The Provincial Exhibition which opens at Charlottetown on Wednesday, the 5th inst, promises to far outstrip any previous Exhibition held on this Island. As many of our country friends as can possibly come, should make an effort to attend. This is an agricultural country, and our annual Exhibitions afford the best opportunities of noting the improvements that our farmers are making; our agriculturists should, therefore, not fail to attend.

As the Provincial Exhibition will be going on during Wednesday and Thursday of the same week, visitors going to and coming from the Exhibition, will have an opportunity of inspecting the numerous fancy articles displayed in this minor Exhibition in the Convent building. Visitors from the country should not forget that they can here procure a first-class meal at any hour of the day, at a very moderate price. By taking their meals, or otherwise apending a little money at the Bazaar, they will be assisting a most worthy object. The general public are sufficiently well aware of the efforts made by the good ladies of St. Joseph's, to establish and maintain their school in a most worthy and efficient manner. We therefore trupt that all will assist as much as possible to make this Bazaar. PREPARE FOR COLD WEATHER

By Having Your House Thoroughly Heated.

WE are now prepared to put this popular system of Heating into Dwellings, Stores and Buildings of every description. With our present facilities we can guarantee work second to none in the Province. We use the Gurney Hot Water Boiler, which, for simplicity, economy and durability cannot be excelled. There are thousands of them in use and working satisfactorily. We can supply other Boilers if required. The following testimonials speak for themselves:

fesses. A. White & Son: MESSAS. A. WHITE & SON:

DEAR SIES,—After giving the Hot-Water Heating Apparatus you placed in my house in the fall of 1885 a pretty thorough test, I have arrived at the conclusion that your system is the right one, and much superior to steam, which I use in my office. The heat is very steady and pleasant, caused, no doubt, from the atmosphere in each department being heated without disagreeable drafts of any kind. On the important score of economy I, do not think anyone could complain, as it-seems unimportant what grade of coal is used.

Wishing you every success in your line of business, I am yours truly, Summerside, August 1, 1887.

W. A. BRENNAN.

I have much pleasure in giving my unqualified approval of the Gurney Hot Water Boiler placed in my house two years ago. It has given me great satisfaction, and I can recommend it to anyone wanting a thoroughly good heating apparatus. I have used hard coal in it until lately, when I changed to soft, and find it quite as satisfactory. I intend to use the soft coal in future. Yours truly,
