

INSPECTORS CONSIDERED MANY SUBJECTS

The semi-annual conference of the school inspectors of New Brunswick was concluded Tuesday evening at the Education Office, Dr. W. S. Carter, Chief Supt. presiding. Subjects dealt with were, district difficulties, schools unvisited by inspectors, reasons for certain districts being without teachers, school-house aid for ensuing year, changes in Poor District List, county drafts withheld, courses of instruction, text books, teacher's training, Junior Red Cross reports by inspectors, county institutes, minimum salary scale, suggestions for county districts, changes in School Law.

A. S. McFarlane of the Normal School staff reported upon his visitation of schools in company with Inspector Hebert.

Inspector Moore was appointed representative of the Inspectors upon the Text Book committee for the next two years. This appointment goes by seniority.

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario.—"When my daughter was thirteen and until she was fifteen she suffered every month so that she could hardly move around the house and when she would have to be carried home. Besides the pains and the irregularity she also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we both recommend your medicine. She works in a candy-shop now and seems well and strong. I give you permission to publish this letter as a testimonial."—Miss I. P. CLAUSE, 76 Walnut St., South, Hamilton, Ontario.

The Beauty Spot of the Kitchen

In its snowy jacket of white enamel, trimmed in burnished nickel, the Enterprise Monarch Range is the beauty spot of a woman's kitchen. A glance at it awakens her cooking instincts. Everything seems so easy.

ENTERPRISE MONARCH STEEL RANGE

And everything is easy. A wipe with a damp cloth cleans it, a turn of a handle increases or lessens the heat, it bakes all foods, the thermometer tells you just what is going on in the oven, your pie crusts come out golden brown, crisp and melting; your roasts team with flavor and goodness.

See the Enterprise dealer or a friend who has a Monarch in her kitchen, and write us for our FREE illustrated booklet.

THE PROBLEM OF THE MENTALLY DEFECTIVE

(Dr. J. G. Shearer)

The Mentally defective constitute, by no fault of their own, one of the greatest and most perplexing of social problems. This fact is all too little understood and appreciated. It is usually estimated that from 1½ to 2 per cent. of the population are below par mentally. On that basis there are in Canada from 135,000 to 180,000 of these unfortunates. Some are idiots, utterly helpless and unable to care for themselves. Other are imbeciles, a grade higher than idiots, but unable to support themselves, and requiring constant oversight and protection. Between the imbecile and the normal are the much larger proportion who because they are not easily detected constitute the greater menace. After they reach adult years they remain mere children in mentality and self-control, yet possessed with all the passions, propensities, and desires of adults.

It is easy to see what a menace this combination constitutes, to them selves and to the community.

Their sexual propensities are unusually strong, and they have neither mental vision to foresee the consequences of indulgence, nor moral self-control to govern their passions. They multiply twice as fast as normal folk, and always reproduce their own kind and this quite regardless of whether they are married or not. In the board of Education offices in Vancouver, is a family chart showing that some years ago an alcoholic man married a feeble minded woman. Twelve children were born. Three fortunately died young. The nine who grew up are all feeble minded. One of these a young woman now in her twenties, is the illegitimate mother of five children all feeble minded. Fourteen mental defectives, each one a social problem, from one marriage that never should have been allowed.

It is estimated by those best qualified to judge that two-thirds of all prostitution is due to feeble mindedness. Moreover a large proportion of the children born out of marriage have feeble minded mothers. These women living in promiscuous sexual indulgence soon develop venereal diseases, and infect all their male associates. Many of these associates are normal young men who afterwards marry, and infect their innocent wives, and pass on the dread heritage of these terrible diseases to their children. It is estimated that not less than forty per cent of venereal disease is due to this source.

BRONCHIAL ASTHMA

Choking and Gasping for Breath Relieved by "FRUIT-A-TIVES"

MRS. PENNINGTON
NEW ROCKLAND, P. Q.

"In 1919, I was taken with Bronchial Asthma and no one knows what I suffered with it during the winter. I began having Choking Spells—gasping for breath and could not speak. I would have one of these bad spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me.

"In the spring of 1920, I started taking 'Fruit-a-tives' and in a few days, the choking spells stopped, and I have had none since May 7th, 1920. I have so wanted to tell other sufferers who have the same trouble about 'Fruit-a-tives' for I know how they must suffer.

Some thought the Asthma would come back on me as winter came on but it has not, thanks to 'Fruit-a-tives' Mrs. J. M. PENNINGTON. 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

At least fifty per cent of all crimes in general are committed by these unfortunates. Their uncontrolled passions lead to assaults, common or indecent, to incendiarism, to murder, to burglary, to banditry, to the demoralization of children of both sexes.

Many of the epidemics of vice in schools is due to the presence of a small group of feeble minded girls or boys or both. Normal children especially boys are by them led into vice, and the evil rapidly spreads. Mischief is thus done that will curse these youths for years if not for life.

It is false economy not to provide for the care, training or restraint of these defectives. A large part of the enormous cost of administration of Justice, police courts, goals, prisons, reformatories, etc. could be saved if adequate provision were made for their segregation, specialized training, and the prevention of the reproduction of their kind. A subsequent article will however deal with the remedy for this great social evil.

BODY OF SIR WILFRID LAURIER BEING REMOVED

There is a possibility of the body of Sir Wilfrid Laurier being removed from its present resting place in Notre Dame Cemetery. Plans are now being completed which call for certain changes in the cemetery and when these are completed the body of the former Liberal chieftain may be placed in a final resting place just opposite the main-gates of the cemetery where the large vault is at present.

The oil vault which has done duty for over fifty years is being removed. This work commenced last week. A new one is being built a few hundred feet north of the present site on the spot formerly occupied by an old circular toolhouse.

Buffalo For England

A pair of buffalo from the great Canadian herd in Buffalo Park Wainwright, Alberta, will be shipped to England early this fall for the purpose of introducing new blood into the herds in the Zoological Gardens at Regent's Park. The shipment will probably go east late this month or early in September and will be accompanied by an attendant who will place the animals on board ship.

The only herd of buffalo of any size in England is that owned by the Duke of Bedford at Woburn Park, containing about sixty animals. Buffalo were first introduced into the Old Country in 1891 when ten full grown animals were shipped by Colonel C. J. Jones, familiarly known as "Buffalo Jones," from his own herd at McCook, Nebraska, to C. J. Leland.

Some of these afterwards came into the possession of the Duke of Bedford and were added to by purchases from Col. Goodnight and Carl Hasenback.

The shipment of buffalo from the Canadian herd at Wainwright this fall will be the second of its kind to Great Britain. Late in 1913, at the instance of the late Lord Strathcona, a donation of two three-year-old bison was made to the Royal Zoological Society of Ireland to be placed in the Dublin Gardens where they have now increased to five. Loans of buffalo to the Zoological Collections in various Canadian cities under a bond guaranteeing adequate provision for the health and maintenance of the animals have also been made from time to time.

EXPECTS TO DRIVE BILL SHAREN IN 2.01

Last week Bill Sharen was expected to get into real action on the Grand Circuit. He has a \$5,000 engagement in the Massachusetts stake for 2.12 trotters at Readville and he has \$10,000 engagements this week and the week after at Charter Oak Park, Hartford, Conn., and New York State Fair at Syracuse, with other rich races at Columbus, Lexington and elsewhere the following weeks. Canadians will watch him carefully, for he is not only the highest priced trotter ever bred in Canada but he has also established himself as the fastest trotter this Dominion has ever carried out.

Tommy Murphy, the owner says he expects to drive Bill Sharen in 2.01 this season.
