Friend of the Prince Edward Island.

HOLLOWAY'S OINTMENT.

EXTRAORDINARY CURE OF ASTHMA!!

OF AN OLD LADY SEVENTY FIVE YEARS OF AGE.

Copy of a Letter from Mr. Thomas Weston, (Book Store,) Toronto, dated the 9th October, 1854.

To Professor Holloway,

Sir,—Gratitude compels me to make known to you the extraordinary benefit an aged parent has derived from the use of your Pills. My mother was afflicted for upwards of four and twenty years with asthma and spitting of blood; it was quite agony to see her suffer and hear her cough; I have often declared, that I would give all I possessed to have her cured; but although I paid a large sum for medicine and advice, it was all to no purpose. About three months ago, I thought perhaps your Pills might benefit her; at all events I resolved to give them a trial, which I did; the result was marvellous: by slow degrees, my mother became better, and after persevering with your remedies for nine weeks, she was perfectly cured, and now enjoys the best of health, although seventy-five years old. I remain, Sir, Your obliged, THOMAS WESTON.

(Signed) THOMAS WESTON.

REMARKABLE CURE OF DROPSY.

AFTER BEING TAPPED THREE TIMES.

Copy of a Letter from Anthony Smith, Esq Halifax, Nova Scotia, dated the 25th August, 1850 To Professor Holloway,

Sir,—I desire to add my testimony to the value of your Pills, in cases of dropsy. For nine months I suffered the greatest torture with this distressing complaint; was tapped three times, and finally given up by the doctors; having become in appearance as a skeleton, and with no more strength in me than a child just born. It was then, that I thought of trying your Pills, and immediately sent for a quantity, and commenced using them. The result I can scarcely credit even now, although true it is. After using them for four weeks, I felt much better, and by persevering with them, at the expiration of two months, I was completely cured. I have since enjoyed the best of health. I am, Sir, Yours sincerely (Signed) ANTHONY SMITH.

ASTONISHING CURE OF GENERAL DEBILITY AND LIVER COMPLAINT!!

Copy of a Letter from William Reeves, of Charlottetown, Prince Edward Island, dated 17th Nov. 1854.

To Professor Holloway,

Sir,—I am happy to say, that your Pills have restored me to health after suffering for nine years from the most intense general debility and languor, my liver and bowels were also much deranged for the whole of that time. I tried many medicines, but they were of no good to me, until I had recourse to your Pills, by taking which, and following the printed directions for seven weeks I was cured, after every other means failed to the astonishment of my neighbours, acquaintances, and friends. I shall ever feel grateful to you for this astonishing restoration to health, and will recommend your Pills to all sufferers, feeling it my duty to do so. I remain, Sir, your humble servant, (Signed) WILLIAM REEVES.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague Dropsy Inflammation Asthma Dysentery Jaundice Bilious Complaints Erysipelas Liver Complaints Blistches on the skin Female Irregularities Lumbago Bowel Complaints Fits Rheumatism Cholera Fevers of all kinds Pleurisy Consumption Head-ache Urine Retention Bowels Gout Stone and Gravel King's Evil Debility Indigestion Scrofula, or Sore Throats Stone and Gravel King's Evil Secondary Symptoms Tic Doloroux Tumours Ulcers Venereal Affections Worms all of whatever cause, &c.

Sold at the Establishment of Professor HOLLOWAY 244, Strand, (near Temple Bar,) London, and by all respectable Druggists and dealers in Medicines throughout the Civilized World, at the following prices:— 2s. 6s. 8s. and 20s. Currency each Box.

There is a considerable saving by taking the larger size.

N. B.—Directions for the guidance of patients in every disorder affixed to each Box.

GEORGE T. HASZARD, Sole Wholesale Agent for P. E. Island.

GENERAL SUMMARY.

A HUSBAND FOR THE PRINCESS ROYAL.—The Spectator has the following remarks upon the subject of a husband for the Princess Royal:— Prince Frederick William of Prussia is a guest at Balmoral, where the Royal Family of England is in villégiatura. The Princess Royal, now almost fifteen years of age, is as tall as her mother, and is "quite the woman"; and a species of authoritative nod is given to the popular presumption that Prince Frederick William comes to court a bride. The supposition is perhaps more premature, than incorrect. Queen Victoria enjoyed an unusual degree of freedom for a British Princess in being the reigning sovereign before she became a bride; and she was enabled to secure her own consent in accordance with the dictates of her affections. Etiquette has stifled more than one anecdote to prove the genuine character of the attachment—stifled the tale, at least, until some future day, when history may record the earliest evidence of that happy union which has rendered the Queen and her husband a model pair for the encouragement of the lieges. Of course, a Princess Royal could not expect the same immunities with a Queen-regnant; but Queen Victoria is a woman of so much sense, as well as good feeling, that no one would expect a force to be put upon her daughter, and we do not imagine, that the Princess Victoria will become Queen of Prussia expectant, by any paternal or regal compulsion. If there is truth in the story current, it is most probable, that the young people are to make each other's acquaintance, and that the Prince will be left to win the hand he claims. And, sooth to say, such a prize is seldom worth having, unless it be fairly won. Even princes have been compelled to discover that truth, as destiny makes them discover most truths which are essential to our mortal nature."

Dr. Lardner has published the following letter in the Times:—

The public in England and France have waited impatiently during about a fortnight for the despatches reporting the details of the fall of Sebastopol. Are you and the public, of whom you are the organ, aware that these despatches might have been sent (supposing them to fill six columns of the Times) to London in two hours?

The means of accomplishing this, unlike the destructive engines of Lord Dunderdonald, are no secret. They are public, and at the disposition of government. A newspaper is not the place for physical demonstrations. In this case their place may be supplied by the following fact:—

Some time since the following experiment was made under the direction of M. Leverrier and myself at the Ministry of the Interior, in the presence of two commissions—one of the legislative assembly, and the other of the institute.— A telegraphic wire was prepared, which extended over a great part of France, its two extremities being brought into the room where the experiment was made. The length of the wire was 1082 miles. The arrival as well as the departure of the despatch took place under the eyes of the commissions. A despatch consisting of 292 words was transmitted from one end of the wire. A style attached to the other end immediately began to write the message on a sheet of paper. The entire message was written in full, each word being spelled completely, and without abridgment, in fifty two seconds.

By this means, therefore, 20,000 words, using round numbers, would be transmitted in an hour; six columns of such correspondence as you publish would be transmitted in two hours.

It is scarcely necessary to say, that neither the length of the despatch nor the distance has anything to do with the result. The promptitude of the arrival would for all practical purposes be as great for 10,000 as for 1,000 miles, and the length of the despatch would merely augment the time of its delivery in the ratio of about 300 words per minute.

Why, then, do not the Governments of England and France avail themselves of this power? After the above experiment, the French Government had the necessary apparatus constructed, and still possesses it. I have more than once asked the authorities why they did not avail themselves of it. Their answer was, that, save in the most rare and exceptional cases, 20 or 30 words were quite sufficient for telegraphic messages, and that it was not worth while to organize a staff to work the telegraph in these exceptional cases.

The power to transmit the long despatches you will see was not disputed. I may add that, with the concurrence of the intermediate States through which the wires are carried, means are practicable and easy, by which the contents of the despatches transmitted would be unknown to all but the persons at the terminal stations.

The St. John Freeman reports that desertion from that Garrison are again becoming frequent. Within these three last weeks, three men of the 70th walked off; and on Saturday four of the Artillery went on a pleasure excursion and have not left their address. They took with them a coat and their arms and accoutrements.
