EXPERTS ON MILK PROBLEM.

Dr. J. A. Amyot and Dr. Chas. Sheard on Pasteurization

Dr. Casgrain New President of Ontario Medical Association.

Patent Medicine Evil Condemned-Officers Elected.

Toronto, June 3.-Experts locked horns at the Ontario Medical Association yesterday on the question of the pasteurvation of milk, Dr. J. A. Amyot Director of the Provincial Board Health laboratory, and Dr. Chas. Sheard, Medical Health Officer for To-Sheard, Medical Health Officer for Toronto and Chairman of the Provincial Board of Health, represented the opposing factions. To put the matter in a nutsuell, Dr. Amyot took the position that while absolutely pure, clean milk was the desirable thing, yet the natural diriculties in the way were so large that the attainment of that perfection could not be accomplished for many years. Such being the case, he advocated that by the adoption of proper scientific methods of pasteurization some of the dangers of the conveyance of disease through the medium of milk might be avoided. In short, his position might be summed up in the old proverb, "Aim at the moon and you may hit the steeple."

DR. SHEARD'S CRITICISM.

Dr. Sheard, on the other hand, advanced the statement that the pasteurization of milk reduced its food value, and, what was most important, value, and, what was most important, led to carclessness among both producers and consumers who considered that the milk so treated was rendered immune for practically a long time. His chief point was that milk was easily reinfected after pasteurization, and the difficulty, owing to the needs of early distribution, to consumers, of the establishment of a municipal system as advocated by Dr. Amyot. In support of his contention he quoted the opinions of medical officers of health of Boston, Rochester, Buffalo, and other large cities, who condemned pasteurization as a compromise with dirt. At the same time he did not minimize the danger to public health arising from impure milk, and was in agreement with Dr. Amyot in so far as the rigid inspection of the source of supply was concerned.

Dr. T. H. Machell also contended that clean milk in the first instance should be their objective. If they accepted pasteurization as a substitute they would be no further in twenty years' time. It would be simply eduto carelessness among both produ

they would be no further in twenty years' time. It would be simply educating the farmer to be careless. At the same time he was in favor of pasteurization in the summer months to prevent bacterial growth. FOUR HUNDRED BABIES KILLED.

Dr. C. J. O. Hastings thought that only Dr. Amyot had really touched the point. Their object should be the saving of human life, and he regretted Dr. Sheard's attitude. "If," he said, "we are not one in this, then we had better give up or else throw up our positions. Doesn't the Health Officer of Toronto, tall the weeks the up our positions. Doesn't the Health Officer of Toronto tell the people to boil the water because he's afraid of typhoid? and yet he's not afraid of typhoid? and yet he's not afraid of that advice standing in the way of the construction of a filtration plant." Pasteurization was a safeguard they should not neglect while aiming at purity of supply. Four hundred babies were poisoned last summer by bad milk.

bad milk.

Dr. Amyot, in reply, said that clean milk was wanted, and it was Dr. Sheard's job to see that it was got. In the meantime why neglect other precautions? Milk was the only food they took raw, and why should that not be cooked? "Dr. Sheard," he said, "says that the milk is distributed at 4 o'clock in the morning. It comes in at 12 o'clock the day before, and that would give plenty of time for treatment."

NEW OFFICERS ELECTED

NEW OFFICERS ELECTED. NEW OFFICERS ELECTED.

In the course of the afternoon Dr.

H. R. Casgrain, Windsor, was elected
President; Dr. H. B. Anderson, Toronto, First Vice-President; Dr. J. M.
Rogers, Toronto, Second Vice-President;
Dr. J. C. Connell, Kingston, Third VicePresident; Dr. J. R. Arthur, Collingwood, Fourth Vice-President; Dr. F. A.
Clarkson, Toronto, General Sceretary;
Dr. J. H. Mullin, Hamilton, Treasurer.

In the course of the afternoon an
address was delivered by Dr. A. R.

and tuberculives of the skin, which was
greatly appreciated.

WOOD ALCOHOL DANGEROUS.

WOOD ALCOHOL DANGEROUS. onfer with a si mittee to confer with a similar com-mittee from the College of Pharmacy with regard to dealing with deleterious

patent medicines.

On the motion of Dr. R. A. Reeve, seconded by Dr. G. S. Ryerson, the following resolution was also adopted: "Owing to the cases of permanent blindness recently under observation and to statistics of such cases in the United States, due to the drinking of even small quantities of wood alcohol, the Ontario Medical Association should memorialize the Provincial Board of Health to take all possible measures to prevent such deplorable accidents and give wide publicity to the danger."

PATENT MEDICINES.

PATENT MEDICINES .

PATENT MEDICINES.

Hard whacks for the patent medicine quack were administered at the meeting of the association yesterday. Dr. John Ferguson, in his paper on the "Nostrum Evil," started off by saying that Ponce de Leon should have apparently waited 400 years for a patent medicine instead of seeking the fountain of youth in Florida. He advocated that the labels of all patent medicines should be are the formula and quantities of its contents, and that the use of drugs requiring a medical certificate should be prohibited for these preparations. No mixture should be sold containing a habit-forming drug, more than five per cent. of althese preparations. No mixture should be sold containing a habit-forming drug, more than five per cent. of alcohol, or dealing with sex questions. He would prohibit newspaper advertisements, setting forth extravagant claims, while the post office should refuse the privilege of the mails to secret tremedies. Dr. Ferguson also thought it would be well if a Royal Commission were appointed to investigate the whole question.

England, the Emmanuel Movement. We may have ourselves to blame by our neglect of psychology and our devotion to the materialistic side of our profession for the attempt of the clergy to assume the role of healers of the body as well as of the soul. If we must add to our knowledge and intelligently practise treatment by suggestion, we may surely also be permitted to demand that the clergy add to their knowledge a course of pathology, that they may have a knowledge of their own limitation."

In the course of a discussion on tuberculin therapy, following a paper by Dr. J. H. Elliott, the doctors declared themselves in favor of the treatment of tuberculosis, not only of the lungs, but in other forms, by the injection of tuberculin serum.

Yesterday a number of the members were present at a surgical clinic conducted at the Toronto General Hospital by Drs. G. A. Bingham, C. B. Shuttleworth, I. H. Cameron, Primrose and H. J. Bruce.

The annual dinner of the association,

J. Bruce.

The annual dinner of the association, held last night, was largely attended, and a number of bright speeches were

ONCE MORE THE PROOF IS GIVEN

That Dodd's Kidney Pills Cure Even Inherited III-Health.

Charles Davon Suffered From Early Youth But the Old Reliable Aidney Remedy Banished mis Ills and Made Him String.

St. George, Man., June 2.—(Special.)let another case in which ill-health herited from parents has been van-

nherited from parents has been vanjuished by Dodd's Kiż-y Pills is that
of Mrs. Charles Dayon, a farmer well
known in this neighborhood.
"I suffered from a number of ills from
on early age," says Mr. Dayon, who is
one with the says of the says of the says of the says
of the says from backache and my muscles would cramp. I had a heavy dragging sensa-tion across my loins. I was always thirsty; I had great difficulty in col-

hirsty; I had great difficulty in col-cetting my thoughts, and my memory vas failing me.
"I was altogether in a bad way when started to use Dodd's Kidney Pills, but hey helped me almost from the first ox. That gave me strength and helped me so much in every way that I am satisfied a little longer treatment will make me a well man."

Mr. Dayon's symptoms were the symptoms of Kidney Disease, and Dodd's Kidney Pills cure every form of Kidney Disease, no matter what stage it is in or

A BRAVE BOY.

Rov Dennis Did Good Work at Cheapside Fire.

On the evening of May 26th at 9 'clock, the villagers of Cheapside were suddenly alarmed by the clamorous ringing of the town bell. It was discovered that a sky rocket had descended and began a work of destruction on the roof of Dr. Sherk's barn. In a short time about fifty gathered, forming a bucket brigade, and the fire was soon extinguished. Fortunately the accident happened early, and very little damage was done. Had it not been for the timely arrival of Roy Dennis, the barn would have been burned to the ground. His brave and heroic deed is well worthy of commendation. The lad, who was one of the first to arrive on the scene, hastily elimbed a nearby tree, and made use of an overhanging branch to swing himself out some 20 feet on the burning building. He received slight burns about the hands when tearing loose the burning shingles, but managed to get possession of the lighted rocket, thus removing the fire's origin. In the pouring on of water the roof became slippery, causing Roy to lose his balance and fall to the ground, miraculously escaping serious injury. This is not his first or only and began a work of destruction on the the ground, miraculously escaping serious injury. This is not his first or only deed of the kind, as practically the same thing happened on another occasion.

NOISY GHOSTS.

They Held Up an Italian Steamer and the Crew Left.

Rome, June 2.—The Italian steamer Moncenisio bound for New York with A resolution was passed giving the a cargo of pumice stone, has been held up President power to appoint a com- at Palermo by ghosts. On the arrival of a cargo of pumice stone, has been held up at Palermo by ghosts. On the arrival of the steamer at Palermo from the Lipari Isles, the crew refused to continue the voyage because ghosts were making a devilish row in the hold, which they believed presaged shipwreck. The police searched the vessel, expecting to discover that members of the Mafia had stowed themselves away on board, hoping to escape to America, but they found nothing. As soon as the police left the steamer the ghosts became livelier than ever. The crew left her, and refused to re-embark. Other hands cannot be obtained.

U. S. STEEL.

Paris, June 2.—Negotiations for the listing of the shares of the U. S. Steel listing of the shares of the U. S. Steel corporation on the Paris Bourse were officially concluded yesterday. Six influential banking institutions have bought outright a large block of the stock, and will offer it to the public.

SUICIDED FOR SHAME.

Batavia, N. Y., June 2.—Anna Per-fola, committed suicide last evening while her husband, John Perfola, an Italian laborer, charged with petit larceny, was being searched by the offi-cers. Shame at her husband's arrest is the only known reason for her act. They had been married only four months.

question.

Dr. J. T. Fötheringham. Toronto, chose as his subject "Nihilism in Therapeuties." In the course of his address he said: "I speak with reserve of that latest emanation from the course of the c

MR. MORRIS

Is Head of the Chosen Friends For Two Years.

Mr. Montague Re-Elected Grand Recorder of the Order.

Toronto, June 3.-Mr. Alexander Mon Toronto, June 3.—Mr. Alexander Mor-ris, the recently appointed sheriff of Renfrew County, was last night elected by acclamation as Grand Councillor of the Canadian 'Order of Chosen Friends at the biennial meeting of the Grand Council, held in the Temple building. Mr. Morris will preside over the des-tinies of the order for the next two years.

simes of the order for the next two years.

Mr. E. T. Essery, K. C., of London, the retiring Grand Councillor, presided, and in his address reported that in the twenty-two years of the existence of the order they had paid out to widows and orphans \$2,676,000, and for sick benefits \$233,319. Special appreciation was expressed of the services of Mr. W. F. Campbell, Grand Organizer, who had just completed his twenty-one years' consecutive service in the order.

The Committe on Credentials reported the presence of 408 representatives and 23 grand officers and committeemen, one of the largest gatherings in the history of the order.

Major H. J. Snellgrove, Cobourg, presented the report on the state of the order, which was a most encouraging one and was under discussion all day. During 1908 over \$314,000 of insurance funds had been received from the members. There had been 230 deaths and 63 disabilities, upon which \$25,000 had been paid out. The general fund showed a balance on hand of \$327, as compared with an overdraft of \$376 last year, which the committee regarded as highly satisfactory, in view of the fact that the expenses of the organization department were paid from this fund. The guaranteer of the guaranteer of the organization department were paid from this fund. The guaranteer of the organization department were paid from this fund. expenses of the organization department were paid from this fund. The guaran

expenses of the organization despair members fund showed over \$1,000 on hand, and the losses only totalled \$144 last year. Some \$220,000 of the insurance and sick fund had been invested in good municipal debentures, netting \$41.2 per cent. Near 10,000 approved applications for membership had been received during the two years.

The report commended the work of the grand officers and was sustained by the council.

When the council adjourned at 11 o'clock last night the balloting for the officers had not been completed and will be continued this morning. Those elected, in addition to the Grand Councillor, were: Grand Vice-Councillor, Mr. F. J. Fitzgerald, London; Grand Recorder, Mr. W. F. Montague, Hamilton; Grand Treasurer, Mr. Samuel Broadfoot, (include Medical Examiner P. J. H. W. F. Montague, Hamilton; Gra Treasurer, Mr. Samuel Broadfo Guelph; Medical Examiner, Dr. J. Bell, Kingston; First Grand Representative, Mr. A. W. Adams, Toronto.
On the completion of the elections this

norning the proposed changes in the onstitution will be discussed, the most nportant item probably being the rates to be charged, many claiming the present schedule is not sufficiently high.

SET CARS ON FIRE.

Mob Attacked Strike-Breakers in Philadelphia.

Philadelphia, June 3.—The attempt of the Philadelphia Rapid Transit to operate its cars to night with strike-breakers imported from other cities resulted in red since the strike of the street car mer began on May 29. In the Kensington district, where many mills are lo-cated, the feeling ran high. Mobs of men, women and children pulled the motormen adn conductors from their cars and beat them severely. In many instances cars were set on fire and in other cases thrown across the tracks. The police were powerless to control the angry strike sympathizers. When they charged the mob it separated only to form again in the vicinity another car.

One policeman was shot and probably fatally injured; another was ducked in a water trough, while nearly a hundred persons were badly battered

MURDER IN WOODS.

Two Galicians Accused of Killing Their Camp Mate.

Winnipeg, June 2.—The preliminary hearing of two Galicians, Nikola Roman uk and M. Pidhoney, for the murder of their campmate in a lonely wood cabin near Sandilands on the night of March l, opened this morning. The men have been under arrest since the commission of the crime, but the authorities have been busy on the case ever since in an effort to secure something more than circumstantial evidence. The man who seffort to secure something more than circumstantial evidence. The man who was killed was Metro Hewka. His throat was cut with a razor. Witnesses on the stand to-day told of a fight which had occurred on the night previous to the murder, in which the dead man worsted one of the prisoners.

The Crown is believed to have a staw witness yet to come, as it is expected a third man who has been under suspicion will turn King's evidence to-morrow. He has placed his confession in the hands of the police.

GOOD CROPS.

New York, June 2.—Wm. C. Brown, president of the New York Central Railroad, returned yesterday from a western trip. "Never has June seen a better outlook for fine crops than it does to-day," he said. "Farming conditions are better than business conditions, for the reason that business is everywhere held beach that business is everywhere held bill. The tariff does not affect the erops."

Only those who suffer from Piles can know the agony, the burning, throbbing, shooting, stabbing pains which the aliment causes, and the way it wrecks the sufferer's life.

Zam-Buk is blessed by thousands who used to suffer from piles, but whom it has cured. One such grateful person is Mrs. Elizabeth Taylor, of Greenwood Avenue, Toronto. She says:—"For four long years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'remedies' and doctor's prescriptions but got no ease. Zam-Buk was different to everything else I had tried, and it cured me. I am grateful for the cure, and as I have never had piles once since, I know the cure is permanent."

Another thankful woman is Mrs. E., A. Gardiner, of Catalina, Trinity Bay. She says:—"In my case Zam-Buk effiscted a wonderful cure. For twelve years I had been tuning various kinds of ointments, etc., but never came across anything to do me good until I tried Zam-Buk, which cured me. That this may be the means of helping some sufferers from piles to try Zam-Buk, is the wish of one who has found great relie."

Zam-Buk is a purely herbal balm and should be in every home. Cures cuts, burns, brüises, eczena, ulcers, blood-

should be in every home. Cures cuts, burns, bruises, eczema, uleers, blodopoisoning, prairie itch, sunburn, blisters, sore feet, summer sores, and all diseases and injuries of the skin, etc. All druggists and stores at 60c. box, or

BRIGHT OUT WEST.

The Prospects Are Excellent For a Record Crop.

highest point of satisfaction," just about escribes the crop report issued by the C. P. R. to-day. It combines reports rom every section of the prairie coun try clear through to the Rockies, and its essence, tells that all the wheat has been sown, while the percentage of oats, barley and flax which remains to be put in is small. Ideal growing weath-er, with light rains and plenty of warmth, has been general over the en-tire Northwest, and in some places the tire Northwest, and in some places the growth has been exceptional for the first, of June. At Balcarres the grain is reported to be up eight inches; at Arcola, from four to seven inches; at Waskada, four inches; on the Nortal section, from two to five inches, and on the Lacombe branch in the far west, the same height. All over the west the acreage in grains has increased.

CZAR AND KAISER.

They Will Meet This Month In Finnish Gulf.

St. Petersburg, June 2 .- A meeting etween Emperor William and Emperor Nicholas has been arranged and will take place in the waters of the Finnish The exact date of the meeting Guif. The exact date of the meeting will be decided upon later, but it probably will be June 17. The German Emperor will arrive on the imperial yacht Hohenzollern, while Nicholas will be aboard the Standart, accompanied by M. Iswolsky, the Foreign Minister, and Admiral Voevodsky, the Minister of Marine.

The news of the proposed interview The news of the proposed interview between the sovereigns, coming so son after the settlement of the Balkan crisis, has aroused eager speculation among the diplomats at St. Petersburg. It was supposed in some quarters that German mediation, which had ended the crisis, had left an inheritance of bitterness which would estrange the two monarchs and lead Russia to identify herself more closely with Great Britain's continental policy.

reports, has been arranged by the initia tive of Emperor Nicholas, is taken to mean that Russia prefers an amicable ar rangement with Germany to the doubt-ful issue of an antagonistic policy. Il Emperor William also meets President Emperor William also meets President Fallieres, as reported from Berlin, the European situation may be regarded as entering upon a decidedly peaceful phase.

CZAR AND KAISER.

St. Petersburg, June 2.—The Novoe Vremya to-day says that there will be a meeting between Emperor William and Emperor Nicholas in the waters of the Finnish gulf on June 17th. Emperor William will arrive on board the Imperial yacht Hohenzollern and join the Russian Imperial family.

THREE KILLED.

Pittsburg, June 2.—Three passengers are reported to have been killed and several injured in a wreck to-day on the Pittsburg & Western branch of the Baltimore & Ohio Railroad, near Downieville, Butler county.

KILLED BURGLAR.

Cincinnati, June 2.—Albert Esberger, a jeweler, early to-day shot and killed an unidentified burglar in his home in this city. A companion of the man, who was on the outside of the house, escaped.

A four million dollar estate in Cuba has come into the possession of Mrs. Jennie Noland, who formerly lived at 58, McKenzie Crescent, Toronto, and who is at present in French River. The property was willed to Mrs. Noland by her mother, Mrs. Jeremiah Stephens, of Waubaushene, and it consists of 10,000 acres of sugar plantations and mills near Cardenses, Cuba.

CONFERENCE. Ministers Talk of the Theological Tests.

Rev. F. J. Grout, Who Went to Detroit, Granted Letters of Standing.

London, Ont., June 2 .- At the mir sterial session of the Metholist Con

London, Oute, June 2.—At the ministerial session of the Metholist Conference which began this morning there was some discussion over the case of F. J. Grout, who was stationed at Northwood, where he was getting \$400 a year, and who left the London Conference and went to Detroit, where he joined with the Methodist Episcopal Church. It was finally voted that his request for a letter of standing be granted.

The controversy really began this afternoon when the name of Chester McRoberts, first on the list for ordination, was proposed. No reflection was thrown on Mr. McRoberts, but with the submission of his name came the assertion from several members present that the examination of candidates for ordination, some time ago discontinued, should be now resumed. On top of this came Dr. Gundy's motion. "We used to be sure of the soundness of the teaching in our colleges," he continued, "but it is different now. We are a little doubtful about some of those recently apleges," he continued, "but it is different now. We are a little doubtful about some of those recently appointed to the faculties; we want to let the college know that the rank and file of our churches are sound in their doctrine; we want to let them know that the ministry is sound—at no time more than the present should this be emphasized."

Rev. Dr. Chown addressed the session on the opium traffic, the cigarette question and the white slave traffic. "Five years," he said, "is the maximum penalty for injuring a tree to the extent of \$5, but for selling a young girl into a life of shame five.

young girl into a life of shame five years is the extreme penalty.

NO HOSTILITY.

Great Britain and Germany Are Rivals, Not Enemies.

New York, June 2.—Count Von Bernstorff, the German Ambasasdor, who came to New York to-day to receive an honorary LL. D. at the Columbia University commencement, took occasion in the course of an interview this afternoon to pooh-pooh the talk of impending or probable war between England and Germany. "England has no need to worry about the likelihood of war with my country," he said. "The jingoism of a few easily excitable persons in England will soon pass over. Between the two Governments, there is no misunderstanding or enmity, and the sentiment of the two peoples toward one another is not hostility or bitterness, but a healthy, temperate, good-natured rivalry. "Germany is very proud of the progress which Count Zeppelin and our other aeronauts have made. But the English yellow journals are of course wrong in their efforts to make war talk out of our efforts to conquer the air. We are building no secret fleet of war airships, and we have no scout balloons hovering over the English coast." New York, June 2.—Count Von Bern-

Gained Both

In Strength and Weight.

Another Case That Proves The Merit of FERROZONE.

"I was in poor health nearly all last winter," writes Mrs. Cross, of Wakefield, Ont. "My appetite was variable, I was weak and unfit for work. I suffered a good deal from nervous prostration and palpitation of the heart. My digestion was generally out of order. By springtime I had lost flesh, color, and had a bad cough. The doctor didn't help me very much, so I decided to try Ferrozone. It did me ever so much good in one week. I gained strength, looked and felt a lot better. When I had used six boxes of Ferrozone I weighed myself and found a gain of fifteen pounds. Ferrozone rebuilt my constitution, and made me a new woman. I considered Ferorzone worth its weight in gold to every weak woman. It cures quickly and saves big doctors' bills.

No tonic so certain, so helpful, so safe; try Ferrozone yourself, 50c. pew lock of the surface of the safe; try Ferrozone yourself, 50c. pew

BICYCLIST KILLED.

Harry Drinkwater Struck by Electric Car at Galt Crossing.

Galt, June 2 .- Harry Drinkwater, middle-aged man, living on South Water street, was struck by a Galt, Preston & Hespeler street car on South Water street to-day, and received fatal injuries. The accident occurred at 1.30, and the man died shortly after 2. He was very deaf and attempted to ride his wheel across the tracks. The car struck the wheel and the man was thrown to the ground with terrific force, his skull being fractured. He leaves a large

ADDING MACHINE LIED.

It Aided Embezzler to nob Bank in Idaho.

Lewiston, Idaho, June 2.—National Bank Examiner Claude Gatch is authority-for the statement that a shortage has been discovered in the funds of the Lewiston National Bank. Beyond the fact that the stockholders have made the alleged shortage good Mr. Gatch declines to discuss the situation. It is alleged that the defalcation amounts to \$132,000.

The alleged embezzlement has, it is stated, extended over a period of the last five years, and it was made possible, it is understod, by manipulation of the adding machine used in computing the daily balances.
