T. A. & B. S.

The regular monthly meeting of the T. A. & B. Society was held yesterday afternoon, there being a large attendance of members. A large number of new members joined, no less than 18 being added to the roll. President Ellis announced that it has been decided to open up a savings bank in connection with the Society as a means of encouraging amongst the members habits of economy and thrift. He also announced that a scheme would soon be introduced to secure benefits to distressed members. A committee selected will make arrangements for the annual soiree. A sale of papers was held in the club rooms after the meeting adjourned.

DISCHARGING AT SPENCER'S COVE.—Capt. H. Wareham last week arrived at Spencer's Cove, B.B., from North Sydney and discharged her cargo of coal at the premises of his brother, Sunny Side, Spencer's Cove.

This is a good cooking timetable: mutton, 15 minutes to the pound; beef, 20 minutes; veal, 20 minutes; ham, 15 to 20 minutes; fowls, 20 to 35 minutes.

IN MATCHTOWN

Fortunately no Faith was Required, For She Had None.

"I had no faith whatever, but on the advice of a hale, hearty old gentleman who spoke from experience, I began to use Grape-Nuts about 2 years ago," writes an Ohio woman, who says she is 40, is known to be fair, and admits that she is growing plump on the new diet.

"I shall not try to tell you how I suffered for years from a deranged stomach that rejected almost all sorts of food, and digested what little was forced upon it only at the cost of great stress and pain.

"I was treated by many different doctors and they gave me many different medicines, and I even spent several years in exile from my home, thinking change of scene might do me good. You may judge of the gravity of my condition when I tell you I was sometimes compelled to use morphine for weeks at a time.

"For two years I have eaten Grape-Nuts food at least twice a day and I can now say that I have perfect health. I have taken no medicine in that time—Grape-Nuts has done it all. I can eat absolutely anything I wish, without stomach distress.

"I am a business woman and can walk my 2 or 3 miles a day and feel better for doing so. I have to use brains in my work, and it is remarkable how quick, alert and tireless my mental powers have become." Name given by Postum Co., Battle Creek, Mich.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in plags.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

At the Cathedral.

At 11 a.m. yesterday a Missa Cantata was sung in the R. C. Cathedral by Rev. Dr. Greene. After the Gospel, Rev. D. O'Callaghan preached a very appropriate and timely sermon on the Holy Name of Jesus, during the progress of which he strongly condemned the general practice at present existing of swearing and blasphemy. He especially alluded to the awful practice in vogue in this city of taking the Holy Name of Jesus in vain. This occurred in the course of ordinary conversation amongst adults at the corners of thoroughfares and on the city streets, and what the preacher specially deplored was its prevalence amongst boys of tender years. Many of those who are given to such horrible blasphemy are school boys, and the preacher held that it was the force of bad example on the part of erring fathers of families which contributed in a great measure to the dissemination of this terrible form of blasphemy which is enough in itself to evoke the Divine vengeance on the city. The rev. gentleman hoped that a cessation of this awful vice would soon be witnessed and that increased respect for the glorious name of the Redeemer would supplant it in the minds and hearts of the people.

IN MEMORIAM

Looking over your valuable paper I noticed with sincere regret the death of a dear old friend, Mr. James Kennedy. He was of a quiet, amiable disposition and his manner won for him many friends. He was born at St. Mary's, but left at an early age and received an education in the city. He entered the employ of Smith's where he was trained for the grocery business, his only brother, Capt. Kennedy, who was so well liked and much respected, died at Alicante. His father, who did a large and extensive business at St. Mary's, died there at an early age. He is survived by a widow, three children and an aged mother, three sisters, Mrs. Richard Sutton, of Trepassy, Mrs. N. Bulger, residing on Gover Street, and Mrs. S. Ryall, residing on Circular Road, to whom we extend our sincere sympathy.

Cars Running.

Saturday afternoon the men at work clearing the street car tracks on Water Street finished their task and the cars began to run on Water Street during the evening and kept up the service until midnight and all yesterday. The track on the north side of Water Street only is available. The belt line, however is not yet being used. In the stormy weather of Saturday night the trams were well patronized by citizens eager to get to their homes quickly.

GOING TO NEW YORK.—Mr. Colishaw and wife will leave by the express to-morrow evening for New York, where they will spend a few weeks.

The Wobun's Stormy Trip.

Resembling an ice berg more than a steamship the S. S. Wobun, Capt. Melike, slowly steamed into port yesterday morning, coal laden for Bowring Bros., after a lengthy run of 8 days from Sydney, and after experiencing terrific weather all the way along.

After leaving after midnight on Saturday week, the 6th inst., a hurricane with snow and mountainous seas was encountered, and this kind of weather prevailed all through the voyage. With 2,250 tons of coal on board the ship was deeply laden, and the seas which ran had full play on her. The weather being intensely cold and frosty the ship's decks and rigging were encased with a layer of ice several inches thick, and it was next to impossible to work her properly.

Tuesday afternoon last the Wobun had a terrible experience in the blizzard which then raged. A hurricane of S. E. wind prevailed and the ship was receiving a bad drubbing when suddenly as she lay to the steering gear gave out, and the ship for some time was at the mercy of the sea. Then the hand steering gear was brought into use and it took four of the seamen to manipulate the helm in the high sea running. Her head was thus kept up to the seas, and it looked as if no further damage would result.

When the wind on Wednesday chopped off to the W. N. W., causing a confused sea and the Wobun was badly buffeted, sea after sea swept the decks. A large derrick in the mid-ship section of the ship was broken in twain, tore away a lifeboat from the davits, beat away some of the stanchions, whipped the galley door from its hinges and did considerable other damage about the decks.

Wednesday evening St. Pierre light was sighted, the ship being then inside of Gallantry Head and with her steering gear out of order the vessel was in a nasty position, rendered more so from the fact that when the Captain attempted to put the ship about she would not answer her helm, and the vessel's engines were reversed and she backed off into deeper water where she had plenty of sea, room to drift while the engineers were trying to repair the steering gear. Owing to the ice thickly coating the chain and decks near the repairs were not finished until Saturday morning, and in the interim the ship received a drubbing. Such a great quantity of ice had formed on the decks that she had settled fully 12 inches further in the water. It was one of the most trying passages which Capt. Melike ever made in this port in mid-winter. It will be necessary to give the ship some repairs when she is finished discharging.

A meeting of the Gover St. Young Men's Association will be held to-night, at 9 o'clock, in Gover Street Church Primary Room. All members are requested to be present.—15,11

Wedding Bells.

BOUTCHER—BEST.
The wedding of Mr. George Boucher, of Spencer's Cove, P.E., and Miss Tryphena Best, of Miramich, was kept up with old time enthusiasm on the arrival of the bride and groom from St. John's at New Year. They were married in the city on the 27th December by Rev. J. Brinton, of St. Michael's Church. The bride was given away by Mr. John Hollett. She was charmingly attired in a suit of cream silk mull with hat to match, and carried a bouquet of forget-me-nots. Her bridesmaid was Miss Irma Boucher. On the following Saturday the party took the train for Placentia and connected with the s.s. Arkyie for their future home, Spencer's Cove. On coming into sight of their new home they were well pleased to find that such great preparations were made for their reception. Flags were hoisted on every pole and guns were firing in all directions. On 6 p.m. Monday Mr. and Mrs. Boucher opened their doors to the visitors in general as well as the invited guests. An enjoyable time was spent. The bridesmaids were in dark blue. The motor ferry brought them from their homes over to Placentia where three sleighs were waiting to carry them to the church. The ceremony was performed by Rt. Rev. Monsignor Reardon who delivered a brief discourse on the sanctity of marriage and the duties that it entailed. After the ceremony they boarded the ferry and returned to their future home where they were greeted with rounds of musketry. The festivities were kept up till the wee sma' hours. The writer wishes Mr. and Mrs. Bird a very happy wedded life. G. M. P.

BIRD—CONNORS.

A very pretty wedding took place at Dunville on January 8th, when Mr. William Bird, son of Joseph Bird, and Miss Mary A. Connors, daughter of Mr. Joachim Connors, postmaster, were united in the holy bonds of matrimony. The bridesmaids were Miss Mary Patterson and Miss Annie Barron. The groom was supported by Messrs. Thos. Dunphy and John Hartigan. The bride was handsomely attired in a fawn-coloured dress. The bridesmaids wore in dark blue. The motor ferry brought them from their homes over to Placentia where three sleighs were waiting to carry them to the church. The ceremony was performed by Rt. Rev. Monsignor Reardon who delivered a brief discourse on the sanctity of marriage and the duties that it entailed. After the ceremony they boarded the ferry and returned to their future home where they were greeted with rounds of musketry. The festivities were kept up till the wee sma' hours. The writer wishes Mr. and Mrs. Bird a very happy wedded life. G. M. P.

Timely Sermon

By His Lordship Bishop Jones.
His Lordship Bishop Jones occupied the pulpit in the Cathedral yesterday morning and preached a timely and most instructive sermon from a text in the Prophet Isaiah: "Wherefore do ye spend money for that which is not bread and your labour for that which satisfieth not?" The discourse was an able review of the problem of capital and labour in their mutual relations and in relation to the teaching of the prophets and Our Divine Lord Himself. It was the first sermon at which the Bishop officiated since his return from the Old Country.

President Barter

Writes About Clearing Streets of Snow.

Editor Evening Telegram.
Dear Sir.—Please allow me space in your widely circulated journal to make a few remarks as regards the truckmen and the way they are treated by some one in authority.

Now, sir, if I understand aright, the Street Car Co. claim 18 inches on each side of their truck. In the Truckmen's Union there are 275 horses at an average tax of \$5 each, which is one thousand three hundred and seventy-five dollars, paid by them to the Municipal Council. Besides that the amount collected from the Cabmen's Union is over another thousand dollars; making in all nearly \$3,000 for the use of Water Street and other streets for trucking in the city. Now, Sir, I contend that the Street Car Co. have no more right to heave their snow on the streets that we are paying for, no more than we have a right to heave it in on their track. I think that the contract says that the snow has got to be removed in 48 hours after falling. When the Company took the contract they knew that they weren't in a warm country where there is no snow. No doubt they made provision for all this. Water Street hasn't been cleared of snow yet the winter, and we are treated to my mind in a most shameful manner, which everybody can see. Some of the best horses in the city were that tired on Saturday evening that they could no more than haul the empty slide. The authorities follow out the law with regard to cleaning the sidewalks. If the snow is not removed in a certain length of time people are summoned, and a truckman with a load of coal hauled in on the sidewalk opposite the Custom House. Owing to the conditions of the street in that locality they were impassible for him at the time. He had to pay 50c., half his day's pay at this time of the year. I understand others are to be summoned also. Now the law says that you cannot go in on the sidewalk with horses. The law also says that the Street Car Co. have to remove the snow. Why not follow out the law in both cases? Something will have to be done and done quickly or we will have to give up trucking altogether. Of course we hear tell of automobiles coming to do the trucking, now is the time they are wanted. We earnestly request the Council to enforce the law re the clearing of the streets.

Thanking you for your kindness, I remain,
Yours,
JONAS BARTER,
President T. P. U.

A Serious Matter

The road leading down to the wharf at the Beach on Bell Island, is blocked with snow and a large quantity of freight which is there cannot be taken delivery of by the owners and who as a result are greatly inconvenienced. People cannot ship freight either and they are loud in their denunciation of the Government for having the place in such condition. This is a sample amongst many of the solicitude of the Tory Premier and party for the people. On all sides of the country roads are blocked with snow labor is scarce but not a cent is being spent to afford the poor labourer or fisherman a day's pay in such useful work. No wonder that the people have a "rod in pickle" for their picknicks.

MONDAY, Jan. 15, '12.
Headaches are of several kinds, and require correspondingly different treatment; but neuralgic and nervous headaches, which are perhaps the commonest kinds, can be relieved almost instantly by the use of McMurdo's Headache Wafers. These, taken according to directions, have no ill-effects of any kind, and will save a great deal of suffering. In most cases of neuralgic headache a general tonic is needed to remove the cause of the trouble. Such a tonic is our Quinine and Iron mixture, which has given remarkable results in cases of neuralgia and nervous trouble, helping as it does the system at all points. Price (Headache Wafers) 25c.; Quinine & Iron Tonic, 40c.
