THE ONLY WAY TO DEAL WITH THEM.

MONTREAL, To-day. The Anti-Conscriptionist oratory of Ferdinand Villeneuve came to a sudden termination to-night, a few minutes after he had addressed gathered anti's in La Fontaine Park. He was quietly arrested at the corner of Amherst and Roblin Streets and taken away without any disturbance and the meeting came to an end. It was announced shortly after that it was not for his speech to-night that Villeneuve was taken into custody by authorities, but for previous offences, though his address to-night was specially violent. He said, "When the time is ripe it would be far better for the Canadian people to raise the flaming flag of a free republic over the Parliament buildings at Ottawa than stay under the tyranny of the Union Jack." If this couldn't be done, he said, American aid would be called in and the Stars and Stripes would be a much better flag than the Union Jack. Alphonse Berthier, just after learning of the arrest of Villeneuve, declared that the English flag is the most corrupt flag in the world. Later he announced that he was going down to St. Catherine Street, and wanted 10 stout French-Canadians to go along to see that he got there. The wished-for body guard responded and Berthier made his departure. Michaelis Levi, one of the speakers said the British flag gave more freedom than the flag of the United States.

BUENOS AIRES IN UPROAR.

BUENOS AIRES, To-day. The downtown section of the city was the scene of wild disorders to-night in connection with the great anti-German demonstration, in which a thousand Americans took part. Many of those in the mobs carried fire brands and, as a result scores of buildings were set on fire. Several blocks of German business houses were destroyed. Among the structures attacked were the German Club, one of the finest edifices in the city and the building of the German Daily La Union. As fast as fired these

buildings were extinguished and started again. Mounted patrols and the entire fire department kept rushing from one point of the city to another in an attempt to quell the riots and put out the flames. In several instances the police who were attempting to shoot at those wielding the torches, were set upon by the crowds and disarmed. Extraordinary precautions have been taken by the authorities to protect Count Luxemburg, the German Foreign Minister, when he arrives here to-morrow morning to receive his passports.

RUSSIAN SITUATION IMPROVING.

PETROGRAD, To-day. According to statements made by the members of the Cabinet late last night, and the news of this morning, the situation of the Provisional Government is continuing steadily to improve, although in view of what is regarded as the desperate position of General Korniloff and his assistants in revolt, with whom it is declared that the Government will tolerate no compromise, there is still a danger of armed collision. The measures for the defence of the capital are completed. Troops upon whom the Government can rely continue to arrive, while the small minority of Korniloff's supporters at Petrograd appear thoroughly cowed. Similar conditions are reported from Moscow. Finance Minister Nekrasoff, Premier Kerensky's mouthpiece for giving out news, declared to-day that the Government's position was satisfactory. It was untrue that Korniloff's troops had been allowed to occupy Tsosna. He said that dissension among Korniloff's forces was general, while there was absolute solidarity among the Government troops. Many additional assurances of loyalty from Generals and political organizations have been received by the Government. The women soldiers of Russia will fight for the Government. The women's battalion declares it is its duty to take an active part in the domestic struggle. The Bolsheviks, who have been in jail for complicity in the revolt of July 16th, have published a demand for their liberation in order to fight the present revolt, giving a pledge that they will present themselves for trial when the revolt is crushed. The Minister of Justice has consented to release all those against whom no formal indictments have been preferred. An important fact in favor of the Government is that the President of the new Ukrainian Parliament and

Ukraine's representative here has issued orders to resist Korniloff by force and loyally to support the Petrograd Government. Perfect order is being maintained in the capital. Street meetings have been forbidden. Additional papers have been suppressed. The Reich appears to-day with four blank columns. Arrests continued during the night, the latest, according to the morning papers, being Colonel Clerzhake, Director of Military Censorship. General Korniloff's real difficulty seems to be the resolute opposition of the rank and file of the front army, and the resolute action of his adherent troops outside Petrograd. At a Cabinet meeting last night the Ministers emphasized the need for ending the revolt speedily, in view of the bad effect on the country and abroad, but so long as Korniloff does not open hostilities there is a strong feeling in favor of avoiding bloodshed, and probably the Government will postpone attacking the rebel troops until all hope of their secession from Korniloff is lost. Officials of the Provisional Government declare that Petrograd is amply supplied with provisions to withstand a siege.

LINER SUNK AND LIVES LOST.

BIG AIR FIGHTING.

LONDON, To-day. Reporting aerial operations on the British front in France, a war office statement issued last night says: "After midday of the 11th the bad visibility of the morning improved and aerial activity became great. Very successful artillery and photographic work was carried out continuously. During the day 281 bombs were dropped on various targets, including two aerodromes south of Lille and a large ammunition dump in the vicinity of Roulers. During the night 89 bombs were dropped on railway stations and ammunition dumps and trains in the Courtrai area, making a total weight of over six tons in 24 hours. The air fighting was very vigorous and strong formations of enemy scouts were encountered by our patrols. Our artillery and photographic machines working well over the enemy's country also, there were frequent engagements." Seven hostile machines were downed in the combats, twelve driven down out of control and one was shot down by anti-aircraft guns; eight of our machines are missing.

SHIPPING LOSSES.

LONDON, To-day. The summary of shipping losses for last week follows:—arrivals, 2,744; sailings, 2,283. British merchant vessels sunk by mine or submarine of over 1,600 tons, including one previously mentioned, twelve; under 1,600 tons, including one previously mentioned, six; British merchant vessels attacked unsuccessfully, including three previously mentioned, twelve. British fishing vessels sunk, four.

GERMAN MILITARY POSITION DETERIORATING.

LONDON, To-day. The Times prints an article from a German Journalist, who recently left Germany, in which it is stated that it is clear to all who know the internal conditions of Germany that the fourth war winter will bring a deterioration in the German military position. The first symptoms are even now to be discovered. Three causes lie at the root of this deterioration: first, there is an increasing deficiency of raw materials in the Munitions Industry

which with sharper control of import by neutral countries, will lead to a catastrophe in which the growing traffic crisis in Germany will play not an inconsiderable part. Second, there is the factor of the steadily more evident, of the summer war, the results of which in the less favourable conditions of autumn and winter will largely decrease and convert the joyous hopes of the overthrow of England into a melancholy resignation. For the domestic condition of Germany, however, nothing is more dangerous than military depression. The third cause and the one which appears most important, is the deterioration in quality of the reverse.

NO ITALIAN LOSSES.

ROME, To-day. It is announced that during the week ending Sept. 9th, no Italian ship was lost as a result of submarine attacks, or by striking mines. One packet boat was attacked by a submarine but escaped.

IMPORTANT CONFERENCE.

AMSTERDAM, To-day. According to the Wyster Zeitung, considerable importance is attached in political circles in Germany to the conference which Emperor William was holding yesterday in Berlin. Dr. Karl Helfferich, Vice-Chancellor, interrupted his holiday to attend the conference, and various army commanders came to Berlin for that purpose.

FROST KILLS BUMPER CROPS.

BOSTON, To-day. Eighty per cent of the bumper crop of New England was destroyed by two nights of frost this week, and squash beans and tomatoes suffered in a proportionate degree.

DOMINION PROSPERITY.

OTTAWA, To-day. For the first five months of the fiscal year the Dominion had a total revenue of \$112,000,000, an increase of \$22,900,000 over the same period of last year.

KORNILOFF'S MOVEMENTS.

PETROGRAD, To-day. Gatchia, thirty miles south-south-west of Petrograd, has been occupied by the forces of General Korniloff after it had been evacuated by Government troops. Another Korniloff force is thirty-four miles south of Petrograd in the direction of Tsarskoe Selo.

THE BUENOS AIRES RIOTS.

BUENOS AIRES, To-day. The rioting which began here late yesterday in an anti-German demonstration continued through the night. Every German business house and restaurant in the downtown district were wrecked. The German club and other buildings were damaged seriously by fire. The police wounded seven rioters seriously when they fired into a crowd, three of the injured are expected to die. At first the crowds were so unmanageable that the police closed all the streets leading to the German club and Consulate. The archives in these buildings were taken to storage vaults for safe keeping. Armed volunteers prevented the mob from destroying the offices of the German Transatlantic Company, which supplies the city's light. Heavy forces of Provisional troops are guarding the railway over which German Minister Luxemburg will arrive this morning. The Cabinet late last night approved the action of President Yrigoyen in presenting passports to Count Luxemburg. It is said to have considered similar action in the case of Baron Lowen, Swedish Minister, but no action will be taken pending the receipt of further details from Washington and Stockholm.

MOSLEM TROOPS PARDONED.

PETROGRAD, To-day. A Division of General Gornoloff's forces composed of Moslem troops has reached Tsarskoe Selo. Kugushoff, a loyal Mohammedan, was sent to treat with them, and they agreed to abandon resistance to the Provisional Government on condition that they be sent home to the Caucasus, where they must not be employed against Turks, their co-religionists. Premier Kerensky agreed to the proposal.

CIVILIAN EVACUATION OF BELGIUM.

HAYRE, To-day. The removal of the civilian population of Belgium continues, according to advice received here. Philadelphia Ledger: Less for three years, and days, is now, it appears, less. The list of things curtailed is already long. The bath, the water, and fuel, will not suffer a shortage in various other commodities. German who practices a bath nowadays generally in a bathtub, but in a house man still has much to do. London Daily Express: "Le Dernier Romanoff" is a nice story of Rasputin. Grand Duke Nicholas went to the Grand Duke that the Virgin had appeared in a dream and had said Russia must at once leave Germany and end a war. Grand Duke inquired when had appeared. "Three years ago," said the Virgin. "That's strange," said the Grand Duke, "for the Virgin also came to me and warned me that Rasputin would cause suggestions for a separation. I told me to kick the Virgin out of the story. A week the Grand Duke was of his command and he was casus!"

Do You Weigh the Cake of Soap You Buy?

The increase in the cost of nearly everything that is used in the manufacture of soap makes it impossible to give the same size, same weight and same quality as heretofore, *without increasing the price.*

Some soap manufacturers have cut down the size and reduced the quality.

KIRKMAN'S BORAX SOAP is the same to-day as it has been for over a quarter of a century—no change in the weight, in the size or in the quality.

When buying laundry soap, be sure you get—Full weight, full size and full quality.
