Mexican flag floating serenely over the island. The island is directly east of the Panama Canal, which gives it a certain amount of importance.

The matter has been placed in the hands of the French Foreign Office, and communications are pending. The warship discovered that the French Government has mislaid the island two years ago and unofficial Paris only heard of it the other day.

Mr. Kelly's delayed recovery caused anxiety in his home, and a search was instituted, his prostrate body being found on the roadside, four hours after the assault.

## POWER COMPANY AT THE OPERA HOUSE

Crowded House At Last  
Night's Performance.

### A GOOD SHOW

Despite the very disagreeable weather, the performance at the Opera House by the Herbert H. Power Company, drew a crowded house, nearly every available seat in the large auditorium being occupied.

The piece, Sunshine and Shadow, was a very attractive one and was presented in the style.

Sunshine and Shadow is a drama of the mid-life type, telling the story of two brothers, who were brought up in a city, one becoming "Tad" and the other preferring to stay at home with the old folks on the farm. Then there came a storm, with the blame cast on the wrong brother, imprisonment in Portland prison, the escape, guilt fastened on the right man and everything set right.

Harry Glavin, the wrongfully accused brother, as portrayed by Wilbur Symonds, was excellent, whilst Dan Malloy, as Jack Glyndon, the villain of the piece, was suited to his part both in voice and appearance. Charles H. H. an, father of the two boys, was good all through, playing the part of a harsh and obstinate old man, whilst Herbert H. Power, as Lazarus, the Jew, kept the audience laughing all the time he occupied the stage.

Miss Beale Beaumont, as Naomi Bradford, played her part to good advantage as did Miss Flora Frost and Miss Topsy Carroll. Little Gladys, as Ned, the wife, played her part excellently, and her singing between the acts made an instantaneous hit.

The vanguard was first class all through. Miss Topsy Carroll, in her mimicry of various singers, showing she possesses a voice of good range as well as a knowledge of how to use it to the best advantage. Mr. Herbert Power, singing "It There was any Women in the World," was called upon to respond to several choruses, and is no doubt as good as any comedian we have seen for some time.

## FATHER ACCIDENTALLY SHOT HIS LITTLE SON

(Special News Service.)  
ST. ANDREWS, Monday—St. Andrews was plunged into mourning this morning by the tragic death of Lester A. Rollins, the fourteen year old son of Douglas A. Rollins, blacksmith. With his parents he had driven to Henry Carey's to spend Thanksgiving Day in the woods.

Yesterday the lad expressed a desire to see the spot where his brother William had shot a moose a few weeks ago.

The two started out accompanied by Harry and John Irving. The elder

Rollins took his rifle along with no expectation of doing any shooting.

While going through a rough place in the woods, the father stumbled and the rifle was discharged. The bullet entered the boy's side and emerged from the back of his head, causing instant death.

Leaving the body in charge of Irving the other two walked back five miles to break the sad news to the deceased's mother, and to get a team to bring the body out.

The shock nearly crazed both parents.

## BRICK MARK COLORS T. CARTER WINS REID TROPHY MATCH

Ties of Vivid Hues Favored  
and Harmony Rather  
Than Matching Rules.

### SOCKS ARE QUIET

In all the accessories of man's apparel very much brighter and more vivid colors than have hitherto obtained will be in vogue this fall. For this reason the necessity of having everything to match will be more or less obviated. It will be a season of harmony rather than one of endless seeking for exact shades in ties, socks and shirts. This has been brought about largely by the brilliancy of tone and the extremely high color effects that prevail in the fall neckwear, in which everything is much brighter than that which marked the accepted fashions during the past summer.

For fall wear the pastel tones and pale seasonable effects of the past months will give place to warm, rich fabrics of striking hue. Extraordinary shades of pink, green and gold combinations are most in demand, and while there are many shades of the brown used in the manufacture of fall ties, it is generally conceded that this season is a green one.

Jacquard Designs  
The more exclusive shops are offering handsome exclusive silks with Jacquard designs in self or plaid tones or of some harmonious but contrasting color. There will be fewer "bat-swings" worn this season than usual because there will probably be fewer wing collars worn. The slim, graduated, folded four-in-hand is better adapted for use with the ever-popular fold-over, close front collar which no amount of comment has been able to dislodge from the affections of the American man. It is the most comfortable collar yet, and has come to stay. The wing collar for fall wear will have very small tabs, with either round or square corners. The preferred style, however, will have round corners.

The ties, of course, are a little heavier than those which were worn during the summer, but there is practically no change in their forms. One house is showing a loose-end scarf which is practically an imperial, but as the latter has never been a popular scarf in this country, it is questionable if its offering will make an extended popular appeal. It may, however be taken up by some of the more exclusive dressers, because of its very rich and generous effect.

High Collar Effects  
Because of all these high color effects in shirts and ties the well dressed man will seek after harmony rather than a perfect match in selecting the articles of dress for his winter wardrobe.

For instance, some of the blue shirts have diminutive pink figures in the alternate stripes. With such a shirt one of the new Persian pink ties will be worn. Dark blue scarf and socks with a tan shirt, the socks having brown clocks, is a good combination. A dark green tie will be worn with a pale green shirt. Some will prefer to wear deep purple with the color. Some of the ties, however, are so very vivid that extreme care must be taken in selecting a shirt to wear them with. Contrasts that are too striking are to be avoided as the plague.

While it is perfectly proper to wear a purple scarf with a canary shirt—if one's tastes happens to be as royal as that—yet the shirt to wear the pink tie with is a more difficult problem. It must, if not black and white, be a pastel tone, as the pink of the moment, which is as brilliant as flame, is not a color to be trifled with.

| Total                | 132  | 84   |

Government majority, 48.  
There are still four elections to be held, viz. Prince Albert, Saskatchewan, Yale-Caribou, and Kootenay, British Columbia and the Yukon.

## AMERICANS ARE ALARMED BY A NEW GUN

British Naval Weapon is  
More Powerful Than  
U. S. Gun.

WASHINGTON, Monday—The navy department is confronted with a problem as the result of the discoveries, through secret government sources of information, that Great Britain is constructing for its new battleships a twelve inch gun of 50 calibre, which is more powerful and deadly than any American gun afloat or under construction.

This information is disclosed to the public for the first time by the recent conference of naval experts at Newport under the special direction of President Roosevelt. The conference, which was composed of distinguished American authorities, was convened to investigate the charges of Reuter, Kates & Sims that some of the most modern American battleships, notably the Delaware and North Dakota, were hopelessly defective.

This resolution was passed unanimously. "Resolved, there is reason to believe that the main battery guns to be placed on board the North Dakota and Delaware are inferior in power to the English guns now being built for ships of this date of completion, and this inferiority should be corrected in the Florida and Utah by the installation of English 50 calibre 12 inch guns.

## VINOL CURES CHRONIC COUGHS, COLDS AND BRONCHITIS

After Other Remedies Fail

I have been troubled with a chronic cold and bronchitis for a long time and have tried many remedies without finding relief. Through the kind suggestion of a friend I tried Vinol, and after taking four bottles, am entirely cured! A. H. Wilde, 733-8th Avenue, Minneapolis, Minn.

S. McDonald, 147 W. Congress St. St. Paul, Minn., writes: "I contracted a severe cold last winter and thought I would never get rid of it. I tried Vinol as a last resource, and it has completely cured me."

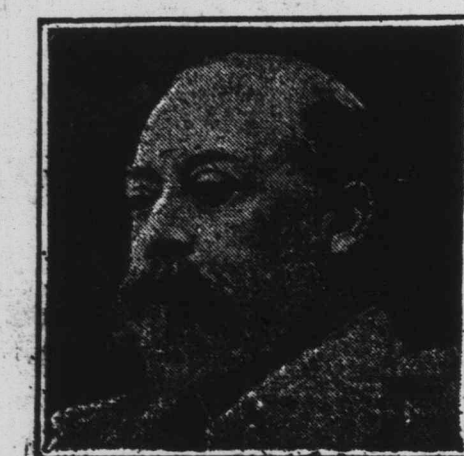

Vinol combines two world-famed tonics, the healing, medicinal properties of cod liver oil and tonic iron, deliciously palatable and agreeable to the weakest stomach. For this reason, Vinol is unexcelled as a strength-builder for old people, delicate children, weak and run-down persons, after sickness and for Chronic Coughs, Colds and Bronchitis.

Vinol is sold in Campbellton by A. McG. McDonald, Druggist.

### TYPHOID IN COUNTY

Quite a number of cases of typhoid fever have been reported from various sections of the county during the summer and autumn, especially at Jacques River, and Point la Poudre. Campbellton has been remarkably free from this disease during the year, a fact which must be attributed in a large measure to our pure water supply and excellent drainage system, supplemented no doubt by the improved methods employed by our citizens in maintaining their premises in a sanitary condition.
