Crime & Criminals

The Jurisprudence of Crime—Medical, Biological, Psychological, Practical, by Charles Mercier, M.D., F.R.C.S.

The most sensible book yet written on this subject. An outspoken, fearless work which seems to clear away much of the "hot air" that has obscured so long the plain truth about "Crimes and Criminals."

Dr. Mercier stands as the exponent of common sense and recognized science applied to the study of Criminology.

By special arrangement with the publisher we are enabled to offer the 106th edition for only \$1.75, by mail \$1.80.

S. E. GARLAND, Leading Bookseller.

DR. LEHR, Dentist, 329 Water St.

RECOGNITION.

The care of the teeth is now recognized as a necessity. In fact the large hospitals all over the world examine the patients' teeth and where it is possible put them in good condition before attempting a surgical operation. Experience has shown that the patient has a better chance for recovery with a clean healthy mouth than without it. This ought to convince the most skeptical that care of the teeth is requisite to health.
