The city Montreal desires to bestow on yo token of its high appreciation of the istinguished service you have rendered to our country, and of honor done to Canada by the brilliant manner n which you have represented the Dominion on the occasion of the celebration of her Majesty's jubilee. This fair city considers it not only a pleasure but a duty to offer you in return for this service an unstinted measure of open-hearted hospitality and most gratulations. The citizens of Montreal, in common population of the whole

You have been the principal and elorecorded to mar this extraordinary uent exponent of the deep feelings of affection, loyalty and devotion to the person of her most gracious majest; which animate the Canadian people you have contributed largely to the orilliancy of the memorable demonstration which will constitute such an im portant page in the history of the sixtieth year of her majesty's glorious reign. It was with feelings of pride that the people of this country learned that among the great and distinguished personages congregated at this eventful time around the throne, no one more than yourself received more frequent and sincere marks of attention public sympathy at the hands of the English people. You occupied a posttion among the distinguished statesparalleled tribute stood quietly among men of Europe with a brilliancy which his friends, touched into gravity by the evidence of fealty, yea, the adoration, of his fellow-countrymen. We rejoiced when we heard of the honors conferred Splendid Demonstration in Honor of the Premier and Lady

Triumphal Voyage Up the River St. Lawrence.

The Great City Illuminated and Demonstration in Honor of the Great City Illuminated and Demonstration in Honor of the Splendid Demonstration in Honor of the Splendid Demonstration in Honor of the fore mentioned. In answer to a newspaper man's question he declared that he simply could not express how deeply he was moved by the good-will of his fellow-citizens. It was in every respect the most remarkable ebullition of the spirit of hero-worship, which is so deeply rooted in man, that has every been seen in this country, and it may be many a day before its like is seen again.

Among the gentlemen who accompanied Sir Wilfrid on the Druid were Senator C. A. P. Pelletier. Hon Francischer of the Legion of Honor. We recognize that the decoration could not be conferred upon one more worthy by the motherland of your ancestors. In discourses pronounced by you during your visit to England and France, in order to illustrate the feeling of union which exists in this country, you re-ferred to the monument erected at Quebec in memory of Wolfe and Mont calm, who fell like heroes on the same battlefield, both fighting, one for the flag of Britain, the other for the emblem of France. The event of today this immense gathering of your fellow citizens, united by a common thought, is the consecration, the justification of your noble utterance, and shows that over and above political or race feel ings there always exists—thank heaven -a sense of justice which renders homage to true merit, talent, loyalty and patriotism. We trust that you may long be spared by Providence to enjoy the result of the development of the patriotic ideas which you have so eloquently championed, and we pray you to convey the assurance of ou deep respect to Lady Laurier, who ac companied you throughout your glori ous mission, and who shared the de-monstrations of sympathy and regard

with which you were honored." THE PREMIER'S REPLY. Sir Wilfrid, speaking in English said: Mr. Mayor and fellow-country men of the English language,—Vainl would I endeavor to find words to con vey to you, as I wish I could do, the sentiments which this moment fill my heart. It has been my privilege or many occasions in my public career to witness grand demonstrations, but am within the truth when I say that within my experience on this contin-ent, never have I witnessed anything to compare with the demonstration of this day. Nay, more; it has been my privilege, as you are aware, to attend the jubilee of her Majesty the Queen and Empress. If we make a distinction between London and Montreal, remer bering that London has a population of very nearly 5,000,000 souls, and tha Montreal has not more than 300,000 souls, I tell you I am within the truth in saying this demonstration equals a least the demonstration which we saw in London on jubilee day. What I say now may seem to some extent to be pretentious. Nothing of the kind; it is sober truth. I am stating to you facts which all those who witnessed that de monstration can verify and justify as No change in cables; no exports to-day.

You can't go on losing flesh under ordinary conditions without the knowledge that something is wrong, either with digestion or nutrition. If the brain and nerves are not fed. they can't work. If the blood is not well supplied. it can't travel on its life journey through the body. Wasting is tearing down; Scott's Emulsion is building up. Its first action is to improve digestion, create an appetite and supply needed nutrition. Book free.
